Japan Bank for International Cooperation

Environmental Examination Report

Project Name Solar Power Project

2. Project Site

State of Coahuila, United Mexican States

3. Project Outline

Construction of a solar power plant

4. Category Classification

 \mathbf{R}

5. Reason for Classification

The project does not belong to sensitive sector and does not include sensitive characteristics and is not located in or around sensitive areas under the Guidelines, therefore it is likely to have no significant adverse impact on the environment.

6. Environmental Permits and Approvals

The Environmental and Social Impact Assessment (ESIA) report on this project was prepared in compliance with the regime of the country. Environmental permit has been obtained from the Mexican Secretary of Energy (Secretaria de Energia) on September 18th, 2017 and from the Mexican Secretary of

Environment and Natural Resources (Secretaria de Media Ambiente y Recursos Naturales) on February 7th, 2018.

7. Pollution Mitigation Measures

It is confirmed that this project does not produce air pollutants and that the effects on the quality of water, waste, and soil are immaterial. It is further confirmed that the other environmental aspects, including the noise during construction, has been properly managed.

8. Natural Environment

It is confirmed that the effects on natural environment are immaterial

and that appropriate mitigation measures would be properly developed.

9. Social Environment

It is confirmed that the effects on local people are immaterial and that there will be no involuntary resettlement of residents in relation to the project.

10. International Standard IFC Performance Standards

11. Others, Monitoring N.A

Questions

Q1.	Ple	Please provide the address of the project site.						
		Address of the project site: Project Location is: State of Coahuila						
Q2.	Ple	Please provide brief explanation of the project.						
signe	A 125 MW PV solar farm located in the Municipality of Matamoros in the State of Coahuila. A PPA was signed with Comisión Federal de Electricidad (CFE) within the framework of the Second Auction.							
Q3. Will JBIC loan be applied to a new project or an executing project? In case of an executing project, please inform of strong claims by stakeholders such as local residents, as well as improvement guidance or cessation orders for construction work / operations, from environmental authorities.								
		New Project		Executing Project (with Claim etc.)				
[Executing Project (without Claim etc.)		Others (Credit line)				
Q4. In case of this project, is it necessary to execute Environmental and Social Impact Assessment (ESIA) based on the laws or regulations of the country where the project is to be implemented? If necessary, please inform the progress of ESIA.								
[Required (completed)		Required (under execution or under planning)				
[Not Required		Others (Credit line)				
Q5. In case that ESIA is already completed, please inform whether ESIA report is already approved based on the environmental and social assessment system of the country where the project is to be implemented or not. If ESIA report is already approved, please provide the date and name of authorities of the approval.								
[Approved (without condition)		Approved (conditional)				
[Under approval process		Others (Credit line)				
Date of Approval: ESIA was approved on september 18 th 2017 Name of Authorities: SENER								
Q6. If environmental and social permit(s) other than ESIA is required, please provide the name of required permit(s). Have you obtained required permit(s)?								
I		Obtained		Required, but not obtained yet				
[Not required		Others (Credit line)				

Name(s) of required permit(s): Environmental Impact Assessment

Q7. Will the loan be used for the undertaking that cannot specify the project at this stage (e.g. export or lease of machinery that has no relation with specific project, or Two Step Loan that cannot specify the project at the time of loan agreement)?								
(Yes No)								
If you answered "Yes", it is not necessary to reply to the following questions. If you answered "No", please reply to the following questions.								
Q8. Are there any environmentally sensitive area(s) shown below in and around project site(s)?								
(Yes / No)								
If you answered "Yes", please select applicable items by marking, and reply to the following questions. If you answered "No", please reply to the questions 9 and after.								
 (1) National parks, nationally-designated protected areas (coastal areas, wetlands, areas for ethnic minorities or indigenous people, and cultural heritage, etc. designated by national governments) (2) Forests with important ecological value (including primary forests and natural forests in tropical areas) 								
(3) Habitats with important ecological value (including coral reefs, mangrove, wetland and tidal flats.)								
(4) Habitats of rare species requiring protection under domestic legislation, international treaties, etc.								
 □ (5) Areas in danger of large-scale salt accumulation or soil erosion □ (6) Areas with a remarkable tendency towards desertification □ (7) Areas with unique archaeological, historical or cultural value □ (8) Areas inhabited by ethnic minorities, indigenous peoples or nomadic peoples with traditional ways of life (including areas which are used for cultural or spiritual purposes) and other areas with special social value. 								
Q9. Does the project involve following characteristics?								
(Yes / No)								
If you answered "Yes", please describe the scale of applicable characteristics, and reply to the questions 10 and after. If you answered "No", please reply to the questions 11 and after.								
☐ (1) Involuntary resettlement and/or loss of means of livelihood								
(Number of affected people: ☐ (2) Pumping of groundwater (Scale: m³/year) ☐ (3) Land reclamation, development and/or clearing (Scale: ha) ☐ (4) Deforestation (Scale: ha)								
Q10. Under the environmental and social impact assessment system of the country where the project is to be implemented, do the applicable characteristics from $(1) - (4)$ of the questions 9 above and their scale serve as basis for executing an ESIA for the project?								
☐ They do ☐ They do not ☐ Others (Please specify)								
Q11 May the project involve significant social impacts?								

P

	/%/ / MT.		
	(Yes / No)		
If you If you	answered "Yes", please describe the outline of the impacts, and repanswered "No", please reply to the questions 12 and after.		
	The likelihood of severe project-related human rights impacts Others	()
JBIC	Will JBIC share in the project be equal or less than 5% of the to loan equal or less than SDR 10 million? (In the case of additional cumulated total amount).	otal project support for	cost, or the total amount of r a past project, this shall be
	(Yes / No)		
	answered "Yes", it is not necessary to reply to the following question answered "No", please reply to the questions 13 and after.	ons.	
imr non	Does the project belong to either of the sectors that impact on the naterial or is not anticipated under normal conditions (e.g. material or is not anticipated under normal conditions (e.g. material).	aintenance	of the existing facilities,
	(Yes / No)		
	answered "Yes", it is not necessary to reply to the following question answered "No", please reply to the questions 14 and after.	ons.	
Q14.	Does the project belong to the following sectors?		
	(Yes / No)		
	answered "Yes", please specify the sector by marking, and reply to answered "No", it is not necessary to reply to the following question		ons 15 and after.
000000000000000	 Mining Oil and natural gas development Pipelines Iron and steel (projects that include large furnaces) Non-ferrous metals smelting and refining Petrochemicals (manufacture of raw materials; including composition) Petroleum refining Oil, gas and chemical terminals Paper and pulp Cement plants (including a greenfield quarry) Manufacture and transport of toxic or poisonous substances refusion) Thermal power Nuclear power Hydropower, dams and reservoirs 		international treaties, etc.
	(15) Power transmission and distribution lines involving large-sca	le involunt	ary resettlement, large-scale

(19) Sewage and wastewater treatment having sensitive characteristics or located in sensitive areas or

logging or submarine electrical cables

(16) Roads, railways and bridges

☐ (17) Airports

☐ (18) Ports and harbors

their vicinity
(20) Waste management and disposal
(21) Agriculture involving large-scale land-clearing or irrigation
(22) Forestry
(23) Tourism (construction of hotels, etc.)

Q15. Please provide information on the scale of the project (project area, area of plants and buildings, production capacity, amounts of power generation, etc.) Further, pleased explain whether an execution of ESIA is required on account of the large scale of the project in the country where the project is implemented.
