

Environmental Examination Report

(1) Project Name

Introduction of CCT to an existing steel plant

(2) Project Site

China

(3) Project Outline

Introduction of CCT to an existing steel plant

(4) Category Classification

Category B

(5) Reason for Classification

The project is not located in a sensitive area, nor has it sensitive characteristics under the Environmental Guidelines, and its potential adverse effects are not likely to be significant.

(6) Environmental Permits and Approvals

Necessary environmental permits and approvals have already been obtained from authorities of the host country's government.

(7) Pollution Mitigation Measures

It has been confirmed that the planned air quality, water quality and noise meets the local standards.

(8) Natural Environment

The project site is not located in the nature refuge designated by the host country's government, nor are there any areas nearby where environmental considerations are called for. It has been confirmed that the project site does not encompass the habitats of nationally protected endangered species.

(9) Social Environment

It is confirmed that the relocation of residents does not occur in the project site and there is no issue for which special social environmental considerations should be required.

(10) Others, Monitoring

Under this project, monitoring will be conducted over air quality.
