

Environmental Examination Report

(1) Project Name

Manufacturing of polyester film for optical use.

(2) Project Site

Suzhou, Jiangsu, the People's Republic of China

(3) Project Outline

Manufacturing and sale of polyester film for optical use.

(4) Category Classification

Category B

(5) Reason for Classification

The project is not located in a sensitive area, nor has it sensitive characteristics under the Environmental Guidelines. Also, the project is not located at or near sites susceptible to environmental damages.

(6) Environmental Permits and Approvals

The approval for EIA has been already obtained for this project.

(7) Pollution Mitigation Measures

The emitted concentrations for air quality and water quality levels are expected to meet the local standard.

(8) Natural Environment

The project site is not located within the protected area designated by the host country's government, nor are there any areas nearby where environmental considerations are called for. It has been confirmed that the project site does not encompass the habitats of nationally protected endangered species.

(9) Social Environment

No involuntary resettlement will occur in the project site and there is no issue for which special social considerations should be required.

(1 0) Others, Monitoring

Monitoring of water quality will be conducted for this project.
