

Environmental Examination Report

( 1 ) Project Name

Coal Fired Power Plant Project

( 2 ) Project Site

Republic of Indonesia, West Java

( 3 ) Project Outline

Coal- fired power plant

( 4 ) Category Classification

「A」

( 5 ) Reason for Classification

The project is a large scale thermal power plant and is located near sensitive areas as set forth in JBIC Environmental Guidelines.

( 6 ) Environmental Permits and Approvals

Pursuant to the laws and regulations of the Government of Indonesia, the EIA for the project was executed. The environmental permit was issued by Government of West Java.

( 7 ) Pollution Mitigation Measures

The projected quality of air and water emissions, as well as noise level, falls within the local standards.

( 8 ) Natural Environment

There are sensitive areas in the vicinity of project site, however appropriate mitigation measures are taken. There are no nature reserves or endangered species in the vicinity of project site.

( 9 ) Social Environment

The site has been acquired without any resettlements. Appropriate consideration is made on social environment.

( 1 0 ) Others, Monitoring

Taking the above environmental review into consideration, JBIC will confirm the result of monitoring by the project company in relation to air quality, water quality, ecosystem and biota, as well as social environment.
