

Environmental Examination Report

( 1 ) Project Name:

Global Bank Loan

( 2 ) Project Site:

Republic of South Africa

( 3 ) Project Outline:

This facility is expected to support the importer in Southern African countries to purchase Japanese goods and/or services.

( 4 ) Category Classification:

FI

( 5 ) Reason for Classification:

The project involves financing a financial intermediary, and sub-projects can neither be specified nor can it be confirmed if they have environmental impacts, prior to JBIC's approval for financing.

( 6 ) Result of Environmental Review:

After sub-projects are specified, JBIC will confirm via the financial intermediary whether appropriate environmental and social considerations have been made for them under JBIC Environmental Guidelines.
