

Environmental Examination Report

(1) Project Name

Thermal Power Plant Project

(2) Project Site

Nakhon Si Thammarat Province, Kingdom of Thailand

(3) Project Outline

The project consists of the construction and operation of a gas-fired combined cycle power plant.

(4) Category Classification

A

(5) Reason for Classification

The project falls into the thermal power sector under the Environmental Guidelines.

(6) Environmental Permits and Approvals

Pursuant to the laws and regulations of the Kingdom of Thailand, the EIA for the project has been prepared for submission, and the environmental permit has been issued by Office of Natural Resources and Environmental Policy and Planning with conditions.

(7) Pollution Mitigation Measures

The projected quality of air and water emissions, as well as noise level, falls within the local standards. It is confirmed that wastes from the project are properly managed.

(8) Natural Environment

There are no nature reserves in the vicinity of the project site.

(9) Social Environment

There are no local people who are socially or economically affected by the project.

(10) International Standard

IFC Performance Standard

(11) Others, Monitoring

Taking the above environmental review into consideration, JBIC will confirm the result of monitoring by the project company in relation to air quality (NO<sub>2</sub> Ambient, NO<sub>x</sub> emissions) and existence of indication about ecosystem from authority.
