(Notes) 1. Guarantee commitments made by JBIC (principal amount).

2. The figures denote loan commitments made by JBIC. Apart from them, JBIC has provided guarantees to the portion co-financed by private financial institutions.

5. Standard Loan Conditions

Standard loan conditions are shown below. Loan Interest rates are linked to the funding cost of JBIC, including the rate on borrowings from the Fiscal Loan Fund Special Account, and thus they are subject to changes in conditions of the financial market. A loan applicant should make an inquiry at the relevant loan department for specific loan conditions.

1— Standard Interest Rates

(As of July 15, 2015)

Type of Loans	Standard Interest Rate ²	Percentage of Loan Provided by JBIC
Export Loans	<ul style="list-style-type: none"> ■ Fixed at commitment (Yen CIRR)³ <ul style="list-style-type: none"> • 1.01% (Repayment period 5yrs or less) • 1.12% (Repayment period over 5yrs to 8.5yrs) • 1.22% (Repayment period over 8.5yrs) ■ Fixed at tenders³ <ul style="list-style-type: none"> • above rate + 0.2% 	60% limit

- (Notes) 1. SMEs are eligible for preferential interest rates and other favorable loan conditions.
 2. Premium is added based on the type of financing such as collateral / guarantee and loan schemes.
 3. Synthetic rate based on interest rates charged by JBIC and cofinancing institutions.
 4. Interest rates on loans in Japanese yen are determined based on specific loan periods and the amortization schedule.
 The interest rate shown in the table is a reference rate for a 10-year loan with lump-sum repayment upon maturity. Please make an inquiry at the relevant department for interest rate on specific conditions.
 5. Interest rates on loans in foreign currencies are linked to 6-month LIBOR for US dollars.
 6. Special interest rates will be applied based on policy implication such as contribution to "Promoting overseas development and acquisition of strategically important natural resources to Japan" or "Maintaining and improving the International competitiveness of Japanese industries."
 7. 70% limit for resource-related (import and overseas investment) loans.

2— Loan Maturity

The loan maturity for each loan will be determined by taking account of cash flows generated by each project.

3— Collateral, Guarantee

Collaterals and guarantees are determined in consultation with the clients.

Note 13

Notes to Financial Statements

1. Basis of presentation

The accompanying financial statements have been prepared from the accounting records maintained by Japan Bank for International Cooperation ("JBIC") in accordance with the accounting principles and practices generally accepted in Japan, which are different in certain aspects from the application and disclosure requirements of International Financial Reporting Standards.

Consolidated financial statements are not prepared since JBIC has no subsidiaries.

The amounts indicated in millions of yen are rounded down by omitting figures less than one million. Totals may therefore not add up exactly because of this rounding.

Amounts in U.S. dollars are presented solely for the convenience of readers outside Japan. The rate of ¥120.17=\$1.00, the foreign exchange rate on March 31, 2015, has been used in translations. The presentation of such amounts is not intended to imply that Japanese yen have been or could be readily converted, realized, or settled in U.S. dollars at the aforementioned rates or any other rate.

2. Significant accounting policies

(a) Securities

Held-to-maturity securities are carried at amortized cost based on the moving average method. Investments in affiliates are carried at cost based on the moving average method. Available-for-sale securities are in principle stated at fair value with changes in net unrealized gains or losses included directly in Net assets. However, available-for-sale securities whose fair value cannot be readily determined are carried at cost based on the moving average method.

Investments in partnerships for investment, which are regarded as securities under Article 2, Clause 2 of the Japanese Financial Instruments and Exchange Law, are recognized at an amount equivalent to JBIC's percentage share of the net assets of such partnerships, based upon the most recent financial statements available depending on the report date stipulated in the partnership agreement.

(b) Valuation method for derivative financial instruments

Derivative financial instruments are carried at fair value.

(c) Depreciation basis for fixed assets

(i) Property, plant and equipment (except for lease assets)

JBIC's tangible fixed assets are depreciated by the declining balance method over their useful economic lives except for buildings (excluding installed facilities) which are depreciated by the straight-line method.

Depreciation is based on the following range of estimated useful lives:

Buildings: 3 years to 50 years

Other: 2 years to 35 years

(ii) Intangible assets (except for lease assets)

Depreciation of intangible fixed assets is computed by the straight-line method. Software used by JBIC is depreciated over its useful life (5 years or less), which has been determined by JBIC.

(iii) Lease assets

Lease assets in "property, plant and equipment" or "intangible assets," under finance leases that do not involve transfer of ownership to the lessee are depreciated by the straight-line method over the lease term. Depreciation for lease assets is calculated with zero residual value being assigned to the asset.

(d) Method of amortization for deferred charges

Bond issuance cost is expensed as incurred.

(e) Foreign currency translation and revaluation method

JBIC maintains its accounting records in Japanese yen. Assets and liabilities denominated in foreign currencies are mostly translated into Japanese yen at the market exchange rate prevailing at the fiscal year end.

(f) Allowance for loan losses

JBIC's allowance for loan losses is maintained in accordance with internally established standards.

The allowance for claims on debtors who are legally bankrupt ("Bankrupt borrowers") or substantially bankrupt ("Substantially bankrupt borrowers") is provided based on the outstanding balance after the write-offs described as below and the deductions of the amount expected to be collected through the disposal of collateral and the execution of guarantees. The allowance for claims on debtors who are not legally bankrupt but are likely to become bankrupt ("Potentially bankrupt borrowers") is provided based on an assessment of the overall solvency of the debtors after deducting the amount expected to be collected through the disposal of collateral and the execution of guarantees.

The allowance for claims on debtors other than Bankrupt borrowers, Substantially bankrupt borrowers and Potentially bankrupt borrowers is provided primarily based on the default rate, which is calculated based on the actual defaults during a certain period in the past. The allowance for possible losses on specific overseas loans is provided based on the expected loss amount taking into consideration the political and economic situations of these countries.

All claims are assessed initially by the operational departments and subsequently by risk evaluation departments based on internal rules for self-assessment of asset quality. The risk evaluation departments, which is independent from the operational departments, review these self-assessments, and the allowance is provided based on the results of the assessments.

With respect to claims with collateral or guarantees on debtors who are legally or substantially bankrupt (“Bankrupt borrowers and substantially bankrupt borrowers”), the residual booked amount of the claims after deduction of the amount which is deemed collectable through the disposal of collateral or the execution of guarantees is written off. There are no accumulated write-offs as of March 31, 2015. (There were no accumulated write-offs as of March 31, 2014.)

(g) Provision for bonuses

The “provision for bonuses” is calculated and provided for based on the estimated amounts of future payments attributable to the services that have been rendered by employees to the date of the balance sheets.

(h) Provision for directors' bonuses

The “provision for directors' bonuses” is calculated and provided for based on the estimated amounts of future payments attributable to the services that have been rendered by directors to the date of the balance sheets.

(i) Provision for retirement benefits

The “provision for retirement benefits” represents the future payment for pension and retirement benefits to employees, and is accrued based on the projected benefit obligations and the estimated pension plan assets at the fiscal year end.

(i) Method of attributing the projected benefits to periods of services

In calculating the projected benefit obligation, the estimated amount of retirement benefit payments is attributed to the period up to the end of the fiscal year based on the benefit formula.

(ii) Accounting for actuarial gains or losses and prior service costs

Actuarial gains or losses and prior service costs are expensed as they are incurred.

(Additional Information)

On October 1, 2014, JBIC was authorized by the Minister of Health, Labour and Welfare to transfer to the government the past portion of the welfare pension fund plan that it manages for the government. The impact on the Statements of Operations for the year ended March 31, 2015 was ¥5,698 million (\$47 million), which was recorded as a component of extraordinary income.

In addition, JBIC abolished the welfare pension fund plan effective October 1, 2014 and established a defined benefit corporate pension plan and a defined contribution pension plan. JBIC has adopted the “Guidance on Accounting for Transfer Between Retirement Benefit Plans” (ASBJ Guidance No. 1) in respect of the accounting associated with the transfer to the government. The impact of this transfer on the financial statements for the current fiscal year is not significant.

(j) Provision for directors' retirement benefits

The “provision for directors' retirement benefits,” which provides for future retirement pension payment to directors, corporate auditors and executive officers, is recognized at the amount accrued at the end of the respective fiscal year.

(k) Accounting for hedges of interest rate risk

(i) Hedge accounting

JBIC applies the deferral method to derivatives used for interest risk hedging purposes

(ii) Hedging instruments and hedged items

Hedging instruments: interest rate swaps

Hedged items: loans, borrowings, bonds and notes

(iii) Hedging policy

JBIC enters into hedging transactions up to the amount of the underlying hedged assets and liabilities

(iv) Assessment of hedge effectiveness

JBIC assesses the effectiveness of designated hedges by measuring and comparing the change of fair value or cumulative change of cash flows of both hedging instruments and corresponding hedged items from the date of inception of the hedges to the assessment date.

(l) Accounting for hedges of foreign exchange risks

Hedging instruments used to hedge foreign exchange risks associated with JBIC's foreign currency denominated monetary assets and liabilities are accounted for using the deferral method, in accordance with the standard treatment of The Japanese Institute of Certified Public Accountants (JICPA) Industry Audit Committee Report No. 25.

The effectiveness of the hedges described above is assessed by comparing the foreign currency position of the hedged loans and bills discounted, borrowings, and bonds payable denominated in foreign currencies with that of the hedging instruments, such as currency swaps and forward foreign exchange contracts which are used for hedging the foreign exchange risks of loans and bills discounted, borrowings, and bonds payable denominated in foreign currencies.

(m) Consumption and other taxes

Consumption taxes and local consumption taxes ("consumption taxes") are excluded from transaction amounts. Non-deductible consumption taxes related to property, plant and equipment are expensed as incurred.

(n) Scope of cash and cash equivalents in the statements of cash flows

Cash and cash equivalents as stated in the Statements of Cash Flows consists of cash on hand and Deposit with the Bank of Japan in "Cash and due from banks" in the balance sheets.

3. Change in accounting policy

(a) Application of "Accounting Standard for Retirement Benefits," and others

JBIC adopted Section 35 of "Accounting Standard for Retirement Benefits" (ASBJ Statement No. 26 of May 17, 2012) and the main clause of Section 67 of "Guidance on Accounting Standard for Retirement Benefits" (ASBJ Guidance No. 25 of March 26, 2015), effective April, 2014. As a result, JBIC has revised the method for calculating the projected benefit obligation and service costs in the following respects: the method for attributing projected benefits to each period has been changed from the straight-line basis to the benefit formula basis, and the method for determining the discount rate has been changed from (i) the discount rate based on the approximate number of years to the average residual service period of employees to (ii) a single weighted average discount rate reflecting the expected timing and amount per projected payment period.

The application of "Accounting Standard for Retirement Benefits," and others are in accordance with the transitional treatment provided in Paragraph 37 of Accounting Standard for Retirement Benefits. The cumulative effect of changing the method for calculating the retirement benefit obligation and service costs has been recorded in retained earnings at the beginning of the fiscal year ended March 31, 2015.

As a result, provision for retirement benefits decreased by ¥1,182 million (\$10 million) and retained earnings increased by ¥1,182 million (\$10 million) at the beginning of the fiscal year ended March 31, 2015.

The impact on ordinary profit and net income for the fiscal year ended March 31, 2015 and on net assets per share and net income per share for the fiscal year ended March 31, 2015 is not significant.

4. Equities securities of or investments in affiliates

Among the securities acquired under resale agreement(s), these securities which can be sold or pledged without restrictions amount to:

	March 31, 2014 (In millions of yen)	March 31, 2015 (In millions of yen)	March 31, 2015 (In millions of U.S. dollars)
Receivables under resale agreement(s)	¥ 202,733	¥ —	\$ —

6. Loans

(a) Bankrupt loans and non-accrual loans included in loans and bills discounted:

	March 31, 2014 (In millions of yen)	March 31, 2015 (In millions of yen)	March 31, 2015 (In millions of U.S. dollars)
Bankrupt loans	¥ —	¥ —	\$ —
Non-accrual loans	96,366	120,482	1,003

"Bankrupt loans" are loans, defined in Article 96, Paragraph 1, Item (iii), a. through e. and Item (iv) of the Corporate Tax Law Enforcement Ordinance (Government Ordinance No. 97, 1965), on which accrued interest income is not recognized as there is substantial uncertainty over the ultimate collectability of either principal or interest because they have been in arrears for a considerable period of time or for other reasons.

“Non-accrual loans” are loans on which accrued interest income is not recognized, although this excludes Bankrupt loans and the loans on which interest payments are deferred in order to support the borrowers’ recovery from financial difficulties.

- (b) Loans with interest or principal repayments three months or more in arrears included in loans and bills discounted:

	March 31, 2014 (In millions of yen)	March 31, 2015 (In millions of yen)	March 31, 2015 (In millions of U.S. dollars)
Loans with interest or principal repayments three months or more in arrears	¥ 75,579	¥ 35,945	\$ 299

“Loans with interest or principal repayments three months or more in arrears” are loans whose principal or interest payment is three months or more in arrears, and which do not fall under the category of “Bankrupt loans” and “Non-accrual loans.”

- (c) Restructured loans included in loans and bills discounted:

	March 31, 2014 (In millions of yen)	March 31, 2015 (In millions of yen)	March 31, 2015 (In millions of U.S. dollars)
Restructured loans	¥ 77,386	¥ 73,770	\$ 614

“Restructured loans” are loans whose repayment terms and conditions have been amended in favor of the borrowers (e.g. reduction of or exemption from the stated interest rate, the deferral of interest payments, the extension of principal repayments or renunciation of claims) in order to support the borrowers’ recovery from financial difficulties, and which do not fall under the category of “Bankrupt loans,” “Non-accrual loans,” or “Loans with interest or principal repayments three months or more in arrears.”

- (d) The total amount of bankrupt loans, non-accrual loans, loans with interest or principal repayments three months or more in arrears, and restructured loans:

	March 31, 2014 (In millions of yen)	March 31, 2015 (In millions of yen)	March 31, 2015 (In millions of U.S. dollars)
Total amount	¥ 249,332	¥ 230,198	\$ 1,916

The amounts of loans indicated in table (a) through (d) above are the gross amounts prior to the deduction of allowance for possible loan losses.

- (e) JBIC, as a policy, does not pay down loans in part or in full immediately after the execution of the loan agreements, but instead makes disbursement, in accordance with the progress of the underlying projects. These undisbursed amounts are not included in the loans on deed in the balance sheets. The balance of unpaid amounts is as follows:

	March 31, 2014 (In millions of yen)	March 31, 2015 (In millions of yen)	March 31, 2015 (In millions of U.S. dollars)
Balance of unpaid loans	¥ 2,232,353	¥ 3,126,981	\$ 26,021

7. Assets pledged as collateral

Pursuant to Article 34 of the Japan Bank for International Cooperation Act (“JBIC Act”), all JBIC assets are pledged as general collateral for bonds:

	March 31, 2014 (In millions of yen)	March 31, 2015 (In millions of yen)	March 31, 2015 (In millions of U.S. dollars)
Bonds payable	¥ 2,711,377	¥ 3,049,490	\$ 25,376

8. Accumulated depreciation of fixed assets

	March 31, 2014 (In millions of yen)	March 31, 2015 (In millions of yen)	March 31, 2015 (In millions of U.S. dollars)
Accumulated depreciation	¥ 698	¥ 1,140	\$ 9

9. Contingent liabilities

Contingent liabilities related to debt assumption agreements for bonds payable are as follows:

	March 31, 2014 (In millions of yen)	March 31, 2015 (In millions of yen)	March 31, 2015 (In millions of U.S. dollars)
15th FILP Agency Bonds (former JBIC)	¥ 50,000	¥ —	\$ —

In addition, Japan Finance Corporation (“JFC”) assumed the obligations of the JFC bonds on April 1, 2012, and JBIC is jointly responsible for the obligations of these bonds. In accordance with Article 17 (2) of the Supplementary Provisions of the JBIC Act, all of JBIC’s assets are pledged as general collateral for these joint obligations as follows.

	March 31, 2014 (In millions of yen)	March 31, 2015 (In millions of yen)	March 31, 2015 (In millions of U.S. dollars)
	¥ 780,000	¥ 710,000	\$ 5,908

10. Restriction on dividend distribution

JBIC is subject to restriction on its dividends distribution pursuant to Article 31 of the JBIC Act.

JBIC shall accumulate, as a reserve, an amount calculated in accordance with the standards prescribed by the Cabinet Order until it reaches a certain amount stipulated by the Cabinet Order; and if there still is a surplus, JBIC shall pay such surplus into the national treasury within 3 months after the annual closing date.

In the event that the amount of retained earnings brought forward falls below zero, a reserve shall be transferred to the retained earnings brought forward to the extent that its amount of retained earnings brought forward becomes zero.

11. Income on transactions with affiliates

Income on transactions with affiliates is as follows:

	March 31, 2014 (In millions of yen)	March 31, 2015 (In millions of yen)	March 31, 2015 (In millions of U.S. dollars)

13. Cash Flows

“Cash and cash equivalents” in the Statements of Cash Flows as of March 31, 2014 and 2015 reconciles to cash and due from banks in the balance sheets as follows:

	March 31, 2014 (In millions of yen)	March 31, 2015 (In millions of yen)	March 31, 2015 (In millions of U.S. dollars)
Cash and due from banks	¥ 723,189	¥ 850,496	\$ 7,077
Time deposits and others	(680,822)	(809,845)	(6,739)
Cash and cash equivalents	¥ 42,367	¥ 40,651	\$ 338

14. Lease Transactions

(a) Finance lease transactions

Finance lease transactions that do not involve the transfer of ownership to the lessee

(i) Description of lease assets

① Property, plant and equipment: Equipment and property

② Intangible assets: Not applicable

(ii) Depreciation of lease assets

Depreciation of lease assets is calculated under the method as set forth in Note 2 (c).

(b) Operating lease transactions

Future minimum lease payments for noncancelable operating lease transactions are as follows:

	March 31, 2014 (In millions of yen)	March 31, 2015 (In millions of yen)	March 31, 2015 (In millions of U.S. dollars)

15. Financial instruments and related disclosure

(a) Status of financial instruments

(i) Initiatives for financial instruments

Based on the JBIC Act, JBIC is a policy-based financial institution wholly owned by the Japanese government, which has the purpose of contributing to the sound development of Japan and the international economy and society, by performing the financial function to promote the overseas development and securement of resources which are important for Japan; maintaining and improving the international competitiveness of Japanese industries; promoting the overseas business having the purpose of preserving the global environment, such as preventing global warming, as well as preventing disruptions to international financial order or taking appropriate measures with respect to damages caused by such disruption.

JBIC's principal operations consist of providing export loans, import loans, investment financing, financing for business development (including guarantees) and capital investment. To conduct these operations, funds are raised through borrowing from the fiscal investment and loans and the foreign exchange fund special account, and the issuing of bonds. An ALM (asset and liability management) function has been established in respect of our financial assets and liabilities that are subject to interest rate and currency fluctuations to assist in ensuring that such fluctuations do not have an adverse effect on our operations. In addition, derivative transactions are entered into for the purpose of mitigating risk inherent in foreign currency denominated transactions. Financial instruments that can be used for the management of surplus funds are limited to safe instruments such as Japanese government bonds, etc., as stipulated in the JBIC Act.

The budget required for governmental financial operations is decided upon by the Diet of Japan, and business plans and financial plans (borrowing from fiscal investment and loans, bonds, general accounting investment, and loans, etc.) are appended to the budget and submitted to the Diet of Japan.

(ii) Types of financial instruments and risks

The assets that JBIC holds mainly include loans to borrowers in Japan and overseas, and securities and liabilities mainly include borrowings and bonds. The associated risks are described below.

① Credit risk

Credit risk is the risk that JBIC will suffer losses if the financial condition of the borrower deteriorates and the value of assets (including off-balance sheet assets) decrease or disappear.

The credit risks associated with JBIC include sovereign risk, country risk, corporate risk, and project risk. Because of the characteristic of supports for overseas economic transactions conducted by JBIC, much financing is provided to overseas governments, governmental institutions, and overseas corporations; the credit risk associated with the credit provided typically consists of sovereign or country risk.

As a result, if the financial condition of the individual borrower significantly deteriorates due to political and economic trends in the borrower's country or region, JBIC's performance and financial condition can be adversely affected.

(Note) Sovereign risk refers to risk associated with credit supplied to foreign governments, country risk refers to risk associated with the country in which the corporation or project is located (risk, in addition to corporate risk or project risk, associated with the country in which the corporation or the project is located) and corporate risk refers to the risk associated with credit to corporations and project risk refers to the risk that the cash flow of an underlying project will not perform as planned, in the case of project finance, where the repayment of the borrowing is primarily secured by the cash flow of the project to which credit is supplied.

② Market risk

Market risk is the risk that the value of assets and liabilities (including off-balance sheet items) will fluctuate and losses will be incurred, or profits derived from assets and liabilities (including off-balance sheet items) will fluctuate and losses will be incurred due to the fluctuation of various market risk factors such as interest rates, exchange rates, etc.

The market risk associated with JBIC mainly consists of foreign exchange risk and interest rate risk, and losses could be suffered from these risks from market fluctuations. However, in principle, these risks are hedged through interest rate swaps, currency swaps, and forward foreign exchange contracts.

JBIC uses hedge accounting for interest rate hedges, where the hedging instrument is interest rate swaps to hedge the market fluctuation risk associated with loans, borrowed money and bonds. The effectiveness of the hedges is assessed by measuring and comparing the change in fair value or cumulative change in cash flows of both hedging instruments and corresponding hedged items from the date of inception of the hedges to the assessment date.

JBIC uses hedge accounting for foreign exchange hedges, where currency swaps and forward foreign exchange contracts are used to hedge items such as loans, borrowings, and bonds for foreign exchange risk. The effectiveness of the hedging currency-swaps and forward foreign exchange contracts, hedging the foreign exchange risks of monetary assets and liabilities denominated in foreign currencies, is assessed by comparing the foreign currency position of the hedged monetary assets and liabilities with that of the hedging instruments.

③ Liquidity risk

Liquidity risk is the risk that losses will be incurred as a result of funding challenges due to a maturity mismatch between financing and funding or unexpected outflow of funds, or being forced to fund at an interest rate significantly higher than in normal circumstances (funding risk), as well as the risk that losses will be incurred from a failure to ingenerate transactions in the market due to market disruption or from being forced to make transactions at a significantly disadvantageous price than in normal circumstances (market liquidity risk).

Long-term and stable funds, such as fiscal loan funds, government-guaranteed bonds, and FILP agency bonds, are secured to finance JBIC and deposits are not accepted, with the result that it considers liquidity risk to be limited. However, financing costs could increase due to market disruption and unexpected events.

(iii) Risk management structure for financial instruments

The risk management structure of JBIC is described below.

① Credit risk management

The basis of credit risk management is centered on individual credit management based on the creditworthiness of the borrower during the credit approval process.

When a new credit application is processed, the relevant finance departments (sales promotion department) and credit departments collect and analyze information on the borrower. The overseas representative offices also play a part in collecting information on foreign governments and corporations. Credit appraisal takes place based on the information that has been gathered and analyzed, with the different departments ensuring appropriate checks throughout the process, leading to the final decision by the management.

For lending to foreign governments and corporations, JBIC makes most use of its position as a public institution and exchanges views and information with governments and other authorities in recipient countries, international institutions such as the IMF and the World Bank, other regional development banks and official export credit agencies as well as private financial institutions in the industrial countries. Using all these channels, JBIC evaluates sovereign or country risk (risk in addition to corporate risk associated with the country in which the corporation is located) based on a broad range of information on government and government agency borrowers as well as political and economic conditions in their countries.

The relevant finance departments and credit departments conduct proper credit risk management based on the credit risk rating system for segmented risk categories and the asset self assessment system based on the Financial Inspection Manual of the Japanese Financial Services Agency. In addition, an Integrated Risk Management Committee is held regularly to report the status of credit management to the management. In addition, an Integrated Risk Management Committee is held regularly to report the status of credit management to the management. The credit management situation is also checked by an independent auditing department.

In addition, a claims protection mechanism exists based on an international framework unique to official creditors, that is not contained in private sector financial institutions, for official claims on foreign governments. This mechanism consists of international financial assistance upon international approval by the Paris Club, an international group focusing on debt, to allow the debtor country to continue debt repayment when the debtor country becomes temporarily unable to service its debt due to economic conditions. As part of this international financial assistance, the debtor country conducts an economic reform program upon agreement with the IMF in order to secure the ability to sustainably service its debt. In view of JBIC's position as a public financial institution, it will use the framework of the Paris Club to preserve its official claims on foreign governments.

Besides the individual credit management outlined above, JBIC quantifies credit risks to assess the overall risk of the portfolio in these operations. To quantify credit risks, it is important to take into account the characteristic of the loan portfolio, namely, that there are a significant proportion of long-term loans and loans involving sovereign risk or country risk. Also to be taken into account is the mechanism of securing assets, such as the framework of international financial assistance to debtor countries through the Paris Club, which is unique to official creditors. JBIC uses a unique model to quantify the credit risk taking account of the above explained elements and measures amount of credit risk, which are utilized for credit risk management.

② Market risk management

ALM is used to manage foreign exchange risk and interest rate risk for these operations. Market risk management protocols contain detailed stipulations of risk management methods and procedures, which are used by the ALM Committee to assess and confirm the execution of ALM, and for discussions concerning future responses. In addition, monitoring is conducted through gap analysis and interest rate sensitivity analysis as well as Value at Risk (“VaR”) to comprehensively assess the interest and terms of financial assets and liabilities. The results are regularly reported to the ALM Committee.

The basic policy for managing foreign exchange risk and interest rate risk at JBIC is described below.

1) Foreign exchange risk

Foreign currency-denominated loans conducted in JBIC involve risks related to exchange rate fluctuations. We have a consistent policy of managing this risk by fully hedging this risk exposure through the use of currency swaps and forward foreign exchange contracts.

2) Interest rate risk

Interest rate risk arises from exposure to market interest rate fluctuations for yen-denominated loan and foreign currency-denominated loan operations and the policy for managing interest rate risk is described below.

a. Yen-denominated loan operations

Funding for yen-denominated loans is mainly managed by using fixed-rate loans. However, swaps are used to hedge interest rate risk for portions of loans that are thought to have high exposures to interest rate fluctuations. Interest rate risk for denominated loans is limited.

b. Foreign currency-denominated loan operations

For foreign currency-denominated loan operations, interest rate risk is hedged through the application of a consistent policy of using interest rate swaps and managing the funds with floating interest rates for both loans and related funding arrangements.

3) Status of market risk

JBIC only maintains a banking account and does not have financial instruments in a trading account. While JBIC is managed by hedging operations in principle, stated previously, market risk is measured in order to, including but not limited to, assess potential risks. The following represents an overview of the market risk exposure in the current fiscal year. In conjunction with further refinements of risk measurement methods, JBIC measures market risk (value at risk, or “VaR”) by including the foreign exchange fluctuation risk relating to foreign currency-denominated equity participation operations effective as of the year ended March 31, 2015.

a. VaR (end of this fiscal year)

	March 31, 2015 (In billions of yen)	March 31, 2015 (In billions of U.S. dollars)
1) Interest rate VaR	¥ 82.3	\$ 0.7
2) Exchange rate VaR	139.4	1.2

b. VaR measurement model

1) Interest rate VaR: Historical model

2) Exchange rate VaR: Variance-covariance model

Quantitative standards:

1) Confidence Interval: 99%

2) Holding period: 1 year

3) Observation period: 5 years

c. Risk management using VaR

VaR is a market risk measure that assesses the maximum possible profits or losses that could be incurred based on historical market movements of interest rates or exchange rates, etc., over a specific period in the past (or observation period) within a certain period of time (or holding period) under a certain probability (or confidence interval), that is derived statistically by employing the theory of possibility distribution.

This measurement assumes actual market trends and the theory of probability distribution. Based on the possibility that future market trends could deviate from these assumptions, a back-test is performed to cross-check the model-measured interest rate VaR with actual profits or losses, in order to confirm the effectiveness of market risk measurements using VaR. In addition, a stress test, which goes beyond the probability distribution of historical market movements is conducted in order to capture risks from multifaceted perspectives.

The following points should generally be noted for VaR model measurement.

- VaR will differ depending on the confidence interval, holding period or observation period.
- VaR indicates the maximum amount of unrealized profits or losses at the time of measurement. However, calculated VaR may not always be realized in the future with a certain probability because the assumptions, such as market movements, could vary during the holding period.
- VaR indicates the maximum value based on specific assumption. As such, it is imperative to keep in mind that VaR may underestimate the potential losses when utilizing VaR as a risk management measure.

③ Liquidity risk management related to fund procurement

Long-term and stable funds such as fiscal loan funds, government-backed bonds, and FILP agency bonds are used to finance these operations and deposits are not accepted.

Cash flows are assessed and proper measures including establishing overdraft facility accounts with multiple private sector financial institutions are taken to maintain daily cash flows for proper risk management.

④ Derivative transactions

A protocol of internal checks with separate divisions executing transactions, assessing the effectiveness of hedges, and conducting office management has been established for derivative transactions, and these transactions are conducted according to derivatives-related regulations.

(iv) Supplementary explanation concerning fair value of financial instruments

The fair value of financial instruments includes amounts based on market value and amounts that have been reasonably estimated when no market value is available. Set valuation inputs are used for the calculation of this amount, and if different valuation inputs are used the resulting amount could vary.

(b) Fair value of financial instruments

The carrying amount in the balance sheets as of March 31, 2014 and March 31, 2015 and the related fair value, and difference is as follows. Note that unlisted securities whose fair value is extremely difficult to be determined are not included in the following chart (refer to Note 2).

(Note 1) Valuation methodologies used for estimating fair values for financial instruments

Assets

(1) Cash and due from banks

For Due from banks that do not mature or have a maturity under 3 months, the carrying amounts are used as fair value because the carrying amount approximates the fair value.

(2) Receivables under resale agreements

For securities acquired under resale agreements, the carrying amounts are used as fair value because the contractual terms are short (within 3 months) and the carrying amount approximates the fair value.

(3) Securities

The fair value of "Available-for-sale securities" is based upon the prices that are indicated from the financial institutions that JBIC transacts with.

(4) Loans and bills discounted

For loans with variable interest rates an amount calculated by the floating rate note method to reflect market interest rates over the short term is used for fair value.

For loans with fixed interest, the total principal and interest is discounted by a risk free rate that incorporates the default ratio and coverage ratio to calculate fair value.

However for obligations on bankrupt borrowers, substantially bankrupt borrowers, and potentially bankrupt borrowers a provision for bad debt is calculated based on the expected collectable amount from the collateral or guarantee. Fair value approximates the amount on the balance sheets on the closing date after a deduction has been made for the allowance for loan losses, so this amount is used for fair value.

(5) Cash collateral paid for financial instruments

For cash collateral paid for financial instruments, the carrying amount is used as fair value because the carrying amount approximates the fair value.

Liabilities

(1) Borrowings

Borrowings with variable interest rates reflect short-term market interest rates and the credit conditions of JBIC have not changed significantly since borrowing. Therefore, the carrying amount is used as fair value because it is considered that the carrying amount approximates the fair value. For borrowings with a fixed interest rate, in principle, fair value is calculated by discounting the principal and interest of the borrowings by the risk free rate (the standard Japanese government bond rate) based on the set period of loan.

(2) Bonds payable

Market value is used as fair value of bonds.

(3) Cash collateral received for financial instruments

For cash collateral received for financial instruments, the carrying amount is used as fair value because the carrying amount approximates the fair value.

Derivative transactions

Derivative transactions are discussed under "Derivative transactions."

(Note 2) Financial instruments for which fair values are considered to be extremely difficult to be determined are as follows. They are not included in "Assets, (3) Securities."

18. Retirement benefits
(a) Overview of retirement benefit plans

JBIC abolished the welfare pension fund plan effective October 1, 2014 and has established a defined benefit corporate pension plan and a defined contribution pension plan.

JBIC has a defined benefit pension plan comprised of a corporate pension plan (transferred from a welfare pension fund plan effective October 1, 2014) and a lump-sum severance indemnity plan. Although JBIC’s corporate pension plan is a multi-employer plan, the amount of the pension assets corresponding to its own contribution can be reasonably calculated based on the ratio of the projected benefit obligations, and the related notes are included in the following notes related to the defined benefit pension plan.

Under the corporate pension plan (funded type), pension or lump-sum payments are provided based on salary and service period. Under the lump-sum severance indemnity plan (unfunded type), lump-sum payments are provided as retirement benefits based on salary and service period. In addition, JBIC has established a defined contribution-type retirement benefit plan effective October 1, 2014.

Effective April 1, 2013, JBIC has been authorized by the Minister of Health, Labour and Welfare to be exempt from the obligations to pay future amounts in respect of the part of the welfare pension fund it manages for the government. Subsequently on October 1, 2014, JBIC has been authorized to transfer to the government the past substitutional portion of the aforesaid fund.

(b) Defined benefit pension plan

Retirement benefit expense	(745)	891	7
Decrease associated with the transfer of the amount of welfare pension fund previously managed for the government (Note 3)	¥ —	¥ (5,698)	\$ (47)

Note 1. Employee contributions to the welfare pension fund and corporation pension fund plans have been deducted from the service cost.

2. As a result of having received approval on April 1, 2013 from the Minister of Health, Labour and Welfare for an exemption from the obligations to pay benefits for future employee services related to the substitutional portion of the pension fund, prior service costs of ¥927 million were recognized as credit expenses in the fiscal year ended March 31, 2014. In addition, due to the amendment to the regulations on retirement allowances which became effective on December 20, 2013, prior service costs of ¥753 million were recognized as credit expenses during the fiscal year ended March 31, 2014. Further, due to abolishing the welfare pension fund plan and the establishment of the defined benefit corporate pension plan effective October 1, 2014, prior service costs of ¥271 million (\$2 million) have been recognized as credit expenses during the fiscal year ended March 31, 2015.

3. Recorded as a component of extraordinary income.

(v) Plan assets

① Major components of Plan assets

Percentages of components to the total are as follows;

	March 31, 2014	March 31, 2015
Debt securities	40%	38%
Stocks	45%	13%
General account of life insurance company	11%	8%
Cash and due from banks	4%	41%
Total	100%	100%

② Method of determining the long-term expected rate of return on plan assets

The long-term expected rate of return on plan assets is determined based on the current and projected pension asset allocations as well as on the current and future rates of return expected from various assets that are components of plan assets.

- (vi) Principal assumptions used
Principal assumptions used in actuarial calculations

	March 31, 2014	March 31, 2015
Discount rate	1.1%	0.7%
Expected rate of return on plan assets	2.0%	2.5%
Expected rate of increase in salary	4.7%	3.9%

- (c) Defined contribution plan
JBIC established a defined contribution-type retirement benefit plan effective October 1, 2014. The amount of contribution required to be made to the defined contribution plan for the fiscal year ended March 31, 2015 is ¥12 million (\$0 million).

19. Deferred tax accounting

JBIC does not apply deferred tax accounting since JBIC is a nontaxable entity classified in the Article 2, Paragraph 5 of the Corporation Tax Act (Act No. 34, 1965).

20. Segment Information

- (a) Segment summary
Segment information has been omitted as JBIC has a single reportable segment comprised of loan, guarantee and equity participation operations.

- (b) Related information
Fiscal year ended March 31, 2014 (From April 1, 2013 to March 31, 2014)

- (i) Information about services
Information about services has been omitted as ordinary income from outside customers in relation to loan, guarantee and equity participation operations comprises more than 90% of the ordinary income on the Statements of Operations.
- (ii) Information about geographical areas

- ① Ordinary income:

								(In millions of yen)			
	Japan	Australia	Asia/Oceania (excluding Australia)	Europe/ Middle East/Africa	North America/ Latin America		Total				
¥	42,639	¥	17,463	¥	57,258	¥	61,188	¥	47,549	¥	226,100

- Note 1. Ordinary income is disclosed in place of Sales for non-financial companies.
2. Ordinary income is disclosed based on the location of the customers and is classified by country or region.

- ② Property, plant and equipment
The information about property, plant and equipment is omitted since more than 90% of property, plant and equipment on the balance sheets are located in Japan.

- (iii) Information about major customers
The information about major customers is omitted since there are no transactions with a certain customer which result in more than 10% of the ordinary income on the Statements of Operations.

Fiscal year ended March 31, 2015 (From April 1, 2014 to March 31, 2015)

- (i) Information about services
The information about services is omitted since ordinary income from outside customers in relation to the loan, guarantee and equity participation operations is more than 90% of ordinary income on the Statements of Operations.
- (ii) Information about geographical areas

- ① Ordinary income:

								(In millions of yen)

\$	358	\$	247	\$	464	\$	547	\$	525	\$	2,141

- Note 1. Ordinary income is disclosed in place of Sales for non-financial companies.
2. Ordinary income is disclosed based on the location of the customers and is classified by country or region.

(Change in method of presentation)

Ordinary income earned in Australia, which was included as part of Asia/Oceania in the previous fiscal year, is now presented separately effective as of the year ended March 31, 2015 since it accounted for 10% or more of the ordinary income on the Statements of Operations. In conjunction with this change, certain reclassifications have been made in “(ii) Information about geographical areas ① Ordinary income” for the year ended March 31, 2014.

As a result, ¥74,722 million presented under “Asia/Oceania” in the previous fiscal year has been reclassified as follows: ¥17,463 million under “Australia” and ¥57,258 million in “Asia/Oceania (excluding Australia).”

② Property, plant and equipment

The information about property, plant and equipment is omitted since more than 90% of property, plant and equipment on the balance sheets are located in Japan.

(iii) Information about major customers

The information about major customers is omitted since there are no transactions with a certain customer which result in more than 10% of ordinary income on the Statements of Operations.

6. Information on Derivative Transactions

(1) Basic Policy for Derivative Transactions

JBIC engages in derivatives transactions exclusively for the purpose of hedging exchange rate and interest rate risks.

(2) Transactions

Derivatives transactions of JBIC include interest rate and currency swaps and forward exchange contracts. The following table gives a summary of these transactions.

(3) Risks Involved in Derivatives Transactions

Derivatives transactions involve the following risks.

Counterparty Credit Risk

The potential loss from the failure of a counterparty to perform its obligations in accordance with the terms and conditions of the contract governing transactions due to bankruptcy or its deteriorating business performance.

Market Risk

The potential loss from changes in the market value of financial products due to fluctuations in interest rates or exchange rates in the market.

(4) Measures to Address These Risks

Counterparty Credit Risk

JBIC constantly monitors the market value of a derivative in making transaction with each counterparty, credit risk exposure to it and its creditworthiness. Such information is then used to assess the appropriateness of making transaction with it.

Market Risk

JBIC utilizes derivatives transactions exclusively for the purpose of hedging. Therefore, the market risk on derivatives transactions and the risk on hedged (lending or funding) transactions, in principle, offset each other.

14. Information on the Quality of Assets

Although the Banking Act and Act on Emergency Measures for the Revitalization of the Financial Functions of 1998 (the “Financial Revitalization Act”) do not apply to JBIC, JBIC has made a self-assessment of the quality of its assets since the fiscal year ended March 31, 2001, in accordance with the standards set forth in the *Inspection Manual for Deposit-Taking Institutions* (last revised in April, 2015) of the Financial Services Agency of Japan. This was aimed at increasing disclosure on its asset quality and improving the internal management of credit risks.

One characteristic of JBIC’s operations is that a considerable portion of its loans is official credit for the governments of developing countries. Thus, when an indebted country is temporarily unable to service debt due to economic difficulties, debt rescheduling will sometimes take place—based on an international agreement among the creditor countries in the Paris Club—in order to ensure sustainable debt service. A debtor country receiving such temporary support for overcoming the liquidity problem will implement economic restructuring programs agreed upon with the International Monetary Fund (IMF) to acquire sustainable debt service capacity.

The loans rescheduled under the agreement in the Paris Club have a high probability of repayment, because, unlike loans provided by private financial institutions, their nature as official credit provides an asset-securing mechanism under the above international framework. Nonetheless, to facilitate comparison with private financial institutions, JBIC, in principle, discloses the loans rescheduled in the Paris Club and whose debtor countries are categorized as “Needs Attention” in its self-assessment of asset quality, as loan assets required to be disclosed classifying them either as restructured loans (under the Banking Act) or substandard loans (under the Financial Revitalization Act).

ERNST & YOUNG SHINNIHON LLC audited JBIC’s self-assessment regarding the quality of its assets, including the following risk-monitored loans, loans to be disclosed under the Financial Revitalization Act and reserves for possible loan losses, in accordance with the *Practical Guidelines for Evaluation of Internal Control over Valuation of Assets and Audits for Write-Offs and Reserve for Possible Loan Losses of Banks and Similar Institutions* (Report No. 4 of the Ad Hoc Committee for Audits of Banks, the Japanese Institute of Certified Public Accountants (JICPA)).

1. Risk-Monitored Loans

The following table shows the classification of risk-monitored loans based on the self-assessment of asset quality in accordance with the disclosure standard of risk-monitored loans applied to commercial financial institutions (under the Banking Act).

Each category of risk-monitored loans is defined as follows:

1. Bankrupt Loans

Among loans that are placed in non-accrual status (except the portion deducted as allowance for loan losses), when collection of either principal or interest becomes doubtful

for the reason that principal or interest is past due for a considerable period of time or for other reasons, those loans for which there is filing of reorganization procedures under the Corporate Reorganization Act rehabilitation procedures under the Civil Rehabilitation Act, bankruptcy procedures under the Bankruptcy Act, special liquidation procedures under the Companies Act or other relevant laws, or there is suspension of transactions in promissory notes issued by the debtors in the clearing house.^(Note 1)

2. Non-accrual Loans

Loans that are placed in non-accrual status except those classified as “Bankrupt Loans” or those whose interest payments are deferred in order to expedite the debtors’ business restructuring or support their business operations.

3. Past Due Loans (3 months or more)

Loans whose principal or interest is past due 3 months or more from the date following the contractually scheduled payment date and not classified as “Bankrupt Loans” or “Non-accrual Loans”.

4. Restructured Loans

Loans whose terms and conditions are modified in favor of the debtors in order to expedite the debtors’ business restructuring or support their business operations by, among others, reducing the stated interest rate, deferring interest payments or write-downs, and that are not classified as “Bankrupt Loans”, “Non-accrual Loans” and “Past Due Loans (3 months or more)”.^(Note 2)

(Unit: millions of yen)

	Fiscal Year Ended March 31, 2014	Fiscal Year Ended March 31, 2015
Bankrupt Loans	—	—
Non-accrual Loans	96,366	120,482
Past Due Loans (3 months or more)	75,579	35,945
Restructured Loans	77,386	73,770
Total (1)	249,332	230,198
Total Amounts of Loans (2)	12,655,401	14,432,949
(1) / (2) (%)	1.97	1.59

2. Loan Assets to Be Disclosed under the Financial Revitalization Act

The following table shows the classification of loans based on the self-assessment of asset quality in accordance with the disclosure standard of the Financial Revitalization Act.

1. Bankrupt and Quasi-bankrupt Assets

"Bankrupt and Quasi-bankrupt Assets" are loans and other credits to debtors who have begun proceedings under the Bankruptcy Act, the Corporate Reorganization Act, the Civil Rehabilitation Act and other similar laws of Japan and have financially failed. In the asset quality self-assessment, these loans are loans to debtors who are legally or substantially bankrupt.

2. Doubtful Assets

"Doubtful Assets" are loans and other credits to debtors whose financial and operational conditions have deteriorated and who have a possibility that payment of principal and / or interest will not be made on a contractual basis. In the asset quality self-assessment, these loans are loans to the debtors who are likely to become bankrupt.

3. Substandard Loans

"Substandard Loans" are loans to debtors who are categorized as "Needs Attention Debtor" in the asset quality self-assessment, and

- (i) loans whose principal and / or interest is overdue 3 months or more from the date following the scheduled payment date but which are not categorized as "Bankrupt and Quasi-bankrupt Assets" and "Doubtful Assets" ("Past Due Loans (3 months or more)").
- (ii) restructured loans on which the Bank granted concessions to debtors in financial difficulties through amending terms and conditions of the loans to assist them to recover and eventually be able to pay to creditors, but which are not categorized as "Bankrupt and Quasi-bankrupt Assets", "Doubtful Assets" or "Overdue Loans (3 months or more)". (Note 2)

4. Normal Assets

"Normal Assets" are loans to debtors with no particular problem in their financial conditions, categorized in the asset quality self-assessment either as "Loans to Normal Debtors" or "Loans to Needs Attention Debtors (excluding substandard loans)", but which are not categorized as "Bankrupt and Quasi-bankrupt Assets", "Doubtful Assets" and "Substandard Loans".

(Unit: millions of yen)

		Fiscal Year Ended March 31, 2014	Fiscal Year Ended March 31, 2015
Loans	Bankrupt and Quasi-bankrupt Assets	—	—
	Doubtful Assets	96,366	120,482
	Substandard Loans	152,965	109,716
	Subtotal (1)	249,332	230,198
	Normal Assets	14,865,229	16,819,545
	Total (2)	15,114,562	17,049,743
	(1) / (2) (%)	1.65	1.35

Note 1

According to the Banking Act, which provides the disclosure requirements of "Risk-monitored Loans" adopted by commercial financial institutions in Japan, the loans to overseas public debtors which meet all of the following conditions must be disclosed as "Bankrupt Loans": (1) no payment of principal and its interest 3 years before term-end, (2) no agreement for the extension of the repayment deadlines 3 years before term-end and (3) no concrete plan to conclude an agreement for the extension of the repayment deadline at term-end. In the table shown on the previous page, however, taking into consideration the international cooperation framework on public debt mentioned above, the overseas public debtors who meet the conditions above are classified as "Potentially Bankrupt Debtors" under the asset quality self-assessment criteria and loans to such debtors are classified as "Non-accrual Loans" under the disclosure of "Risk-monitored Loans".

Note 2

In the event that a debtor country encounters temporary repayment difficulties in respect of external public debt (sovereign debt, trade insurance institutions and export credit institutions, etc.) due to the deteriorating balance of payments, meetings of creditor countries (the "Paris Club") will be held to mutually agree on debt relief measures (rescheduling), and implementing of temporary support for overcoming the liquidity problem (balance of payment support under an international cooperative framework). With this temporary liquidity support, debtors carry out IMF-agreed economic restructuring programs and continue to make debt repayments. The principal amount of loans for which JBIC has agreed to provide debt relief pursuant to the Paris Club agreements is ¥265,056 million as of the end of the fiscal year ended March 31, 2015.

Loans to debtors classified under the self-assessment as "Needs Attention" (but not "Past Due Loans (3 months or more)") that were rescheduled under the Paris Club as "Restructured loans". The amount of such loans, included in "Restructured loans" in the above table is ¥73,770 million, of which ¥73,770 million represents the original principal.

Notes to the reconciliation of assets, liabilities, and equity as of April 1, 2012, and as of March 31, 2013, 2014 and 2015, and the reconciliation of net profit for the fiscal years ended March 31, 2013, 2014 and 2015

A. Derivative financial instrument assets and liabilities

Under Japanese GAAP, derivative financial instrument assets are included in "Other assets" and derivative financial instrument liabilities are included in "Other liabilities." Under IFRS, they are presented in a separate line item. In addition, derivative financial instrument assets and liabilities offset under Japanese GAAP do not meet the offsetting criteria under IFRS; accordingly, they are presented on a gross basis in the statement of financial position.

Under IFRS, the fair value of derivative financial instrument assets and liabilities is determined using observable market data considering the counterparty's and JBIC's credit risk.

JBIC applies hedge accounting under Japanese GAAP but it is not applied under IFRS.

For hedges in hedging relationships of types that qualify for hedge accounting under Japanese GAAP but that do not qualify under International Accounting Standards ("IAS") 39 *Financial Instruments: Recognition and Measurement*, deferred gains or losses on hedges under Japanese GAAP have been transferred to retained earnings at the date of transition. Further, in respect of hedges that qualify for hedge accounting under Japanese GAAP but that do not meet the conditions for hedge accounting under IAS 39, JBIC discontinued hedge accounting in accordance with the following method for each hedge category:

(1) Cash flow hedges

Deferred gains or losses on hedges are recognized in profit or loss based on cash flows arising from the hedged transactions.

(2) Fair value hedges

Deferred gains or losses on hedges under Japanese GAAP are transferred to retained earnings at the transaction date, and the carrying amount of the hedged item is adjusted to the lower of the following. Such adjustments are recorded in retained earnings and then amortized using the effective interest method and recognized in profit or loss.

- i. the portion of the cumulative change in the fair value of the hedged item that reflects the designated hedged risk and was not recognized under Japanese GAAP; or
- ii. the portion of the cumulative change in the fair value of the hedging instrument that reflects the designated risk and was either not recognized or deferred in the statement of financial position as an asset or a liability under Japanese GAAP.

B. Securities

Under Japanese GAAP, equity securities of investments in affiliates are included in "Securities" but they are presented separately as "Equity method investments" under IFRS. See F. "Equity method investments" for differences in measurement methods.

Unlisted stocks included in securities are carried at cost under Japanese GAAP, but under IFRS, they are categorized as available-for-sale financial assets and measured, in principle, at fair value and the changes in fair value are recognized in other comprehensive income. Impairment losses are also recognized, as necessary.

For investments in partnerships included in securities, such investments are recognized at an amount equivalent to JBIC's share of the net assets of the partnership, which is determined based on the most recent financial statements of the partnership available as of the reporting date as defined in the partnership agreement under Japanese GAAP. Under IFRS, the investments in partnerships are measured, in principle, at fair value and the changes in fair value are recognized in other comprehensive income. Impairment losses are also recognized, as necessary.

C. Loans and other receivables

Under Japanese GAAP, accrued interest income on loans is included in "Other assets," but under IFRS, it is presented in a separate line item under "Loans and other receivables."

Under IFRS, loans and other receivables are measured at fair value plus directly attributable transaction costs at initial recognition and subsequently measured at amortized cost using the effective interest method.

Under Japanese GAAP, a general allowance for loan losses is recorded, in addition to a specific allowance for loan losses.

On the other hand, IFRS uses an incurred loss model and an impairment loss is recognized if, and only if, JBIC assesses at the reporting date that there is objective evidence of impairment as a result of one or more events that occurred after the initial recognition of the asset (a loss event), and that loss event (or events) has an impact on the estimated cash flows of the financial asset or a group of financial assets that can be reliably estimated. Impairment losses in respect of a group of loans and other receivables that are collectively evaluated for impairment, such as impairment losses for incurred but not reported losses, are recognized on the basis of historical loss experience for assets with credit risk characteristics similar to those in the group. The carrying amount of loans and other receivables is reduced by the impairment loss through an allowance for loan losses account.

For loans in hedging relationships designated as fair value hedges under Japanese GAAP but which no longer meet the conditions for hedge accounting under IAS 39, the carrying amounts are adjusted in accordance with IFRS 1 in light of the discontinuance of hedge accounting.

"Loans and other receivables" include financial assets associated with financial guarantee contracts as described in "E. Financial guarantee contracts."

D. Borrowings and Bonds payable

For bonds payable, all bond issuance costs are expensed as incurred under Japanese GAAP. Under IFRS, bonds payable are initially measured at fair value less the transaction costs that are directly attributable to bond issuance, such as bond issuance costs and discounts at issuance, and subsequently measured at amortized cost using the effective interest method. In addition, borrowings and bonds payable are amortized, after considering adjustments to their carrying amounts related to discontinuing associated fair value hedges.

E. Financial guarantee contracts

For financial guarantee contracts, under Japanese GAAP, the balance of the guarantee obligations are recorded in "Customers' liabilities for acceptances and guarantees" in assets, and "Acceptances and guarantees" in liabilities on the statement of financial position. The same amounts are recorded in assets and liabilities.

Under IFRS, both financial assets and financial liabilities associated with financial guarantee contracts are initially measured at fair value and are subsequently measured at the higher of (a) the amount initially recognized less cumulative amortization recognized and (b) the amount of estimated expenditure required to settle the guarantee obligation at the reporting date.

F. Equity method investments

Investments in associates and joint ventures are mainly investments in partnerships. Under Japanese GAAP, JBIC does not use the equity method in its separate financial statements as it does not prepare any consolidated financial statements, and therefore such investments are recognized at an amount equivalent to JBIC's share of the net assets of the partnership, which is determined based on the most recent financial statements of the partnership available as of the reporting date as defined in the partnership agreement.

Certain of JBIC's share of the "Gain on investments in partnerships" under Japanese GAAP are accounted for using the equity method under IFRS. Such gains or losses are presented as "Profits of equity method investments." Exchange differences on translation of foreign operations resulting from the application of the equity method are recognized in other comprehensive income.

G. Liability for retirement benefits

Under Japanese GAAP, actuarial gains and losses in respect of defined benefit plans are expensed and included in profit or loss in the period in which they arise. However, under IFRS, remeasurement of defined benefit plans is recognized immediately in other comprehensive income as incurred and immediately transferred to retained earnings. Retirement benefit obligations are remeasured in accordance with applicable IFRS, and gains and losses arising from the application of the period allocation method are recognized as adjustments to retained earnings. Liabilities for retirement benefits are included under "Other liabilities" in the statement of financial position.

H. Valuation difference on available-for-sale securities and deferred gains or losses on hedges

As part of the accounting treatment associated with the split from Japan Finance Corporation, "Valuation difference on available-for-sale securities" and "Deferred gains or losses on hedges" are presented under "Assets" and "Liabilities," respectively, in the statement of financial position as of April 1, 2012, prepared under Japanese GAAP. They are reclassified into "Other reserves" under IFRS.

Net profit in accordance with IFRS before IFRS adjustments for hedge accounting (information that is calculated and presented on the basis of methodologies other than in accordance with generally accepted accounting principles)

JBIC undertakes derivative financial instruments exclusively to hedge interest rate risks and foreign exchange risks. Under Japanese GAAP, hedge accounting is applied in the financial statements and net gains or losses from the valuation of derivative financial instruments are not recognized in net income. In the financial statements under IFRS disclosed for reference purposes, JBIC does not apply hedge accounting of IAS39. Accordingly, "Net gains or losses from the valuation of derivative financial instruments" and "Net gains or losses from the amortization of deferred gains or losses on hedges from discontinued hedge accounting at the date of transition" are recognized in net profit in accordance with IFRS*.

As these derivative financial instruments are entered into for hedging purposes, they are not cancelled before the maturity dates. Although the net gains or losses from the valuation of derivative financial instruments are temporal and not realized, the temporary net gains or losses from the valuation have a substantial impact on net profit in accordance with IFRS when the relevant market factors changes considerably as in fiscal year ended March 31, 2014 mentioned below. For further understanding on the financial situation of JBIC, "net profit in accordance with IFRS before IFRS adjustments for hedge accounting" is calculated by excluding the temporary net gains or losses from the valuation under IFRS as a non GAAP measure for supplementing the reconciliation between Japanese GAAP and IFRS.

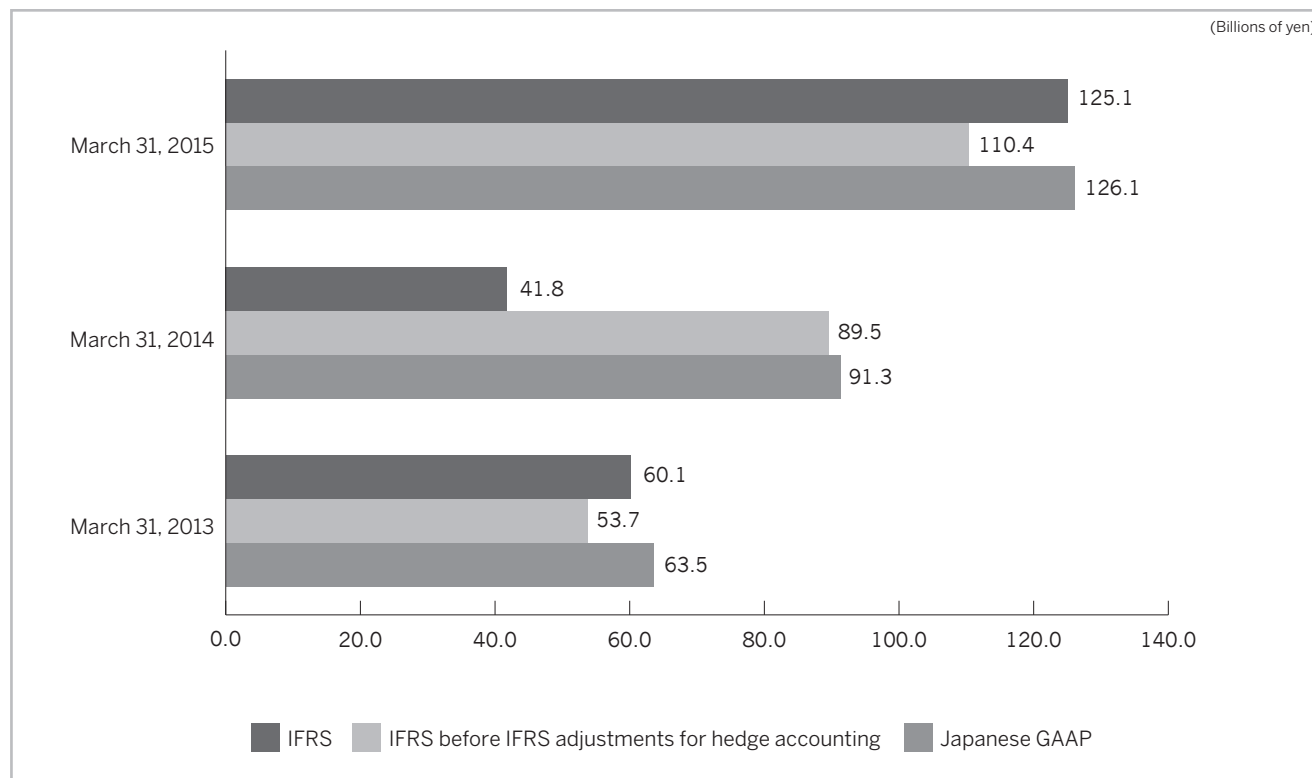

Net profit in accordance with IFRS before IFRS adjustments for hedge accounting is reconciled from net profit in accordance with IFRS by excluding the temporary gains or losses from the valuation of derivative financial instruments as follows:

(Billions of yen)

	March 31, 2013	March 31, 2014	March 31, 2015
Net profit in accordance with IFRS (A)	60.1	41.8	125.1

1. Organizational Chart (As of October 1, 2015)

JBIC is constituted by five business groups: three mission/sector-specific finance groups (Energy and Natural Resources Finance Group; Infrastructure and Environment Finance Group; and Industry Finance Group) and the Corporate Group and the Credit, Assessment, and Systems Group which support these finance groups.

This organizational structure was intended to strengthen the capacity to formulate projects by bringing together know-how and expertise in each sector and area, thereby creating

an institution that can execute the functions in its mission more flexibly and strategically: the mission directly linked to Japan's economic policy. In the network of overseas representative offices, Singapore, London and New York are assigned as core regional offices to supervise business and administrative activities as well as to support project formulation in Asia and Pacific; Europe, the Middle East and Africa, and the Americas respectively.

12. The operations listed in Item (7) of the preceding Article may be conducted only if they are the minimum necessary to promote the performance of the operations listed in Items (1) through (6) of the same Article smoothly and effectively.

Article 13: Practice of the Operation

1. The loan of funds, the acquisition by assignment of loan receivables, the acquisition of the Corporate/Public Bonds, etc., the Guarantee, etc. of Liabilities or the provision of contributions pursuant to the provisions of Items (1) through (6) of Article 11 hereof may be conducted only when the repayment of the funds so loaned, the collection of loan receivables so acquired, the redemption of Corporate/Public Bonds, etc. so acquired, the performance of the liabilities so guaranteed,

- etc. or the realization of profits that enable the payment of dividends resulting from business so contributed is recognized as being certain.
2. The conditions, such as the interest rates of loans and yield on assigned loan receivables related to the operations listed in Items (1) through (6) of Article 11, shall be determined in light of usual conditions for transactions by the Banks, etc. or the trends of financial markets, so that revenue of JBIC will be sufficient to cover the expenses therefor.

Article 15: Business Year

The business year of JBIC shall begin on April 1 of each year and end on March 31 of the following year.

Article 16: Budget

1. JBIC shall prepare the budget for revenues and expenditures and submit it to the Minister of Finance for each business year.
2. The revenues set forth in the preceding Paragraph mean interest on loans, interest on the Corporate/Public Bonds, etc., dividends on contributions, debt guarantee fees and other incomes related to asset management and miscellaneous incidental income, and the expenditures set forth in the same Paragraph mean expense of operations, business entrustment fees, interest on borrowings, interest on bonds and notes and incidental expenses.
3. Upon receipt of the budget submitted pursuant to the provisions of Paragraph 1 above, the Minister of Finance shall examine such budget and make any necessary adjustments thereto, and obtain the Cabinet's decision thereon.
4. After the Cabinet's decision is made pursuant to the provisions of the preceding Paragraph, the Cabinet shall submit such budget to the Diet together with the national budget.
5. The form and content of the budget and procedures for the preparation and submission thereof shall be specified by the Minister of Finance.

Article 26: Submission of Financial Statements

1. JBIC shall prepare the list of assets every business year.
2. JBIC shall, within three (3) months after the end of every business year, submit to the Minister of Finance the balance sheets, statements of operations and list of assets (hereinafter referred to as the "Balance Sheets, etc.") and business report (including the Electro-Magnetic Record (which means the record specified by the Minister of Finance as a record which is produced by electronic, magnetic, or any other means unrecognizable by human perception and which is used for data-processing by a computer; the same shall apply hereinafter) which has recorded the matters to be described in such Balance Sheets, etc. and its business report) for each business year.

Article 27: Preparation and Submission of Report on Settlement of Accounts

1. After submitting the Balance Sheets, etc. pursuant to the provisions of Paragraph 2 of the preceding Article, JBIC shall, every business year, prepare a report on the settlement of accounts for the relevant business year (including the Electro-Magnetic Record which has recorded the matters to be described in such report on the settlement of accounts; the same shall apply hereinafter) and submit it to the Minister of Finance, without delay, by attaching the opinion of the Auditor(s), Audit and Supervisory Committee or Audit Committee concerning such report on the settlement of accounts, together with such submitted Balance Sheets, etc.
2. Upon receiving the report on the settlement of accounts pursuant to the provisions of the preceding Paragraph, the Minister of Finance shall send it to the Cabinet, together with the Balance Sheets, etc. referenced in the same Paragraph.
3. Upon making the submission pursuant to the provisions of Paragraph 1 of this Article, JBIC shall, without delay, keep the report on the settlement of accounts and the document stating the opinion of the Auditor(s), Audit and Supervisory Committee or Audit Committee at its head office and branch offices and make them available for public inspection during the period prescribed by the Ordinance of the Ministry of Finance.
4. The form and content of the report on the settlement of accounts shall be specified by the Minister of Finance.

Article 28: Sending of Report on Settlement of Accounts to Board of Audit of Japan

Upon receiving JBIC's report on the settlement of accounts pursuant to the provisions of Paragraph 2 of the preceding Article, the Cabinet shall send it, together with the Balance Sheets, etc. set forth in Paragraph 1 of the same Article, to the Board of Audit of Japan no later than November 30 of the following business year.

Article 29: Submission of Report on Settlement of Accounts to Diet

The Cabinet shall submit JBIC's report on the settlement of accounts for which the Board of Audit of Japan has finished its inspection, to the Diet, by attaching the Balance Sheets, etc. set forth in Paragraph 1 of Article 27 hereof, together with the settlement of accounts for national revenues and expenditures.

Article 31: Payment to National Treasury

1. In the event that the amount of the surplus recorded in the settlement of accounts for each business year exceeds zero, JBIC shall accumulate, as a reserve, the amount calculated in accordance with the standards prescribed by a Cabinet Order, among such surplus, until it reaches the amount prescribed by the Cabinet Order, and if there is still a surplus, JBIC shall pay the amount of such surplus into the National Treasury within three (3) months after the end of such business year.
2. In the event that the amount of the surplus recorded in the settlement of accounts for each business year falls below zero, JBIC shall allocate such surplus by drawing down the reserve set forth in the preceding Paragraph until the amount of such surplus becomes zero.
3. The procedures for the payment into the National Treasury pursuant to the provisions of Paragraph 1 of this Article, the account into which such payment is to be made and other necessary matters concerning the payment to the National Treasury shall be prescribed by a Cabinet Order.
4. JBIC shall not be allowed to make any appropriation of its surplus, such as dividend of its surplus, unless such disposition is made pursuant to the provisions of Paragraphs 1 and 2 of this Article.

Article 32: Provision of Loans by Government

The Government may provide monetary loans to JBIC.

Article 33: Borrowings and Corporate Bonds

1. Borrowings of funds made in order to meet JBIC's fund requirements for the performance of its operations shall be limited to the borrowings of short-term loans from financial institutions, such as banks, or the borrowings related to the monetary loans obtained from the Government pursuant to the provisions of the preceding Article.
2. The short-term loans set forth in the preceding Paragraph shall be repaid during the business year in which these borrowings are made; provided, however, that in cases where repayment cannot be made due to shortage of funds, JBIC may reborrow only the amount which cannot be so repaid, with the authorization of the Minister of Finance.
3. Loans reborrowed pursuant to the proviso of the preceding Paragraph shall be repaid within one (1) year.
4. Pursuant to the provisions of a Cabinet Order, JBIC shall, every business year, prepare a basic policy concerning the issuance of corporate bonds made in order to meet fund requirements for the performance of its operations and obtain the authorization of the Minister of Finance. When JBIC intends to make any change to the policy, the same shall apply.
5. When JBIC has issued corporate bonds pursuant to the provisions of preceding Paragraph, it shall, without delay, make a notification of such fact to the Minister of Finance pursuant to the provisions prescribed by a Cabinet Order; provided, however, that this shall not apply if JBIC issues the certificates of corporate bonds, as prescribed by a Cabinet Order, in order to deliver to anyone who has lost such certificates of corporate bonds and, as a result of the issuance of such certificates of corporate bonds, JBIC assumes new liabilities.
6. The total amount of (i) the outstanding amounts of the short-term loans and the borrowings related to the monetary loans obtained from the Government as set forth in Paragraph 1 of this Article and (ii)

the outstanding amount of liabilities relating to the principal amount of corporate bonds set forth in Paragraph 4 of this Article shall not exceed the amount (hereinafter referred to as the "Limitation Amount" in this Article) equivalent to ten (10) times the total amount of the capital and reserves of JBIC (hereinafter referred to as the "Base Amount" in this Article).

7. Notwithstanding the provisions of the preceding Paragraph, when the issuance of new bonds is necessary to reborrow the issued corporate bonds with respect to corporate bonds set forth in Paragraph 4 of this Article, the corporate bonds may be issued in excess of the Limitation Amount only within the period necessary to make such reborrowing.
8. The total amount of the outstanding amounts of (i) monetary loans, (ii) acquisition of the receivables related to assignment and the Corporate/Public Bonds, etc., (iii) liabilities relating to the Guarantee, etc. of Liabilities and (iv) contributions, all of which are made pursuant to the provisions of Items (1) through (6) of Article 11 hereof, shall not exceed the aggregate amount of the Base Amount and the Limitation Amount.

Article 34: Statutory Lien

1. A holder of JBIC's corporate bonds shall, with respect to the property of JBIC, have the right to have his/her receivables satisfied in preference to other creditors.
2. The order of the statutory lien set forth in the preceding Paragraph shall be next to the general liens prescribed by the provisions of the Civil Code (Act No. 89 of 1896).

Article 35: Government Guarantee

1. Notwithstanding the provisions of Article 3 of the Act Concerning Restrictions on Financial Assistance by the Government to Corporations (Act No. 24 of 1946), the Government may execute a guarantee agreement with respect to the liabilities related to JBIC's corporate bonds (excluding the liabilities with respect to which the Government may execute a guarantee agreement under Paragraph 2 of Article 2 of the Act on Special Measures Pertaining to the Acceptance of Foreign Capital from the International Bank for Reconstruction and Development, etc. (Act No. 51 of 1953) (referred to as the "Foreign Capital Acceptance Act" in the following Paragraph and Paragraph 1 of Article 16 of the Supplementary Provisions)) within the scope of the amount fixed by the budget.
2. Among the amount fixed by the budget set forth in the preceding Paragraph, the amount of liabilities related to the corporate bonds issued in a foreign country and denominated in Japanese currency may be fixed by adding up to the amount fixed by the budget as set forth in Paragraph 2 of Article 2 of the Foreign Capital Acceptance Act, when it is difficult to fix the said amount of liabilities separately from the said amount fixed by the budget set forth in the same paragraph of the Foreign Capital Acceptance Act.
3. The Government may, in addition to the provisions of Paragraph 1 of this Article, execute a guarantee agreement with respect to the liabilities related to the certificates of corporate bonds or coupons thereof, which are issued by JBIC, pursuant to the provisions prescribed by a Cabinet Order, in order to deliver to a person who has lost the certificates of corporate bonds or coupons thereof.

Article 36: Investment of Surplus Funds

JBIC shall not invest any surplus funds of its business except by means of:

- (1) Acquisition of national government bonds, local government bonds or government-guaranteed bonds (which mean the bonds for which the redemption of its principal and payment of interest thereon are guaranteed by the Government) and other securities designated by the Minister of Finance;
- (2) Deposit with the Fiscal Loan Fund;
- (3) Deposit with banks or other financial institutions designated by the Minister of Finance;
- (4) Holding of negotiable deposit certificates;
- (5) Money trust to the financial institutions engaging in trust business (which mean the financial institutions that have obtained the authorization set forth in Paragraph 1 of Article 1 of the Act on

- Provision, etc. of Trust Business by Financial Institutions);
- (6) Lending of call funds; or
 - (7) Means prescribed in the Ordinance of the Ministry of Finance as the means equivalent to the means listed in each of the preceding Items.

Article 38: Supervision

1. The Minister of Finance shall supervise JBIC in accordance with the provisions of this Act.
2. With respect to the management or administration of JBIC, in the case where the Minister of Finance finds that there is a violation of laws and regulations or the Articles of Incorporation or any grossly unjust matter exists and in other cases where they find it necessary for the enforcement of this Act, the Minister of Finance may issue JBIC orders concerning its operations as are necessary for the supervision.

Article 39: Report and Inspection

1. If the Minister of Finance finds it necessary for the enforcement of this Act, the Minister of Finance may cause JBIC or the Juridical Person Delegated to submit reports or may cause its officials to enter the facilities of JBIC or of the Juridical Person Delegated, such as the offices to inspect the accounting books, documents and other necessary objects; provided, however, that, with respect to the Juridical Person Delegated, such action shall be limited to the scope of operations delegated to it by JBIC.
2. When an official of the Minister of Finance carries out an on-site inspection pursuant to the provisions of the preceding Paragraph, he/she shall carry with him/her identification certifying his/her status and present it to parties concerned.
3. The authority to carry out the on-site inspection pursuant to the provisions of Paragraph 1 above shall not be construed to be that given for the investigation of a criminal offense.

Article 40: Delegation of Authority

1. The Minister of Finance may, as prescribed by a Cabinet Order, delegate part of the authority to carry out an on-site inspection pursuant to the provisions of Paragraph 1 of the preceding Article to the Prime Minister.
2. If the Prime Minister has carried out an on-site inspection pursuant to the provisions of Paragraph 1 of the preceding Article on the basis of the delegation pursuant to the provisions of the preceding Paragraph, he/she shall promptly submit a report of the results of the inspection to the Minister of Finance.
3. The Prime Minister shall delegate both the authority delegated pursuant to the provisions of Paragraph 1 above and the authority set forth in the provisions of the preceding Paragraph to the Commissioner of Financial Services Agency.
4. The Commissioner of Financial Services Agency may, as prescribed by a Cabinet Order, delegate all or part of the authority delegated pursuant to the provisions of the preceding Paragraph, to Director-General of the Local Finance Bureau or the Director-General of the Local Finance Branch Bureau.
5. Part of the authority of the Minister of Finance set forth in this Act (excluding that delegated to the Prime Minister pursuant to the provisions of Paragraph 1 above) may, as prescribed by a Cabinet Order, be delegated to the Director-General of the Local Finance Bureau or the Director-General of the Local Finance Branch Bureau.

Article 41: Articles of Incorporation

1. In the Articles of Incorporation of JBIC, in addition to the matters listed in each of the Items of Article 27 of the Companies Act, matters relating to the procedures and requirements for the appointment of a person to assume management responsibility from among the Representative Directors or Representative Executive Officers shall be described or recorded.
2. With respect to the matters related to the requirements for the appointment of a person to assume management responsibility set forth in the preceding Paragraph, the provisions that the requirements listed below be satisfied shall be incorporated:

- (1) A person who has discernment and the capability recognized as necessary in light of the purposes set forth in Article 1 hereof and the operations set forth in Article 11 hereof shall be appointed; and
- (2) Due consideration shall be required in order to avoid automatically appointing such persons who have held certain specific governmental positions.
3. The resolution for the amendment of the Articles of Incorporation of JBIC shall not take effect unless the authorization of the Minister of Finance is granted.

Article 42: Merger, Company Split, Share Exchange, Assignment and Acceptance of Assignment of Business and Dissolution

Notwithstanding the provisions of Part II, Chapters VII and VIII and Part V, Chapters II, III and IV, Section I of the Companies Act, the merger, company split, share exchange, assignment and acceptance of assignment of all or part of business, to which JBIC becomes a party, and dissolution of JBIC shall be provided for separately by an Act.

Article 43: Exclusion from Application, etc. of Financial Instruments and Exchange Act

1. When JBIC performs the actions listed in each of the Items of Paragraph 8 of Article 2 of the Financial Instruments and Exchange Act pursuant to the provisions of Article 11, the provisions of Article 29 of the same Act shall not apply.
2. In the case set forth in the preceding Paragraph, JBIC shall be deemed as the Financial Instruments Business Operator defined in Paragraph 9 of Article 2 of the Financial Instruments and Exchange Act, and the provisions of Chapter III, Section I, Subsection V and Section II (excluding Article 35, Article 35-2, Articles 36-2 through 36-4, Item (2) of Paragraph 1 of Article 37, Item (2) of Paragraph 1 of Article 37-3, Article 37-7 and Item (7) of Article 38) of the same Act and the provisions of Chapters VIII and VIII-II of the same Act relating to such provisions shall apply.
3. When JBIC performs the actions listed in each of the Items of Paragraph 1 of Article 63 of the Financial Instruments and Exchange Act pursuant to the provisions of Article 11 hereof, the provisions of Paragraph 2 of the said Article 63 shall not apply.
4. In the case set forth in the preceding Paragraph, JBIC shall be deemed as the Financial Instruments Business Operator defined in Paragraph 9 of Article 2 of the Financial Instruments and Exchange Act, and the provisions of Article 38 (limited to the portions relating to Item (1)) and Article 39 of the same Act and the provisions of Chapters VIII and VIII-II of the same Act related to such provisions shall apply.

This English version of the Act has been prepared purely for information purpose, and should not be considered as an official translation of the Japan Bank for International Cooperation Act or any authorities of Japanese Government.

5. Fundamental Policy on Internal Control

Article 1. Systems for Ensuring Compliance with Laws, Regulations, and the Articles of Incorporation in the Performance of Duties by Directors and Employees

1. JBIC shall adopt Corporate Philosophy, Code of Conduct, and internal rules concerning compliance, including Regulations Concerning Compliance with Laws and Regulations, to ensure that the performance of duties by directors and employees, including temporary workers (this definition applies to the remainder of this document), comply with laws, regulations, and the Articles of Incorporation of JBIC (hereinafter referred to as "Laws and Regulations"). Furthermore, JBIC shall make such internal rules known to all directors and employees.
2. Directors and employees shall abide by all such internal rules concerning compliance.
3. JBIC shall appoint persons responsible for compliance and departments that oversee compliance matters so as to establish and reinforce structures relating to compliance with Laws and Regulations.
4. JBIC shall establish a committee with the Governor as its chairman to review key matters relating to compliance and to monitor the status of compliance with the Laws and Regulations.
5. JBIC shall establish effective internal reporting systems and operate them appropriately so that material matters relating to compliance can be discovered promptly and necessary corrective measures can be introduced.
6. JBIC shall not maintain any relationships whatsoever with antisocial forces. It shall maintain an uncompromising attitude throughout the organization toward antisocial forces, and decisively reject all improper demands from such forces.

Article 2. Systems relating to Retention and Management of Information concerning Performance of Duties by Directors

1. JBIC shall adopt Information Asset Management Regulations and other rules concerning the retention and management of information assets so that information concerning the performance of duties by directors, customer information, and other information handled by JBIC can be appropriately retained and managed.
2. JBIC shall retain and manage the minutes of Board of Directors meetings and other documents concerning the performance of duties by directors in accordance with laws, regulations, and rules relating to the retention and management of information assets.
3. Directors and employees shall appropriately retain and manage information assets in line with laws, regulations, and rules relating to the retention and management of information assets.

Article 3. Regulations and Other Systems relating to Management of Loss Exposure

1. In recognition of the importance of risk management, JBIC shall adopt Comprehensive Risk Management Regulations and other rules relating to risk management, with respect to risk management specific to different types of risks that should be recognized in the performance of operations, as well as the organizational structure, etc., for comprehensive risk management. JBIC shall apply appropriate risk management tools to control various types of risks.
2. JBIC shall appoint persons responsible and departments that oversee risk management matters for the management of various types of risks and establish a committee with the Governor as its chairman to conduct reviews and examinations to ensure effective risk management.
3. JBIC shall adopt Crisis Management Regulations and other rules relating to crisis management and establish crisis management systems to prepare for the occurrence of disasters and other critical events.
4. If a critical event occurs that either disrupts or is feared to disrupt normal operations, JBIC shall establish a response headquarters as necessary and take measures for the speedy and efficient restoration of operations in accordance with various rules concerning crisis management.

Article 4. System to Ensure Efficient Performance of Duties by Directors

1. The Board of Directors shall establish Business Plans and conduct management appropriately.
2. JBIC shall establish the Executive Committee. It shall take on responsibility for certain decisions delegated by the Board of Directors. In addition to making decisions for which it has earned responsibility, it shall deliberate matters prior to the Board of Directors meetings in order to contribute to the decision-making of the Board of Directors. Moreover it shall establish various committees, etc., that take responsibility for certain decisions delegated by it, or as an advisory organization for it.
3. In order to ensure the efficient performance of duties based on the decisions of the Board of Directors, JBIC shall undertake adjustments to internal regulations related to organizational systems, etc., and assign duties appropriately.
4. JBIC shall introduce a mission/sector-specific group structure and a managing executive officer system in order to expedite decision-making processes, and delegate authority based on internal regulations related to organizational systems and authority.

Article 5. Internal Audit Systems for Ensuring Proper Operations

1. JBIC shall adopt Internal Audit Regulations and other rules relating to internal audits to ensure the appropriateness and soundness of its operations.
2. JBIC shall establish the Internal Audit Committee to make decisions and deliberations concerning important matters relating to internal audits.
3. JBIC shall establish the Internal Audit Department, independent of the departments being audited, to handle matters relating to internal audits.
4. The Internal Audit Department shall undertake internal audits based on internal regulations related to internal audits, and report to the director responsible for internal audits about the results.
5. The Internal Audit Department shall periodically and as necessary, as well as upon request of a director or a corporate auditor, report the results of internal audits to the Board of Directors or other organizations or bodies.
6. The Internal Audit Department shall exchange information as necessary and collaborate with the corporate auditors and accounting auditors, in order to perform internal audits efficiently.

Article 6. Matters relating to Employees Assigned to Assist Corporate Auditors in Performing their Duties upon Request by Corporate Auditors

1. JBIC shall establish the Office of Corporate Auditor and assign full-time employees to assist the corporate auditors in performing their duties.
2. Those full-time employees shall perform their duties in line with instructions from the corporate auditors.
3. When deemed necessary, the corporate auditors may assign employees other than the full-time employees referred to above to assist in the performance of audits with the approval of the Governor.

Article 7. Matters relating to Securing the Effectiveness of Instructions to and Independence from Corporate Directors of Employees Assigned to Assist Corporate Auditors

1. JBIC shall secure prior approval of the full-time corporate auditors on any decision concerning personnel evaluations, transfers, or other personnel matters relating to employees assisting with the performance of duties by the corporate auditors (hereinafter "the auditor's office staff").
2. JBIC shall have the auditor's office staff engage in the duties following only the instructions of the auditor, to secure the effectiveness of auditor's instructions to the auditor's office staff. However, when the auditor's office staff concurrently serves in a position other than the auditor's office, JBIC shall obtain prior approval of the full-time corporate auditors by clearly explaining each of the following points in writing.

- (1) The rational reason shall be clearly stated that the auditor's office staff need to concurrently serve in that position.
- (2) In assisting with the duties of the corporate auditors, the auditor's office staff shall follow the instructions of the corporate auditors and not the instructions of the position where the auditor's office staff serve concurrently.
- (3) The scope of duties of and instructions to the auditor's office staff in the position other than the auditor's office shall be expressly limited.
- (4) The auditor's office staff shall not share with others the information obtained from performing the duties of the auditor's office while serving in that position.
- (5) The auditor's office staff shall always give priority to the duties of assisting the corporate auditors more than the duties at the office where the staff serve concurrently in order not to hamper the effectiveness of audits by the corporate auditors.
- (6) When the full-time corporate auditors deem it necessary, it is possible for them to withdraw the approval that the auditor's office staff may serve concurrently in any other office.

Article 8. System of Reporting by Directors and Employees to Corporate Auditors and System of Preventing Adverse Treatment of Reporter

1. The representative director and other directors who perform operational duties shall make accurate reports concerning the status of performance of their duties from time to time at the Board of Directors meetings and other important meetings attended by corporate auditors.
2. In the event that a director or an employee discovers any fact that has the potential of inflicting substantial harm upon JBIC, or improper conduct or serious violations of Laws and Regulations, said director or employee shall promptly report the fact to the corporate auditors.
3. JBIC shall never treat adversely the directors and employees who reported based on the preceding paragraph, on the grounds of such reporting.

Article 9. System for Ensuring Effective Performance of Audits by Corporate Auditors

1. The corporate auditors shall be entitled to request reports from directors and employees concerning the status of performance of their duties whenever they determine such reports are necessary for the effective performance of audits. A director or employee who receives such a request shall promptly furnish a report in line with the request.
2. The corporate auditors may attend important meetings, including the Board of Directors meetings and the Executive Committee meetings, to express their opinions as necessary. Corporate auditors may also request to review minutes and other related documents.
3. The Governor shall hold periodic meetings with the corporate auditors to exchange opinions.
4. The corporate auditors may request the cooperation of the Internal Audit Department and departments that oversee compliance matters.
5. The corporate auditors may seek the advice of attorneys, certified public accountants, and other professionals concerning audits when deemed necessary for the effective performance of audits.

Article 10. Matters Concerning Policies Relating to Procedures for Advance Payment and Repayment of Costs and Other Treatment of Costs and Liabilities That Arise in the Execution of Auditor's Duties

JBIC shall bear the costs and liabilities that arise in the execution of auditor's duties, when the corporate auditors seek the advice of attorneys and/or certified public accountants concerning audits, pursuant to the provision of the preceding article.

6. Security Policy

Japan Bank for International Cooperation (hereinafter “JBIC”) adopts the following fundamental policy concerning the use and management of information assets and will properly handle, manage, protect, and maintain information assets to achieve information security that meets the highest standards so as to support its proper and efficient operations.

(1) Basic Principles

JBIC shall use and manage information assets in line with the basic principles set forth hereunder while complying with all applicable laws, regulations, and rules.

- A. Information assets shall be used appropriately and only for their intended purposes.
- B. Authority concerning the management of information assets shall be granted only after careful consideration of the nature of the work and necessity.
- C. When adopting and implementing information security measures, the following matters shall be taken into consideration, based on the nature of the work:
 - (a) Clarification of responsibilities and roles within implementation structures
 - (b) Timely and prompt implementation of necessary, sufficient, effective, and efficient measures

(2) Proper Management of Information Assets

Information assets refer to information and information systems. JBIC classifies them according to such factors as their degree of confidentiality, completeness, usability, and importance, and manages them appropriately in accordance with their classification.

(3) Information Asset Management Structures

JBIC shall establish a structure for ensuring the security of information assets.

(4) Protection of Personal Information

JBIC shall protect and manage personal information by establishing and making public our Privacy Policy and pursuant to the provisions of the Act on the Protection of Personal Information Held by Independent Administrative Agencies (Law No. 59 of 2003).

(5) Protection of Client Information

JBIC shall establish the basic policy for protecting its clients and increasing their convenience for the purpose of appropriate protection and management of information pertaining to them in accordance with this basic policy.

(6) Training on Information Asset Management

JBIC shall provide necessary training to all officers and employees who handle information assets to ensure that they understand requirements in the applicable laws and regulations, as well as in this policy and other applicable rules, and prevent the occurrence of information security problems.

(7) Outsourcing Work

In the event that JBIC engages persons other than its officers and employees to manage its information assets by outsourcing such work, it shall verify that information security is ensured and that appropriate measures have been taken in accordance with the content of the information assets.

(8) Responses to Incidents Concerning Information Assets

In the event of improper disclosure of personal or client information or other incidents causing a problem on information security, JBIC shall promptly take appropriate measures.

(9) Evaluation and Review

JBIC shall evaluate and review this policy, as necessary, to make flexible responses to changes in the external environment, such as the enactment, amendment, or repeal of applicable laws and regulations, as well as innovations in information security technology, and to changes in the internal environment, including organizational and operational changes and updates to JBIC’s information systems.

7. Privacy Policy

Japan Bank for International Cooperation (hereinafter "JBIC") positions the trust of our clients as our first priority, deeply recognizes the importance of our clients' personal information, and believes that it is our duty to our clients to properly manage and protect their personal information.

With a view to protecting our clients' personal information, JBIC will conduct our operations in a manner whereby we observe the Act on the Protection of Personal Information Held by Independent Administrative Agencies, etc. (hereinafter "Act"), the Guidance concerning the Measures to Properly Manage the Personal Information held by Independent Administrative Agencies, etc. and so forth.

(1) Acquisition of Personal Information

JBIC will acquire our clients' personal information through proper and lawful means. When we acquire personal information from our clients directly in writing, we will specify in advance the purposes for its use that are within the necessary scope of JBIC's operations.

(2) Use of Personal Information

JBIC will specify the purposes for use in obtaining the necessary personal information of our clients as listed below, and will use it within the scope that is necessary to achieve such purposes:

- A. Loan, equity participation, and guarantee operations, and their related due diligence exercise and research (or their supplementary work)
- B. Execution of agreements with JBIC, and exercise of rights and performance of obligations under laws, etc.
- C. Confirmation of personal identity as per such laws as Foreign Exchange and Foreign Trade Act (Act No. 228, 1949)
- D. Invitation to events (such as seminars) organized by JBIC
- E. Delivery of various JBIC-related materials
- F. Issuance and collection of surveys and questionnaires, and statistical processing and analysis of such outcomes
- G. Operations necessary for responding to questions and inquiries, and for dealing with transactions including queries from JBIC, in a proper and smooth manner

(3) Provision of Personal Information to Third Parties

JBIC will not provide the personal information acquired from its clients to third parties except in the following cases:

- A. It is required by law.
- B. It is provided within the scope of the purposes for use as prescribed above.
- C. Consent is obtained from the clients.
- D. There are convincing reasons why executive agencies, independent administrative agencies, local municipal entities or local independent administrative agencies would use it to the necessary extent to carry out the law-stipulated operations.
- E. It is used for statistics compilation or academic research.
- F. It is clearly beneficial to the clients or there exist special reasons to provide personal information.

(4) Subcontract

JBIC may subcontract the handling of our clients' personal information to conduct such operations more smoothly. In such cases, JBIC will attempt to select a trustworthy subcontractor, enter into a confidentiality agreement, adequately supervise the handling and administering of the personal information, and assure the protection of personal information.

(5) Personal Information Management (PIM)

- A. JBIC will attempt to keep our clients' personal information correct and updated, and take prevention and safety measures against unauthorized access, leakage, loss, damage, and alteration of personal information.
- B. JBIC will constantly educate its employees about the protection and proper management of our clients' personal information to thoroughly make sure of its proper handling in its daily operations.
- C. JBIC will audit and inspect whether the protection and management of personal information is undertaken properly.

(6) Disclosure, Correction, and Disuse

If a client wishes to make a request to disclose, correct or disuse the clients' personal information held by JBIC, we will deal with such a request by following the procedure of disclosure etc. stipulated in the Act. Meanwhile, there are some cases when such disclosure etc. could be made out of the procedure of disclosure etc. stipulated in the Act, for which please contact our Head Office or West Japan Office.

(7) Inquiries about Personal Information Management (PIM)

For inquiries or complaints about the clients' personal information management (PIM) at JBIC, please contact our Head Office or West Japan Office.

(8) Continuous Improvement

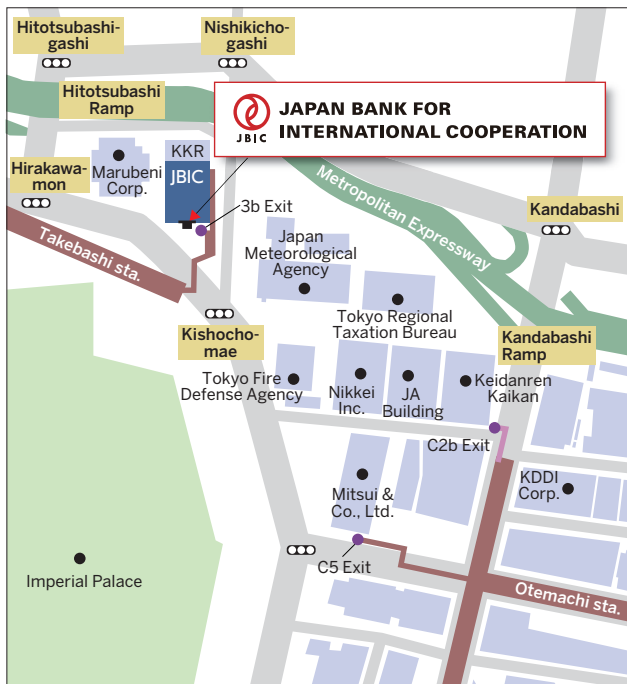

JBIC will continuously improve the clients' personal information management (PIM) as necessary.

JBIC separately stipulates its basic policy on the safe management of Individual Numbers and Personal Information that includes Individual Numbers (hereinafter "Specific Personal Information"; Individual Number and Specific Personal Information shall hereinafter be collectively referred to as "Specific Personal Information, etc."). "Personal information" as used in this Privacy Policy shall not include Specific Personal Information, and it is not contemplated that JBIC will obtain our clients' Specific Personal Information, etc.
