Japan Bank for International Cooperation

Environmental Examination Report

- (1) Project Name
Substation Construction Project
- (2) Project Site
Republic of Iraq Dhi Qar Province, Al Muthanna Province, Maysan Province,
Basrah Province, etc
- (3) Project Outline
Construction and installation of substations
- (4) Category Classification
Category B
- (5) Reason for Classification
The project belongs to sensitive sector (Power Transmission and Distribution Lines), but it is not large-scale and does not include sensitive characteristics. And it is likely to have no significant adverse impact on the environment and it is not located in or around sensitive areas under the Guidelines.
- (6) Environmental Permits and Approvals
ESIA for construction and installation of substations was approved with conditions in September, 2015, by the authority.
- (7) Pollution Mitigation Measures
There is no undesirable environmental impact regarding air quality, water quality, waste management, noise and vibration expected.
- (8) Natural Environment
There are no nature reserves in vicinity of the project site. There are no protected species under both the laws and regulations of Republic of Iraq and IUCN in vicinity of the project site.
- (9) Social Environment
There are no ethnic minorities and indigenous people around the project site. It is confirmed that no land acquisition and resettlement will occur.

(1 0) International Standard

World Bank Safeguard Policies

(1 1) Others, Monitoring

Taking the above environmental review into consideration, JBIC will monitor compliance status with the collateral conditions attached to the ESIA report.

Questions

Q1. Please provide the address of the project site.

Address of the project site: Please see Q.14.

Q2. Please provide brief explanation of the project.

Construction of 400kv GIS Substations and 132kv Mobile Substations

Q3. Will JBIC loan be applied to a new project or an executing project? In case of an executing project, please inform of strong claims by stakeholders such as local residents, as well as improvement guidance or cessation orders for construction work / operations, from environmental authorities.

- New Project Executing Project (with Claim etc.)
 Executing Project (without Claim etc.) Others (Please specify)

Q4. In case of this project, is it necessary to execute Environmental Impact Assessment (EIA) based on the laws or regulations of the country where the project is to be implemented? If necessary, please inform the progress of EIA.

- Required (completed) Required (under execution or under planning)
 Not Required Others (Please specify)

Q5. In case that EIA is already completed, please inform whether EIA report is already approved based on the environmental assessment system of the country where the project is to be implemented or not. If EIA report is already approved, please provide the date and name of authorities of the approval.

- Approved (without condition) Approved (conditional)
 Under approval process Others (Please specify)

Date of Approval : _____

Name of Authorities : _____

Q6. If environmental permit(s) other than EIA is required, please provide the name of required permit(s). Have you obtained required permit(s)?

- Obtained Required, but not obtained yet
 Not required Others (Please specify)

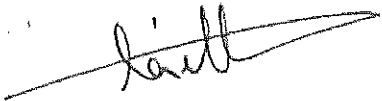

Name(s) of required permit(s) : _____

Q7. Will the loan be used for the undertaking that cannot specify the project at this stage (e.g. export or lease of machinery that has no relation with specific project, or Two Step Loan that cannot specify the project at the time of loan agreement)?

(Yes/No)

If you answered "Yes", it is not necessary to reply to the following questions.

If you answered "No", please reply to the following questions.

Q8. Are there any environmentally sensitive area shown below in and around project site?

(Yes / No)

If you answered "Yes", please select applicable items by marking, and reply to following questions.
If you answered "No", please reply to questions 9 and after.

- (1) National parks, protected areas designated by government (coastal areas, wetlands, habitats of minorities or indigenous populations, heritage sites, etc.)
- (2) Primeval forests, tropical natural forests
- (3) Ecologically important habitats (coral reefs, mangrove, tidal flats, etc.)
- (4) Habitats of endangered species of which protection is required under local laws and international agreements.
- (5) Areas that have risks of large scale increase in soil salinity or soil erosion
- (6) Desertification areas
- (7) Areas with special values from archaeological, historical and/or cultural viewpoints
- (8) Habitats of minorities, indigenous populations, nomadic people with traditional life style, or areas with special social value

Q9. Does the project involve following characteristics?

(Yes / No)

If you answered "Yes", please describe the scale of applicable characteristics, and reply to the questions 10 and after.

If you answered "No", please reply to questions 11 and after.

- (1) Involuntary resettlement (Number of resettlers:)
- (2) Pumping of groundwater (Scale: m³/year)
- (3) Land reclamation, development and/or clearing (Scale: ha)
- (4) Deforestation (Scale: ha)

Q10. Under the environmental impact assessment system of the country where the project is to be implemented, do the applicable characteristics from (1) – (4) above and their scale serve as basis for executing an EIA for the project?

- They do They do not
- Others (Please specify)

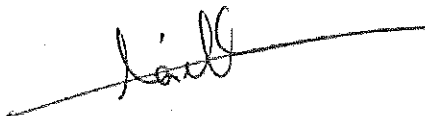

Q11. Will JBIC share in the project be equal or less than 5% of the total project cost, or the total amount of JBIC loan equal or less than SDR 10 million? (In the case of additional support for a past project, this shall be the accumulated total amount)

(Yes / No)

If you answered "Yes", it is not necessary to reply to the following questions.
If you answered "No", please reply to questions 12 and after.

Q12. Does the project belong to either of the sectors that impact on the environment is deemed immaterial or is not anticipated under normal conditions (e.g. maintenance of the existing facilities, non-expansary renovation project, acquisition of rights and interests without additional capital investment)?

(Yes / No)

If you answered "Yes", it is not necessary to reply to following questions.
If you answered "No", please reply to the questions 13 and after.

Q13. Does the project belong to the following sectors?

(Yes No)

If you answered "Yes", please specify the sector by marking, and reply to questions 14 and after.
If you answered "No", it is not necessary to reply to the following questions.

- (1) Mining
- (2) Oil and natural gas development
- (3) Pipelines
- (4) Iron and steel (projects that include large furnaces)
- (5) Non-ferrous metals smelting and refining
- (6) Petrochemicals (manufacture of raw materials; including complexes)
- (7) Petroleum refining
- (8) Oil, gas and chemical terminals
- (9) Paper and pulp
- (10) Manufacture and transport of toxic or poisonous substances regulated by international treaties, etc.
- (11) Thermal power
- (12) Nuclear power
- (13) Hydropower, dams and reservoirs
- (14) Power transmission and distribution lines involving large-scale involuntary resettlement, large-scale logging or submarine electrical cables
- (15) Roads, railways and bridges
- (16) Airports
- (17) Ports and harbors
- (18) Sewage and wastewater treatment having sensitive characteristics or located in sensitive areas or their vicinity
- (19) Waste management and disposal
- (20) Agriculture involving large-scale land-clearing or irrigation
- (21) Forestry
- (22) Tourism (construction of hotels, etc.)

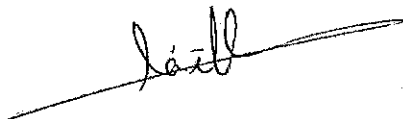

Q14. Please provide information on the scale of the project (project area, area of plants and buildings, production capacity, amounts of power generation, etc.) Further, please explain whether an execution of EIA is required on account of the large scale of the project in the country where the project is implemented.

The site locations of 400kV GIS Substations are as follows;

1. Shatra, Dhi Qar Province
2. Dewaniya, Qadisoyah Province or Muthana & Samawa province
3. Amara, Misan Province
4. Al Yousifia, Baghdad Province

The site locations of 132kV Mobile Substations are as follows;

1. Al Shaab, Baghdad, Baghdad Province
2. Al Sader, Baghdad, Baghdad Province
3. Al Kut South, Kut, Wasit Province
4. Al Najaf North, Najaf, Najaf Province
5. North Karbala, Karbala, Karbala Province
6. Old Karbala, Karbala, Karbala Province
7. Al Shamiah, Diwaniya, Qadisoyah Province
8. Hilla South, Hilla, Babil Province

9. Old Hilla, Hilla, Babil Province
10. Shatt Al Arab, Basra, Basra Province
11. Old Amara, Amara, Misan Province
12. Samawa North, Samawa, Muthanna Province
