Environmental Examination Report

(1) Project Name

Wind Power Project

(2) Project Site

Taza, the northern area of the Kingdom of Morocco

(3) Project Outline

Construction and operation of wind power plant

(4) Category Classification

Α

(5) Reason for Classification

The project includes sensitive characteristics under the Guidelines and located in or near sensitive areas under the Guidelines.

(6) Environmental Permits and Approvals

The Environmental and Social Impact Assessment (ESIA) report on this project was prepared in compliance with the Kingdom of Morocco laws and regulations and was approved by Ministry of Energy, Mining, Water and Environment on February 28, 2017.

(7) Pollution Mitigation Measures

It is confirmed that there is no concern on the planned values of water and soil quality. It is also confirmed that the other environmental aspects, including the noise are properly managed.

(8) Natural Environment

It is confirmed that the effects toward natural environment are immaterial and that appropriate mitigation measures for the protection of the natural environment are properly developed.

(9) Social Environment

It is confirmed that appropriate plans have been made and appropriate measures have been taken for local people who are affected by the project.

(10) International Standard

IFC Performance Standards

(11) Others, Monitoring

Taking the above environmental review into consideration, JBIC will monitor (i) the project's compliance with the conditions attached to the ESIA report and (ii) the implementation status of livelihood restoration program.

Questions

Q1. Please provide the address of the project site.

Address of the project site: Site is located between Fes and Oujda in Northern Morocco at approximately 12 km North West of the town of Taza and belongs to three municipalities, Oulad Chrif, Meknassa Al Gharbia and Bab Marzouka.

Q2. Please provide brief explanation of the project.

Development, construction, operation ar	ıd maintenance o	of a Wind Farm (the total capacity of	f 148.35MW)
Q3. Will JBIC loan be applied to a new inform of strong claims by stakeholders orders for construction work / operations	s such as local re	esidents, as well as improvement gi	
✓ New Project □ Executing Project (without Classes)	aim etc.)	Executing Project (with Claim etc. Others (Please specify)
Q4. In case of this project, is it necessar on the laws or regulations of the country progress of ESIA.			
✓ Required (completed)☐ Not Required		Required (under execution or under Others (Please specify	er planning)
Q5. In case that ESIA is already comp the environmental and social assessment ESIA report is already approved, please p	system of the coprovide the date	untry where the project is to be impl and name of authorities of the appro	lemented or not. If

	The like	kelihood of severe project-related human rights impacts ()				

Q8. Are there any environmentally sensitive area(s) shown below in and around project site(s)?

Q12. Will JBIC share in the project be equal or less than 5% of the total project cost, or the total amount of JBIC loan equal or less than SDR 10 million? (In the case of additional support for a past project, this shall be the accumulated total amount)
(Yes/No)
If you answered "Yes", it is not necessary to reply to the following questions. If you answered "No", please reply to the questions 13 and after.
Q13. Does the project belong to either of the sectors that impact on the environment and society is deemed immaterial or is not anticipated under normal conditions (e.g. maintenance of the existing facilities, non-expansionary renovation project, and acquisition of rights and interests without additional capital investment)?
(Yes/No)
If you answered "Yes", it is not necessary to reply to the following questions. If you answered "No", please reply to the questions 14 and after.
Q14. Does the project belong to the following sectors?
(Yes / No)
If you answered "Yes", please specify the sector by marking, and reply to the questions 15 and after. If you answered "No", it is not necessary to reply to the following questions.
\square (1) Mining
☐ (2) Oil and natural gas development
 ☐ (3) Pipelines ☐ (4) Iron and steel (projects that include large furnaces) ☐ (5) Non-ferrous metals smelting and refining ☐ (6) Petrochemicals (manufacture of raw materials; including complexes)
 (4) Iron and steel (projects that include large furnaces) (5) Non-ferrous metals smelting and refining
(6) Petrochemicals (manufacture of raw materials; including complexes)
(7) Petroleum refining
 □ (8) Oil, gas and chemical terminals □ (9) Paper and pulp
(10) Cement plants (including a greenfield quarry)
(11) Manufacture and transport of toxic or poisonous substances regulated by international treaties, etc.
 □ (11) Manufacture and transport of toxic or poisonous substances regulated by international treaties, etc. □ (12) Thermal power □ (13) Nuclear power
☐ (13)Nuclear power ☐ (14) Hydropower, dams and reservoirs
(15) Power transmission and distribution lines involving large-scale involuntary resettlement, large-scale
logging or submarine electrical cables

Q15. Please provide information on the scale of the project (project area, area of plants and buildings, production capacity, amounts of power generation, etc.) Further, pleased explain whether an execution of ESIA

(19) Sewage and wastewater treatment having sensitive characteristics or located in sensitive areas or

(16) Roads, railways and bridges

(20) Waste management and disposal

(23) Tourism (construction of hotels, etc.)

(21) Agriculture involving large-scale land-clearing or irrigation

(17) Airports

(22) Forestry

(18) Ports and harbors

their vicinity

is required on account of the large scale of the project in the country where the project is implemented.
