

Environmental Examination Report

(1) Project Name

Geothermal Power Plant Project

(2) Project Site

Republic of Indonesia, North Sumatra

(3) Project Outline

The project consists of the construction, possession and operation of geothermal power plant.

(4) Category Classification

A

(5) Reason for Classification

The project includes sensitive characteristics and is located in or near sensitive areas under the Environmental Guideline.

(6) Environmental Permits and Approvals

Pursuant to the laws and regulations of the Republic of Indonesia, the EIA for the project was prepared, and, based on EIA, the environmental permit was issued by Environmental Impact Control Agency of North Sumatra Province with some conditions attached. The project company will take appropriate measures to satisfy those conditions.

(7) Pollution Mitigation Measures

The predicted quality of air, water, waste, noise and vibration are properly managed in accordance with local standards.

(8) Natural Environment

There are no nature reserves in vicinity of project site.

The project is located within or around the area where protected species potentially live, but appropriate measures will be taken to mitigate the ecological impact.

(9) Social Environment

The project does not involve resettlement. It is confirmed that appropriate measures for social impact are taken.

(1 0) International Standard

IFC Performance Standard

(1 1) Others, Monitoring

Taking the above environmental review into consideration, JBIC will monitor compliance status with the conditions attached to the environmental permit, and comments from the agency regarding protected species etc.
