

Environmental Examination Report

1. Project Name: Oil Field Development Project
2. Project Site: Off the coast of the Gulf of Mexico in United Mexican States
3. Project Outline: The development of oil field
4. Category: A
5. Reason of Categorization: This project falls under the category of large-scale oil/natural gas development sector as set forth by the JBIC Environmental Guidelines.
6. Environmental Permission: It is confirmed that approvals for the environmental and social considerations have been made by the Secretariat of Environment and Natural Resources (Secretaría del Medio Ambiente y Recursos Naturales, «SEMARNAT»).
7. Anti-Pollution Measure: Planned value of air and water quality fulfills the standards of United Mexican States and is below/within the applicable international standards (International Finance Corporate).
8. Natural Environmental Considerations: The project site is not located in the nationally designated protected areas by the host country's government. It is confirmed that there aren't any habitats of rare species living within the project site.
9. Social Considerations: As this project site is offshore, the project does not cause land acquisition nor resettlement.
10. Others & Monitoring: Under this project, monitoring will be carried out over impacts on air and water qualities.
