

Environmental Examination Report

(1) Project Name

Supercritical Coal-Fired Power Plant Project

(2) Project Site

Uttar Pradesh, India

(3) Project Outline

Construction of the Supercritical Coal-Fired Power Plant

(4) Category Classification

A

(5) Reason for Classification

This project falls into the category of large-scale thermal power sector under the JBIC Environmental Guidelines. Also, it has environmental sensitive characteristics.

(6) Environmental Permits and Approvals

The Environmental Impact Assessment (EIA) on this project was prepared in compliance with the Indian laws and regulations by Ministry of Environment and Forests of Government of India and approved on January 1, 2011 with collateral conditions. Through such approval process, public consultation was held.

(7) Pollution Mitigation Measures

The planned value for air quality, water quality and noise basically complies with local standards and/or World Bank standards. It was confirmed that appropriate measures are taken for planned waste.

(8) Natural Environment

It is confirmed that appropriate measures for the protection of natural environment are properly managed.

(9) Social Environment

It is confirmed that appropriate measures have been taken for local

people who are economically affected by the project.

(1 0) International Standard

World Bank – Safe Guard Policy

(1 1) Others, Monitoring

Taking the above environmental review into consideration, JBIC will monitor compliance status with the collateral conditions attached to EIA report, air quality, water quality and progress of acquisition of land, resettlement and compensation.
