

Environmental Examination Report

(1) Project Name

Production and sales of polyvinylidene fluoride

(2) Project Site

the People's Republic of China / Jiangsu

(3) Project Outline

Production and sales of polyvinylidene fluoride

(4) Category Classification

Category B

(5) Reason for Classification

The project does not belong to sensitive sector and does not include sensitive characteristics and is not located in or around sensitive areas under the Guidelines; therefore it is likely to have no significant adverse impact on the environment.

(6) Environmental Permits and Approvals

The Environmental Impact Assessment is approved on 29 December 2011 by the designated authority of the host country.

(7) Pollution Mitigation Measures

Air quality, water quality, waste, noise, vibration and odor are expected to meet the local criteria.

(8) Natural Environment

The project site is not located within the protected area designated by the host country's government, nor are there any areas nearby where environmental considerations are called for.

(9) Social Environment

No involuntary resettlement will occur in the project site and there is no issue for which special social considerations should be required.

(1 0) International Standard
World Bank Safeguard Policy

(1 1) Others, Monitoring

Monitoring of air quality, water quality, noise and vibration will be conducted for this project.
