

Environmental Examination Report

(1) Project Name

Solar Power Generation Project

(2) Project Site

Jordan, Ma'an

(3) Project Outline

Construction and operation of solar power plant

(4) Category Classification

B

(5) Reasons for Classification

Though the project has sensitive characteristics and is located in or around sensitive areas under the Guideline, it is likely to have no significant adverse impact on the environment.

(6) Environmental Permits and Approvals

ESIA Report for the project was approved by and environmental permits were obtained from the ESIA Technical Committee on July 10, 2014 with some conditions attached. In addition, meetings to explain to local residents of the project had been held.

(7) Pollution Mitigation Measures

Planned values of air and water quality, waste, noise and vibration are properly managed in accordance with local standards.

(8) Natural Environment

The project site is not located in or near the protected area. There are no nature reserves specified under local laws and by IUCN in vicinity of the project site.

(9) Social Environment

Appropriate measures for land acquisition have been taken and relocation of residents does not occur in the project site.

(1 0) International Standard  
IFC Performance Standard

(1 1) Others, Monitoring  
Monitoring will be conducted for compliance status of environmental permits  
and acquisition of construction and generation license.
