

Environmental Examination Report

- (1) Project Name : Renewable Energy Bank Loan

- (2) Project Site : The Republic of Turkey

- (3) Project Outline : Two-Step Loan for export of Japanese equipments machineries, parts, plants and/or services in connection with the renewable energy and/or climate change mitigation sectors by Turkish importer from Japanese supplier

- (4) Category Classification : FI

- (5) Reason for Classification : This loan is extended via financial intermediary, so projects to be financed are not identified at this stage but may have environmental impact.

- (6) Result of Environmental Review : After sub-projects are specified, JBIC will confirm via the financial intermediary that appropriate environmental and social considerations are made for them under JBIC Environmental Guidelines.
