1 Statutory Financial Statements

Overview of Accounting

- The consolidated financial statements of the Bank are prepared based on the Ordinance on Terminology, Forms and Preparation Methods of Consolidated Financial Statements (Ordinance of the Ministry of Finance No. 28 of 1976). Moreover, its assets and liabilities are classified, also on a consolidated basis, pursuant to the Ordinance on the Accounting Practices to Be Observed by Japan Bank for International Cooperation (Ordinance of the Ministry of Finance No. 15 of 2012), while revenues and expenditures are reported on the same basis, in compliance with the latter Ordinance.
- The non-consolidated financial statements of the Bank are prepared based on the Ordinance on Terminology, Forms and Preparation Methods of Consolidated Financial Statements (Ordinance of the Ministry of Finance No. 59 of 1963). Furthermore, its assets and liabilities basis are classified, on a stand-alone basis, pursuant to the Ordinance on the Accounting Practices to Be Observed by Japan Bank for International Cooperation (Ordinance of the Ministry of Finance No. 15 of 2012) while non-consolidated revenues and expenditures are reported in compliance with the latter Ordinance.
- As the fiscal year under review (from April 1, 2017, to March 31, 2018) is the first year for which consolidated financial statements are prepared, comparative information is not provided.
- Pursuant to provisions of Article 193-2, paragraph (1) of the Financial Instruments and Exchange Act, audit certification has been made by Ernst & Young ShinNihon LLC for the Bank's consolidated financial statements for the fiscal year under review (from April 1, 2017, to March 31, 2018) as well as non-consolidated financial statements for the business year under review (from April 1, 2017, to March 31, 2018).

Cash and cash equivalents at end of period Note 15	¥ 1,229,610	\$ 11,574

■ Notes to Consolidated Financial Statements

1. Basis of presentation

The accompanying consolidated financial statements have been prepared from the accounting records maintained by Japan Bank for International Cooperation ("JBIC") and its subsidiaries (the "JBIC Group") in accordance with the accounting principles and practices generally accepted in Japan, which are different in certain aspects from the application and disclosure requirements of International Financial Reporting Standards ("IFRS").

The comparative information is not presented in the consolidated financial statements as the current fiscal year (the fiscal year ended March 31, 2018) is the initial year for which JBIC has prepared its consolidated financial statements.

The amounts indicated in millions of yen are rounded down by omitting figures less than one million. Totals may therefore not add up exactly because of this rounding.

Amounts in U.S. dollars are presented solely for the convenience of readers outside Japan. The rate of ¥ 106.24=\$1.00, the foreign exchange rate on March 31, 2018, has been used in translations. The presentation of such amounts is not intended to imply that Japanese yen have been or could be readily converted, realized, or settled in U.S. dollars at the aforementioned rate or any other rates.

2. Scope of consolidation

(a) Consolidated subsidiaries

The number of consolidated subsidiaries is two.

Company name: JBIC IG Partners

Russia-Japan Investment Fund, L.P.

JBIC IG Partners and Russia-Japan Investment Fund, L.P. are newly established and included in the scope of consolidation from the current fiscal year.

(b) Unconsolidated subsidiaries

There are no applicable subsidiaries.

(c) Other company whose majority of voting rights are owned by JBIC on its own account but which is not determined to be its subsidiary

Company name: RJIF Management Limited

(Reason for determining not to be a subsidiary)

JBIC has determined that RJIF Management Limited is not its subsidiary because, while JBIC indirectly owns a majority of voting rights of RJIF Management Limited through JBIC IG Partners, which is its consolidated subsidiary, JBIC needs to obtain agreement from other JV companies for making decisions on significant financial and business policies.

3. Application of the equity method

(a) Unconsolidated subsidiaries accounted for using the equity method

There are no applicable subsidiaries.

(b) Affiliates accounted for using the equity method

The number of affiliates accounted for using the equity method is two.

Company name: IFC Capitalization (Equity) Fund, L.P.

IFC Capitalization (Subordinated Debt) Fund, L.P.

(c) Unconsolidated subsidiaries that are not accounted for using the equity method

There are no applicable subsidiaries.

(d) Affiliates that are not accounted for using the equity method

The number of affiliates that are not accounted for using the equity method is six.

Company name: Credit Guarantee and Investment Facility

Delhi Mumbai Industrial Corridor Development Corporation Limited

Japan-China Eco Fund Pte. Ltd

Dawei SEZ Development Company Limited

JAPAN ASEAN Women Empowerment Fund

RJIF Management Limited

These companies were not included in the scope of the equity method because they do not have significant impacts

on the consolidated financial statements in any of the following items: Net income (the amount proportionate to the share of net income of such companies), Retained earnings (the amount proportionate to the share of retained earnings of such companies) and Accumulated other comprehensive income (the amount proportionate to the share of other comprehensive income of such companies).

4. Balance sheet dates of consolidated subsidiaries

The balance sheet dates of the consolidated subsidiaries are as follows:

	March 31	2018
December 31		1
March 31		1

Appropriate adjustments are made to significant transactions occurred during the period between the consolidated closing date and the balance sheet dates above.

5. Significant accounting policies

(a) Securities

Held-to-maturity securities are carried at amortized cost based on the moving average method. Investments in affiliates that are not accounted for by the equity method are carried at cost based on the moving average method. Available-for-sale securities are in principle stated at fair value with changes in net unrealized gains or losses included directly in Net assets. However, available-for-sale securities whose fair value cannot be readily determined are carried at cost based on the moving average method. Securities held by the consolidated foreign subsidiary are classified as a financial asset designated as fair value through profit or loss at initial recognition based on the IFRS. These securities are recognized as trading securities in JBIC's consolidated financial statements and are measured at fair value.

Investments in partnerships for investment, which are regarded as securities under Article 2, Paragraph 2 of the Japanese Financial Instruments and Exchange Act (Act No. 25 of 1948), are recognized at an amount equivalent to JBIC's percentage share of the net assets of such partnerships, based upon the most recent financial statements available depending on the reporting date stipulated in the partnership agreement.

(b) Valuation method for derivative financial instruments

Derivative financial instruments are carried at fair value.

(c) Depreciation basis for fixed assets

(i) Property, plant and equipment (except for lease assets)

Property, plant and equipment of JBIC are depreciated by the declining balance method over their useful economic lives except for buildings excluding installed facilities as well as installed facilities and structures acquired on or after April 1, 2016, which are depreciated by the straight-line method.

Depreciation is based on the following range of estimated useful lives:

Buildings: 3 years to 50 years

Other: 2 years to 35 years

Property, plant and equipment of consolidated subsidiaries are depreciated primarily by the straight-line method based on the estimated useful lives of the assets.

(ii) Intangible assets (except for lease assets)

Depreciation of intangible fixed assets is computed by the straight-line method. Software used by JBIC and its consolidated subsidiaries is depreciated over its useful life (5 years or less) at JBIC and its consolidated subsidiaries.

(iii) Lease assets

Lease assets in "property, plant and equipment" or "intangible assets," under finance leases that do not involve transfer of ownership to the lessee are depreciated by the straight-line method over the lease term. Depreciation for lease assets is calculated with zero residual value being assigned to the asset.

(d) Allowance for loan losses

Allowance for loan losses is recognized in accordance with internally established standards.

The allowance for claims on debtors who are legally bankrupt ("Bankrupt borrowers") or substantially bankrupt ("Substantially bankrupt borrowers") is provided based on the outstanding balance after the write-offs described as below and the deductions of the amount expected to be collected through the disposal of collateral and the execution of guarantees. The allowance for claims on debtors who are not legally bankrupt but are likely to become bankrupt ("Potentially bankrupt borrowers") is provided based on an assessment of the overall solvency of the debtors after deducting the amount expected to be collected through the disposal of collateral and the execution of guarantees.

The allowance for claims on debtors other than Bankrupt borrowers, Substantially bankrupt borrowers and Potentially

bankrupt borrowers is provided primarily based on the default rate, which is calculated based on the actual defaults during a certain period in the past. The allowance for possible losses on specific overseas loans is provided based on the expected loss amount taking into consideration the political and economic situations of these countries.

All claims are assessed initially by the operational departments and subsequently by risk evaluation departments based on internal rules for self-assessment of asset quality. The risk evaluation departments, which is independent from the operational departments, review these self-assessments, and the allowance is provided based on the results of the assessments.

With respect to claims with collateral or guarantees on debtors who are legally or substantially bankrupt (“Bankrupt borrowers and substantially bankrupt borrowers”), the residual booked amount of the claims after deduction of the amount which is deemed collectable through the disposal of collateral or the execution of guarantees is written off. There are no accumulated write-offs as of March 31, 2018.

(e) Provision for bonuses

The “provision for bonuses” is calculated and provided for based on the estimated amounts of future payments attributable to the services that have been rendered by employees to the date of the consolidated balance sheet.

(f) Provision for directors’ bonuses

The “provision for directors’ bonuses” is calculated and provided for based on the estimated amounts of future payments attributable to the services that have been rendered by directors to the date of the consolidated balance sheet.

(g) Provision for directors’ retirement benefits

The “provision for directors’ retirement benefits,” which provides for future retirement pension payments to directors, is recognized at the amount accrued at the end of the current fiscal year.

(h) Accounting for retirement benefits

(i) Method of attributing the projected benefits to periods of services

In calculating the projected benefit obligation, the estimated amount of retirement benefit payments is attributed to the period up to the end of the fiscal year based on the benefit formula.

(ii) Accounting for actuarial gains or losses and prior service costs

Actuarial gains or losses and prior service costs are expensed as they are incurred.

(Additional information)

Effective April 1, 2013, JBIC has been authorized by the Minister of Health, Labor and Welfare to be exempt from the obligations to pay future amounts in respect of the portion of the welfare pension fund it manages for the government. Subsequently on October 1, 2014, JBIC has been authorized to transfer to the government the past substitutional portion of the aforesaid fund. On September 22, 2017, *Kouko Kigyō Nenkin Kikin* (Kouko corporate pension fund) which JBIC participates in paid to the government ¥52,817 million (\$497 million) of the transfer amount of the substitutional portion (i.e., minimum reserve). Its impact on profits or losses in the current fiscal year amounted to ¥3 million (\$0 million) which was recognized in Other of Other expenses.

(i) Foreign currency translation and revaluation method

JBIC maintains its accounting records in Japanese yen. Assets and liabilities denominated in foreign currencies and held by JBIC are mostly translated into Japanese yen at the market exchange rate prevailing at the fiscal year end.

Assets and liabilities denominated in foreign currencies and held by consolidated subsidiaries are translated at the market exchange rate prevailing at respective balance sheet dates and other base date.

(j) Accounting for hedges of interest rate risk

(i) Hedge accounting

The deferral method is applied to derivatives used for interest risk hedging purposes.

(ii) Hedging instruments and hedged items

Hedging instruments: interest rate swaps

Hedged items: loans, borrowed money, bonds and notes

(iii) Hedging policy

JBIC enters into hedging transactions up to the amount of the underlying hedged assets and liabilities.

(iv) Assessment of hedge effectiveness

JBIC assesses the effectiveness of designated hedges by measuring and comparing the change in fair value or cumulative change of cash flows of both hedging instruments and corresponding hedged items from the date of inception of the hedges to the assessment date.

(k) Accounting for hedges of foreign exchange risks

Hedging instruments used to hedge foreign exchange risks associated with foreign currency denominated monetary assets and liabilities are accounted for primarily using the deferral method, in accordance with the standard treatment of The Japanese Institute of Certified Public Accountants (JICPA) Industry Audit Committee Report No. 25 of July 29, 2002.

The effectiveness of the hedges described above is assessed by comparing the foreign currency position of the hedged loans and bills discounted and bonds payable denominated in foreign currencies with that of the hedging instruments, such as currency swaps and forward foreign exchange contracts which are used for hedging the foreign exchange risks of loans and bills discounted and bonds payable denominated in foreign currencies.

Furthermore, the deferred hedge is applied to some of the foreign exchange risk arising from investments in affiliates denominated in foreign currencies that are individually hedged using forward foreign exchange contracts as hedging instruments.

(l) Scope of cash and cash equivalents in the consolidated statement of cash flows

Cash and cash equivalents as stated in the consolidated statement of cash flows consists of cash on hand and Deposit with the Bank of Japan in "Cash and due from banks" in the consolidated balance sheet.

(m) Consumption and other taxes

Consumption taxes and local consumption taxes ("consumption taxes") of JBIC and its domestic consolidated subsidiaries are excluded from transaction amounts. Non-deductible consumption taxes related to property, plant and equipment are expensed as incurred.

6. Equity securities of or investments in unconsolidated subsidiaries and affiliates

	March 31, 2018 (In millions of yen)	March 31, 2018 (In millions of U.S. dollars)
Equity securities	¥ 5,439	\$ 51
Investments	133,783	1,259

7. Loans**(a) Bankrupt loans and non-accrual loans included in loans and bills discounted:**

	March 31, 2018 (In millions of yen)	March 31, 2018 (In millions of U.S. dollars)
Bankrupt loans	¥ —	\$ —
Non-accrual loans	188,842	1,778

"Bankrupt loans" are loans, defined in Article 96, Paragraph 1, Item (iii), a. through e. and Item (iv) of the Order for Enforcement of the Corporation Tax Act (Cabinet Order No. 97, 1965), on which accrued interest income is not recognized as there is substantial uncertainty over the ultimate collectability of either principal or interest because they have been in arrears for a considerable period of time or for other reasons.

"Non-accrual loans" are loans on which accrued interest income is not recognized, although this excludes Bankrupt loans and the loans on which interest payments are deferred in order to support the borrowers' recovery from financial difficulties.

(b) Loans with interest or principal repayments three months or more in arrears included in loans and bills discounted:

There are no applicable loans.

"Loans with interest or principal repayments three months or more in arrears" are loans whose principal or interest payment is three months or more in arrears, and which do not fall under the category of "Bankrupt loans" and "Non-accrual loans."

(c) Restructured loans included in loans and bills discounted:

	March 31, 2018 (In millions of yen)	March 31, 2018 (In millions of U.S. dollars)
Restructured loans	¥ 225,846	\$ 2,126

"Restructured loans" are loans whose repayment terms and conditions have been amended in favor of the borrowers (e.g. reduction of or exemption from the stated interest rate, the deferral of interest payments, the extension of principal repayments or waiver of claims) in order to support the borrowers' recovery from financial difficulties, and which do not fall under the category of "Bankrupt loans," "Non-accrual loans," or "Loans with interest or principal repayments three months or more in arrears."

- (d) The total amount of bankrupt loans, non-accrual loans, loans with interest or principal repayments three months or more in arrears, and restructured loans:

	March 31, 2018 (In millions of yen)	March 31, 2018 (In millions of U.S. dollars)
Total amount	¥ 414,688	\$ 3,903

The amounts of loans indicated in table (a) through (d) above are the gross amounts before the deduction of allowance for loan losses.

- (e) JBIC, as a policy, does not extend loans to borrowers in part or in full immediately after the execution of the loan agreements, but instead execute loans, in accordance with the progress of the underlying projects. These undrawn amounts are not included in the loans on deed in the consolidated balance sheet. The balance of undrawn amounts is as follows:

	March 31, 2018 (In millions of yen)	March 31, 2018 (In millions of U.S. dollars)
Balance of undrawn loans	¥ 1,665,471	\$ 15,676

8. Assets pledged as collateral

Pursuant to Article 34 of the Japan Bank for International Cooperation Act ("JBIC Act"), all JBIC assets are pledged as general collateral for bonds:

	March 31, 2018 (In millions of yen)	March 31, 2018 (In millions of U.S. dollars)
Bonds payable	¥ 4,392,597	\$ 41,346

Other assets include Cash collateral paid for financial instruments as follows:

	March 31, 2018 (In millions of yen)	March 31, 2018 (In millions of U.S. dollars)
Cash collateral paid for financial instruments	¥ 141,180	\$ 1,329

9. Accumulated depreciation of property, plant and equipment

	March 31, 2018 (In millions of yen)	March 31, 2018 (In millions of U.S. dollars)
Accumulated depreciation	¥ 2,104	\$ 20

10. Contingent liabilities

Japan Finance Corporation ("JFC") assumed the obligations of the JFC bonds on April 1, 2012, and JBIC is jointly responsible for the obligations of these bonds. In accordance with Article 17 (2) of the Supplementary Provisions of the JBIC Act, all of JBIC's assets are pledged as general collateral for these joint obligations as follows.

	March 31, 2018 (In millions of yen)	March 31, 2018 (In millions of U.S. dollars)
	¥ 140,000	\$ 1,318

11. Items included in Other under Other income

Other under Other income includes the following:

	March 31, 2018 (In millions of yen)	March 31, 2018 (In millions of U.S. dollars)
Profits of equity method investments	¥ 22,207	\$ 209
Gain on investments in partnerships	¥ 6,884	\$ 65

12. Items included in Other under Other expenses

Other under Other expenses includes the following:

	March 31, 2018 (In millions of yen)	March 31, 2018 (In millions of U.S. dollars)
Loss on sales of stocks and other securities	¥ 88	\$ 1

13. Reclassification adjustments and tax effect of other comprehensive income

	March 31, 2018 (In millions of yen)	March 31, 2018 (In millions of U.S. dollars)
Valuation difference on available-for-sale securities:		
Amount recognized in the current fiscal year	¥ (3,586)	\$ (34)
Reclassification adjustments	(91)	(1)
Before tax effect adjustment	(3,677)	(35)
Tax effect	—	—
Valuation difference on available-for-sale securities	(3,677)	(35)
Deferred gains or losses on hedges:		
Amount recognized in the current fiscal year	(138,278)	(1,302)
Reclassification adjustments	43,843	413
Before tax effect adjustment	(94,435)	(889)
Tax effect	—	—
Deferred gains or losses on hedges	(94,435)	(889)
Foreign currency translation adjustment:		
Amount recognized in the current fiscal year	167	2
Reclassification adjustments	0	0
Before tax effect adjustment	168	2
Tax effect	—	—
Foreign currency translation adjustment	168	2
Share of other comprehensive income of equity method investments:		
Amount recognized in the current fiscal year	(3,087)	(29)
Reclassification adjustments	(1,739)	(16)
Before tax effect adjustment	(4,826)	(45)
Tax effect	—	—
Share of other comprehensive income of equity method investments	(4,826)	(45)
Total other comprehensive income	¥ (102,771)	\$ (967)

14. Changes in net assets**(a) Issued shares and treasury stocks**

For the fiscal year ended March 31, 2018, the type and the number of issued shares and treasury stocks are as follows;

(unit: thousands of shares)

Types	The number of shares at the beginning of the fiscal year	Increase during the fiscal year	Decrease during the fiscal year	The number of shares at the end of the fiscal year	Remarks
Issued shares					
Common stocks	1,533,000,000	82,200,000	—	1,615,200,000	Note
Classified stock	—	—	—	—	
Total	1,533,000,000	82,200,000	—	1,615,200,000	Note
Treasury stock					
Common stocks	—	—	—	—	
Classified stock	—	—	—	—	
Total	—	—	—	—	

(Note) The reason for an increase in shares is the issuance of 82,200,000 thousand new shares.

15. Cash flows

"Cash and cash equivalents" in the consolidated statement of cash flows as of March 31, 2018 reconciles to cash and due from banks in the consolidated balance sheet as follows:

	March 31, 2018 (In millions of yen)	March 31, 2018 (In millions of U.S. dollars)
Cash and due from banks	¥ 1,751,287	\$ 16,484
Time deposits and others	(521,676)	(4,910)
Cash and cash equivalents	¥ 1,229,610	\$ 11,574

16. Financial instruments and related disclosure

(a) Status of financial instruments

(i) Initiatives for financial instruments

Based on the JBIC Act, JBIC is a policy-based financial institution wholly owned by the Japanese government, which has the purpose of contributing to the sound development of Japan and the international economy and society while supplementing the financial transactions implemented by private-sector financial institutions, by performing the financial function to promote the overseas development and securement of resources which are important for Japan; maintaining and improving the international competitiveness of Japanese industries; promoting the overseas business having the purpose of preserving the global environment, such as preventing global warming, as well as preventing disruptions to international financial order or taking appropriate measures with respect to damages caused by such disruption.

JBIC's principal operations consist of providing export loans, import loans, investment financing, financing for business development (including guarantees) and capital investment. To conduct these operations, funds are raised through borrowings from the fiscal investment and loans and the foreign exchange fund special account, and the issuing of bonds. An ALM (asset and liability management) function has been established in respect of our financial assets and liabilities that are subject to interest rate and currency fluctuations to assist in ensuring that such fluctuations do not have an adverse effect on our operations. In addition, derivative transactions are entered into for the purpose of mitigating risk inherent in foreign currency denominated transactions. Financial instruments that can be used for the management of surplus funds are limited to safe instruments such as Japanese government bonds, etc., as stipulated in the JBIC Act.

The budget required for governmental financial operations is decided upon by the Diet of Japan, and business plans and financial plans (borrowings from fiscal investment and loans, bonds, general accounting investment, and loans, etc.) are appended to the budget and submitted to the Diet of Japan.

Certain subsidiaries of JBIC engage in investments and other related activities as their principal operation.

(ii) Types of financial instruments and risks

The assets that JBIC holds mainly include loans to borrowers in Japan and overseas, and securities and liabilities mainly include borrowed money and bonds. A subsidiary of JBIC holds securities with price fluctuations.

The associated risks of financial assets and financial liabilities held by JBIC are described below.

① Credit risk

Credit risk is the risk that JBIC will suffer losses if the financial conditions of the borrower deteriorate and the value of assets (including off-balance sheet assets) declines or is impaired.

The credit risks associated with JBIC include sovereign risk, country risk, corporate risk, and project risk. JBIC engages in significant financing activities with overseas governments, governmental institutions, and overseas corporations as part of its support to overseas economic transactions. Because of the characteristics of these activities, sovereign or country risk is a significant part of the credit risk. JBIC is exposed to in connection with these activities.

As a result, if the financial conditions of the individual borrower significantly deteriorate due to political and economic trends in the borrower's country or region, JBIC's performance and financial conditions can be adversely affected.

(Note) Sovereign risk refers to risk associated with credit extended to foreign governments, country risk refers to risk associated with the country in which the corporation or project is located (risk, in addition to corporate risk or project risk, associated with the country in which the corporation or the project is located) and corporate risk refers to the risk associated with credit to corporations and project risk refers to the risk that the cash flows generated from the project fail to generate the planned cash flows, in the case of project finance, where the repayment of the borrowing is primarily secured by the cash flow of the project to which credit is extended.

② Market risk

Market risk is the risk that the value of assets and liabilities (including off-balance sheet items) will fluctuate

and losses will be incurred, or profits derived from assets and liabilities (including off-balance sheet items) will fluctuate and losses will be incurred due to changes in various market risk factors, such as interest rates and exchange rates.

The market risk borne by JBIC mainly consists of foreign exchange risk and interest rate risk, and JBIC may suffer losses from these risks due to fluctuations in the markets such as market turmoil. However, in principle, these risks are hedged through interest rate swaps, currency swaps, and forward foreign exchange contracts.

JBIC uses hedge accounting for interest rate hedges, where the hedging instrument is interest rate swaps to hedge the risk of changes in interest rates associated with loans, borrowed money and bonds. The effectiveness of the hedges is assessed by measuring and comparing the change in fair value or cumulative change in cash flows of both hedging instruments and corresponding hedged items from the date of inception of the hedges to the assessment date.

JBIC uses hedge accounting for foreign exchange hedges, where currency swaps and forward foreign exchange contracts are used to hedge items such as loans and bonds, etc. for foreign exchange risk. The effectiveness of the hedging with currency swaps and forward foreign exchange contracts is assessed by comparing the foreign currency position of the hedged financial assets and liabilities with that of the hedging instruments.

Furthermore, some of the foreign exchange risk arising from investments in affiliates denominated in foreign currencies are individually hedged by forward foreign exchange contracts as hedging instruments.

③ Liquidity risk

Liquidity risk is the risk that losses will be incurred as a result of difficulties in obtaining the funds necessary due to a maturity mismatch between financing and funding or unexpected outflow of funds, or being forced to fund at an interest rate significantly higher than that under normal circumstances (funding risk). It is also the risk that losses will be incurred from being unable to conduct market transactions due to market turmoil or being forced to transact at far more unfavorable prices than those under normal circumstances (market liquidity risk).

Long-term and stable funds, such as fiscal loan funds, government-guaranteed bonds and FILP agency bonds, are secured to finance JBIC and deposits are not accepted. Therefore, JBIC considers liquidity risk to be limited. However, financing costs could increase due to market turmoil and unexpected events.

(iii) Risk management structure for financial instruments

The risk management structure of JBIC is described below.

① Credit risk management

The cornerstone of credit risk management at JBIC is the evaluation of an individual borrower's creditworthiness in advance of credit approval.

When a new credit application is processed, the relevant finance departments (sales promotion departments) and credit departments collect and analyze information on the borrower. JBIC's overseas representative offices also play a part in collecting information on foreign governments and companies. Credit appraisal takes place based on the information that has been gathered and analyzed with the different departments ensuring appropriate checks throughout the process, leading to the final decision by management.

In providing credit to foreign governments and companies, JBIC takes maximum advantage of its unique position as a public financial institution. This includes exchanging views and information with governments and relevant authorities in the recipient countries, multilateral international institutions such as the International Monetary Fund (IMF) and the World Bank, other regional development banks such as export credit agencies, and private financial institutions in developed countries. Using all these channels to exchange views and information, JBIC evaluates sovereign and country risks (risk in addition to corporate risk associated with the country in which the corporation is located) based on the broad range of information collected on the borrowing governments, the government agencies and the political and economic conditions in their countries.

The relevant finance departments and credit departments conduct proper credit risk management based on the credit risk rating system for segmented risk categories and the asset self assessment system based on the Financial Inspection Manual of the Japanese Financial Services Agency. In addition, an Integrated Risk Management Committee is held regularly to report the status of credit management to the management. In addition, an Integrated Risk Management Committee is held regularly to report the status of credit management to the management. The credit management is also checked by an independent auditing department.

In addition, a claims protection mechanism exists based on an international framework unique to official creditors, that is not applied to private sector financial institutions, for public claims on foreign governments. This mechanism consists of international financial assistance upon international approval by the Paris Club, an international group focusing on debt, to allow the debtor country to continue debt repayment when the debtor country becomes temporarily unable to service its debt due to economic conditions. As part of this international financial assistance, the debtor country conducts an economic reform program agreed by the IMF in order to secure the ability to sustainably service its debt. In view of JBIC's position as a public financial institution, it will

use the framework of the Paris Club to preserve its public claims on foreign governments.

In addition to the above credit risk management related to individual borrowers, JBIC quantifies credit risk with a view to evaluating the risk of the overall loan portfolio. To quantify credit risks, it is important to take into account the characteristics of JBIC's loan portfolio, which are not typically seen in other private financial institutions, namely that JBIC holds a significant proportion of long-term loans that entail sovereign and country risks. Also to be taken into account are mechanisms for securing assets under an international supporting framework, such as the Paris Club, which is unique to official creditors. JBIC uses a unique model to quantify the credit risk taking account of the above factors and measures amount of credit risk, which are utilized for credit risk management.

② Market risk management

JBIC manages foreign exchange risk and interest rate risk through its ALM. Market risk management protocols contain detailed stipulations in respect of risk management methods and procedures, and JBIC established an ALM Committee to assess and confirm the execution of ALM, and to discuss future responses to market risk. In addition, JBIC assesses and monitors the interest rate and terms of financial assets and liabilities in detail through a gap analysis and an interest rate sensitivity analysis as well as Value at Risk ("VaR"). The results are reported to the ALM Committee on a regular basis.

The basic policy for managing foreign exchange risk and interest rate risk at JBIC is described below.

1) Foreign exchange risk

Foreign currency-denominated loans conducted in JBIC involve risks related to exchange rate fluctuations. We have a consistent policy of managing this risk by fully hedging this risk exposure through the use of currency swaps and forward foreign exchange contracts. Furthermore, some of the foreign exchange risk arising from investments in affiliates denominated in foreign currencies are individually hedged using forward foreign exchange contracts as hedging instruments.

2) Interest rate risk

Interest rate risk arises from exposure to market interest rate fluctuations for yen-denominated loan and foreign currency-denominated loan operations and the policy for managing interest rate risk is described below.

a. Yen-denominated loan operations

Yen-denominated loan operations are mainly managed by using fixed-rate loans. However, swaps are used to hedge interest rate risk for the portion of loans that are deemed to have high exposures to interest rate fluctuations and therefore interest rate risk is limited.

b. Foreign currency-denominated loan operations

For foreign currency-denominated loan operations, interest rate risk is hedged through the application of a consistent policy of using interest rate swaps and managing the funds with floating interest rates for both loans and related funding arrangements.

3) Status of market risk

JBIC only maintains a banking book and does not have financial instruments in a trading book. While in principle JBIC holds derivatives only for hedging purposes, as stated previously, market risk (VaR) is measured in order to assess potential risk exposures. The following represents the market risk (VaR) exposure in the current fiscal year. JBIC measures market risk (VaR) by taking into account the degree of correlation between interest rate risk and foreign exchange risk.

a. Market risk (VaR)

March 31, 2018 (In billions of yen)		March 31, 2018 (In billions of U.S. dollars)	
¥	159.4	\$	1.5

b. Market risk (VaR) measurement model

Historical model (Confidence Interval: 99%, Holding period: 1 year, Observation period: 5 years)

c. Risk management using VaR

VaR is a market risk measure that assesses the maximum possible fluctuation of gains or losses in fair values that could be incurred after a certain period of time ("holding period") based on historical market movements of interest rates or exchange rates, etc., over a specific period in the past (or observation period) within a given probability (confidence interval), that is derived statistically by employing the theory of possibility distribution.

The measurement assumes historical market trends and the theory of probability distribution. Based on the possibility that future market trends could deviate from these assumptions, a back-test is performed to cross-check the model-measured VaR with actual profits or losses, in order to confirm the effectiveness of market risk measurements using VaR. In addition, a stress test, which goes beyond

the probability distribution of historical market movements, is carried out in order to capture risks from various perspectives.

The following points should generally be noted in measuring VaR:

- VaR will differ depending on the choice of confidence interval, holding period or observation period;
- VaR indicates the maximum fluctuation of gains or losses in fair values at the time of measurement. In practice, the actual results at a point in the future may differ from the VaR calculation due to changes in the assumptions caused by market movements during the holding period; and
- VaR indicates the maximum value based on specific assumption. As such, when utilizing VaR as a risk management measure, it is imperative to keep in mind that VaR may underestimate the potential losses.

③ Liquidity risk management related to funding

Long-term and stable funds, such as fiscal loan funds, government-guaranteed bonds and FILP agency bonds, are used to finance these operations and deposits are not accepted.

Cash flows are assessed and proper measures, including establishing overdraft facility accounts with multiple private sector financial institutions, are taken to maintain daily cash flows for proper risk management.

④ Derivative transactions

For derivatives transactions, the internal checks and balances is established by assigning the execution of transactions, the assessment of hedge effectiveness and the management of administrative work to separate divisions. In addition, derivative transactions are carried out in accordance with the derivatives related protocol.

(iv) Supplementary explanation concerning fair value of financial instruments

Fair values of financial instruments are based on their market prices or, in cases where market prices are not available, on reasonably calculated prices. These prices have been calculated using certain assumptions, and may differ depending on the assumptions.

(b) Fair value of financial instruments

The carrying amount on the consolidated balance sheet as of March 31, 2018 and the related fair value, and difference are as follows. Note that unlisted securities whose fair value is extremely difficult to be determined are not included in the following chart (refer to Note 2).

As of March 31, 2018

(In millions of yen)

	Amount on consolidated balance sheet	Fair value	Difference
(1) Cash and due from banks	¥ 1,751,287	¥ 1,751,287	¥ —
(2) Securities			
Trading securities	9,837	9,837	—
Available-for-sale securities	76,197	76,197	—
(3) Loans and bills discounted	13,513,680		
Allowance for loan losses ^{(*)1}	(265,189)		
	13,248,491	13,342,813	94,322
(4) Other assets ^{(*)2}	141,180	141,180	—
Total assets	15,226,993	15,321,316	94,322
(1) Borrowed money	8,370,758	8,425,665	54,906
(2) Bonds payable	4,392,597	4,315,172	(77,424)
(3) Other liabilities ^{(*)2}	56,280	56,280	—
Total liabilities	12,819,635	12,797,117	(22,518)
Derivative transactions ^{(*)3}			
Derivative transactions not qualifying for hedge accounting	—	—	—
Derivative transactions qualifying for hedge accounting	(137,746)	(137,746)	—
Total derivative transactions	¥ (137,746)	¥ (137,746)	¥ —

As of March 31, 2018

(In millions of U.S. dollars)

	Amount on consolidated balance sheet	Fair value	Difference
(1) Cash and due from banks	\$ 16,484	\$ 16,484	\$ —
(2) Securities			
Trading securities	93	93	—
Available-for-sale securities	717	717	—
(3) Loans and bills discounted	127,200		
Allowance for loan losses (*1)	(2,497)		
	124,703	125,591	888
(4) Other assets (*2)	1,329	1,329	—
Total assets	143,326	144,214	888
(1) Borrowed money	78,791	79,308	517
(2) Bonds payable	41,346	40,617	(729)
(3) Other liabilities (*2)	530	530	—
Total liabilities	120,667	120,455	(212)
Derivative transactions (*3)			
Derivative transactions not qualifying for hedge accounting	—	—	—
Derivative transactions qualifying for hedge accounting	(1,297)	(1,297)	—
Total derivative transactions	\$ (1,297)	\$ (1,297)	\$ —

(*1) General allowance for loan losses and specific allowance for loan losses, and the allowance for possible loan losses on specific overseas loans have been deducted from loans.

(*2) This does not include derivative transactions, but presents Other assets and Other liabilities that are financial instruments subject to fair value disclosure.

(*3) Derivatives recorded in "other assets" and "other liabilities" are collectively presented. Assets and liabilities arising from derivative transactions are presented on a net basis. The figures in parenthesis indicate net liabilities.

(Note 1) Valuation methodologies used for estimating fair values for financial instruments

Assets

(1) Cash and due from banks

For Due from banks that have no specific maturity or have a maturity under 3 months, the carrying amounts are used as fair value because the carrying amount approximates the fair value.

(2) Securities

Trading securities are held by the consolidated foreign subsidiary and are measured at fair value through profit or loss based on the IFRS.

The fair value of "Available-for-sale securities" is based upon the prices that are indicated from the financial institutions that JBIC transacts with.

(3) Loans and bills discounted

For loans with variable interest rates, since such loans reflect market interest rates, an amount calculated by the floating rate note method over the short term is used for fair value.

For loans with fixed interest, the total principal and interest is discounted by a risk free rate that incorporates the default ratio and coverage ratio to calculate fair value.

However for claims on bankrupt borrowers, substantially bankrupt borrowers, and potentially bankrupt borrowers, expected credit losses on such claims are calculated based on the expected collectable amount from the collateral or guarantee. Since fair value approximates the amount on the consolidated balance sheet at the fiscal year end after the deduction of the allowance for loan losses, this amount is used for fair value.

(4) Other assets

Of Other assets, for cash collateral paid for financial instruments, the carrying amount is used as fair value because the carrying amount approximates the fair value.

Liabilities

(1) Borrowed money

Borrowed money with variable interest rates reflect short-term market interest rates and the credit conditions of JBIC and its consolidated subsidiaries have not changed significantly since the execution of borrowings. Therefore, the carrying amount is used as fair value because it is considered that the carrying amount approximates the fair value. For borrowed money with a fixed interest rate, in principle, fair value is calculated by discounting the principal and interest of the borrowings by the risk free rate (the standard Japanese government bond rate).

(2) Bonds payable

Market value is used as fair value of bonds.

(3) Other liabilities

Of Other liabilities, for cash collateral received for financial instruments, the carrying amount is used as fair value because the carrying amount approximates the fair value.

Derivative transactions

Derivative transactions are discussed under "Derivative transactions."

(Note 2) Financial instruments whose fair values are considered to be extremely difficult to be determined are as follows. They are not included in "Assets, (2) Securities."

Classification

	March 31, 2018 (In millions of yen)	March 31, 2018 (In millions of U.S. dollars)
1) Unlisted stocks (unconsolidated subsidiaries and affiliates) ^{(*)1}	¥ 5,439	\$ 51
2) Unlisted stocks (other than unconsolidated subsidiaries and affiliates) ^{(*)1}	75,393	710
3) Partnership investments (unconsolidated subsidiaries and affiliates) ^{(*)2}	133,783	1,259
4) Partnership investments (other than unconsolidated subsidiaries and affiliates) ^{(*)2}	50,952	480
Total	¥ 265,569	\$ 2,500

(*)1 Since unlisted stocks do not have quoted market prices available and their fair value is extremely difficult to be determined, fair values are not stated.

(*)2 For partnership investments composed of unlisted stocks that do not have quoted market prices available and for which fair value is extremely difficult to be determined, fair values are not stated.

(Note 3) Redemption schedule for receivables and redeemable securities with future redemption dates

March 31, 2018

(In millions of yen)

	Due within one year	Due after one year but within three years	Due after three years but within five years	Due after five years but within seven years	Due after seven years but within ten years	Due after ten years

(*) "Available-for-sale securities" includes foreign exchange translation differences in respect of available-for-sale securities whose fair value cannot be readily determined.

18. Derivative transactions

Notes to derivative transactions in the fiscal year ended March 31, 2018 are as follows;

(a) Derivative transactions not qualifying for hedge accounting

(i) Interest rate-related transactions

Not applicable

(ii) Currency-related transactions

Not applicable

(iii) Equity-related transactions

Not applicable

(iv) Bond-related transactions

Not applicable

- (v) Commodity-related transactions
Not applicable
- (vi) Credit derivative transactions
Not applicable

(b) Derivative transactions qualifying for hedge accounting

For derivative transactions qualifying for hedge accounting, contract value at the fiscal year end or notional amount defined in agreements, and fair value and its calculation method, by hedged item and by hedge accounting method, are as follows. Contract value does not indicate the market risk of the derivative transactions.

(i) Interest rate-related transactions

Fiscal year ended March 31, 2018

(In millions of yen)

Hedge accounting	Type	Major hedged items	Contract value	Contract value (Maturing after one year)	Fair value	
Basic accounting method	Interest rate swap	Loans and bills discounted Borrowed money Bonds payable				
			Receive/fixed and pay/floating	¥ 3,985,081	¥ 3,374,201	¥ (115,742)
			Receive/floating and pay/fixed	717,401	704,092	(4,117)
			Receive/floating and pay/floating	212,480	212,480	(105)
Total		¥ —	¥ —	¥ (119,965)		

Fiscal year ended March 31, 2018

(In millions of U.S. dollars)

Hedge accounting	Type	Major hedged items	Contract value	Contract value (Maturing after one year)	Fair value	
Basic accounting method	Interest rate swap	Loans and bills discounted Borrowed money Bonds payable				
			Receive/fixed and pay/floating	\$ 37,510	\$ 31,760	\$ (1,089)
			Receive/floating and pay/fixed	6,753	6,627	(39)
			Receive/floating and pay/floating	2,000	2,000	(1)
Total		\$ —	\$ —	\$ (1,129)		

(Note) Calculation of fair value is based on the discounted cash flows.

(ii) Currency-related transactions

Fiscal year ended March 31, 2018

(In millions of yen)

Hedge accounting	Type	Major hedged items	Contract value	Contract value (Maturing after one year)	Fair value
Basic accounting method	Currency swap	Loans and bills discounted Bonds payable	¥ 3,274,459	¥ 2,761,005	¥ (17,161)
	Forward foreign exchange contracts	Loans and bills discounted			
			Sell	Investments in capital and other items	87,304
Buy		7,527	—	(16)	
Total		¥ —	¥ —	¥ (17,780)	

Fiscal year ended March 31, 2018

(In millions of U.S. dollars)

Hedge accounting	Type	Major hedged items	Contract value	Contract value (Maturing after one year)	Fair value
Basic accounting method	Currency swap	Loans and bills discounted Bonds payable	\$ 30,821	\$ 25,988	\$ (162)
	Forward foreign exchange contracts	Loans and bills discounted			
			Sell	Investments in capital and other items	822
Buy		71	—	0	
Total		\$ —	\$ —	\$ (167)	

Note 1. These are mainly accounted for using the deferred method of hedge accounting under "Accounting and Auditing Treatment Relating to Adoption of Accounting Standard for Foreign Currency Transactions for Banks" (JICPA Industry Audit Committee Report No. 25 of July 29, 2002).

Note 2. Calculation of fair value is based on the discounted cash flows.

- (iii) Equity-related transactions
Not applicable
- (iv) Bond-related transactions
Not applicable

19. Retirement benefits

(a) Overview of retirement benefit plans

JBIC abolished the welfare pension fund plan effective October 1, 2014 and has established a defined benefit corporate pension plan and a defined contribution pension plan.

JBIC has a defined benefit pension plan comprised of a corporate pension plan (transferred from a welfare pension fund plan effective October 1, 2014) and a lump-sum severance indemnity plan. Although JBIC's corporate pension plan is a multi-employer plan, the amount of the pension assets corresponding to its own contribution can be reasonably calculated based on the ratio of the projected benefit obligations, and the related notes are included in the following notes related to the defined benefit pension plan.

Under the corporate pension plan (funded type), pension or lump-sum payments are provided based on salary and service period. Under the lump-sum severance indemnity plan (unfunded type), lump-sum payments are provided as retirement benefits based on salary and service period. In addition, JBIC has established a defined contribution-type retirement benefit plan effective October 1, 2014.

Effective April 1, 2013, JBIC has been authorized by the Minister of Health, Labor and Welfare to be exempt from the obligations to pay future amounts in respect of the portion of the welfare pension fund it manages for the government. Subsequently on October 1, 2014, JBIC has been authorized to transfer to the government the past substitutional portion of the aforesaid fund. On September 22, 2017, *Kouko Kigyō Nenkin Kikin* (*Kouko* corporate pension fund) which JBIC participates in paid to the government ¥52,817 million (\$497 million) of the transfer amount of the substitutional portion (i.e., minimum reserve). Its impact on profits or losses in the current fiscal year amounted to ¥3 million (\$0 million) which was recognized in Other of Other expenses.

(b) Defined benefit pension plan

- (i) The changes in the projected benefit obligation are as follows:

	March 31, 2018 (In millions of yen)	March 31, 2018 (In millions of U.S. dollars)
Projected benefit obligation at the beginning of the fiscal year	¥ 13,772	\$ 130
Service cost	445	4
Interest cost	35	0
Actuarial losses	383	3
Retirement benefit paid	(733)	(7)
Decrease due to the transfer of the substitutional portion of the welfare pension fund	(2,706)	(25)
Projected benefit obligation at the end of the fiscal year	¥ 11,197	\$ 105

- (ii) The changes in the plan assets are as follows:

	March 31, 2018 (In millions of yen)	March 31, 2018 (In millions of U.S. dollars)
Pension assets at the beginning of the fiscal year	¥ 6,964	\$ 66
Expected return on plans assets	106	0
Actuarial gains	156	1
Contributions by the employer	122	1
Retirement benefit paid	(229)	(2)
Decrease due to the transfer of the substitutional portion of the welfare pension fund	(2,709)	(25)
Pension assets at the end of the fiscal year	¥ 4,411	\$ 41

- (iii) Reconciliation of the projected benefit obligation and plan assets and net defined benefit liability and net defined benefit asset in the consolidated balance sheet

	March 31, 2018 (In millions of yen)	March 31, 2018 (In millions of U.S. dollars)
Funded projected obligation	¥ 6,090	\$ 57
Fair value of plans assets	(4,411)	(41)
	1,679	16
Unfunded projected benefit obligation	5,106	48
Net amount of assets and liabilities in the consolidated balance sheet	¥ 6,785	\$ 64
Defined benefit liability	6,785	64
Defined benefit asset	—	—
Net amount of assets and liabilities in the consolidated balance sheet	¥ 6,785	\$ 64

- (iv) Component of retirement benefit expense

	March 31, 2018 (In millions of yen)	March 31, 2018 (In millions of U.S. dollars)
Service cost	¥ 445	\$ 4
Interest cost	35	0
Expected return on plans assets	(106)	(0)
Realized actuarial loss	226	2
Retirement benefit expense	¥ 601	\$ 6

(Note) In addition to the above, ¥3 million (\$0 million) was recognized in Other of Other expenses in the current fiscal year as a result of the transfer of the substitutional portion of the welfare pension fund.

- (v) Plan assets

- ① Major components of plan assets

Percentages of components to the total are as follows;

	March 31, 2018
Debt securities	61%
Stocks	24%
General account of life insurance company	14%
Cash and due from banks	1%
Total	100%

- ② Method of determining the long-term expected rate of return on plan assets

The long-term expected rate of return on plan assets is determined based on the current and projected pension asset allocations as well as on the current and future rates of return expected from various assets that are components of plan assets.

- (vi) Principal assumptions used

Principal assumptions used in actuarial calculations

	March 31, 2018
Discount rate	0.24%
Expected rate of return on plan assets	2.50%
Expected rate of increase in salary	4.35%

- (c) Defined contribution plan

The amount of contribution required to be made to the defined contribution plan was ¥25 million (\$0 million) for the fiscal year ended March 31, 2018.

20. Deferred tax accounting

- (a) Breakdown of deferred tax assets and deferred tax liabilities

	March 31, 2018 (In millions of yen)	March 31, 2018 (In millions of U.S. dollars)
Deferred tax assets		
Tax loss carryforward	¥ 8	\$ 0
Other	1	0
Sub total	9	0
Valuation allowance	(9)	(0)
Total deferred tax assets	¥ —	\$ —

- (b) Where there is a significant difference between the effective statutory tax rate and the rate of income tax and other taxes after applying deferred tax accounting, breakdown of major items attributable to the difference
This information is omitted since JBIC is a nontaxable entity defined in the Article 2, Paragraph 5 of the Corporation Tax Act (Act No. 34 of 1965) and therefore there is no significant difference between the effective statutory tax rate and the rate of income tax and other taxes after applying deferred tax accounting.

21. Segment information

(a) Segment summary

The JBIC Group's operating segments are those for which discrete financial information is available, and whose operating results are regularly reviewed by JBIC's management.

The JBIC Group is a policy-based financial institution wholly owned by the Japanese government, which has the purpose of contributing to the sound development of Japan and the international economy and society, while supplementing the financial transactions implemented by private-sector financial institutions by performing financial operations from four viewpoints: i.e. "promotion of the overseas development and securement of resources which are important for Japan"; "maintenance and improvement of the international competitiveness of Japanese industries"; "promotion of the overseas business having the purpose of preserving the global environment, such as preventing global warming"; and "prevention of disruptions to international financial order or implementation of appropriate measures with respect to damages caused by such disruption." To achieve these purposes, for business operations defined under the Act on Japan Bank for International Cooperation and other acts, JBIC has two reporting segments: "Ordinary Operations" account and "Special Operations" account. Accounting operations are separately carried out for respective accounts.

The "Ordinary Operations" account covers the businesses which are not included in the "Special Operations" account of the JBIC Group. The Ordinary Operations account also includes the investment business of the consolidated subsidiaries.

The "Special Operations" account includes the businesses that offer financing services such as lending to overseas infrastructure business projects that generate a higher expected return in exchange for higher risk.

- (b) Method of calculating ordinary income, profit or loss, assets, liabilities and other items by reportable segment
Accounting treatment applied to business segments reported is the same as that disclosed in "Notes to Consolidated Financial Statements." The amount of profit (or loss) of reportable segments is based on Net income attributable to owners of parent.

(c) Information about the amount of ordinary income, profit or loss, assets, liabilities and other items by reportable segment

Fiscal year ended March 31, 2018

(In millions of yen)

	"Ordinary Operations"	"Special Operations"	Sub-total for reportable segments	Adjustments	Amount reported in the consolidated financial statements

Loss on disposal of noncurrent assets	8	—	8	—	8
Income tax expenses	0	—	0	—	0
Equity method investments	100,453	—	100,453	—	100,453
Increase in Property, plant and equipment and Intangible assets	3,024	—	3,024	—	3,024
Provision of allowance for loan losses	51,505	22	51,528	—	51,528

(In millions of U.S. dollars)

	"Ordinary Operations"	"Special Operations"	Sub-total for reportable segments	Adjustments	Amount reported in the consolidated financial statements
Ordinary income					
(1) Ordinary income from customers	\$ 3,671	\$ 0	\$ 3,671	\$ —	\$ 3,671
(2) Intersegment ordinary income	0	0	0	(0)	—
Total	\$ 3,671	\$ 0	\$ 3,671	\$ (0)	\$ 3,671
Segment profit (loss)	586	(2)	584	—	584
Segment assets	167,178	2,363	169,541	(0)	169,541
Segment liabilities	145,570	2	145,572	(0)	145,572
Other items					
Depreciation and amortization	14	—	14	—	14
Interest income	3,170	0	3,170	—	3,170
Interest expense	2,346	0	2,346	—	2,346
Profits of equity method investments	209	—	209	—	209
Extraordinary income	0	—	0	—	0
Gain on disposal of noncurrent assets	0	—	0	—	0
Extraordinary loss	0	—	0	—	0
Loss on disposal of noncurrent assets	0	—	0	—	0
Income tax expenses	0	—	0	—	0
Equity method investments	946	—	946	—	946
Increase in Property, plant and equipment and Intangible assets	28	—	28	—	28
Provision of allowance for loan losses	485	0	485	—	485

Notes 1. Ordinary income is disclosed in place of Sales for non-financial companies. Adjustments for the difference represent adjustments related to the difference between ordinary income and Ordinary income disclosed in the consolidated statement of operations.

2. The "Adjustments" above represents elimination of intersegment transactions.

(d) Related information

Fiscal year ended March 31, 2018 (From April 1, 2017 to March 31, 2018)

(i) Information about services

The information about services is omitted since ordinary income from outside customers in relation to the loan, guarantee and equity participation operations is more than 90% of ordinary income on the consolidated statement of operations.

(ii) Information about geographical areas**① Ordinary income**

(In millions of yen)

Japan	Asia/Oceania	Europe/Middle East/ Africa	United States	North America/ Latin America (excluding U.S.)	Total
¥ 91,138	¥ 102,256	¥ 91,918	¥ 40,948	¥ 63,798	¥ 390,060

(In millions of U.S. dollars)

Japan	Asia/Oceania	Europe/Middle East/ Africa	United States	North America/ Latin America (excluding U.S.)	Total
\$ 858	\$ 963	\$ 865	\$ 384	\$ 601	\$ 3,671

Notes 1. Ordinary income is disclosed in place of Sales for non-financial companies.

2. Ordinary income is disclosed based on the location of the customers and is classified by country or region.

② Property, plant and equipment

The information about property, plant and equipment is omitted since more than 90% of property, plant and equipment on the consolidated balance sheet are located in Japan.

(iii) Information about major customers

The information about major customers is omitted since there are no transactions with a certain customer which result in more than 10% of ordinary income on the consolidated statement of operations.

(e) Information about impairment losses of property, plant and equipment in reportable segments

Not applicable

(f) Information about the amortization and balance of goodwill in reportable segments

Not applicable

(g) Information about gains from the recognition of negative goodwill in reportable segments

Not applicable

22. Related-party information**1. Related party transactions****(1) Related party transactions with JBIC****(a) Transactions with parent company and major shareholder companies**

Fiscal year ended March 31, 2018 (From April 1, 2017 to March 31, 2018)

(In millions of yen)

Related Party Name	Location	Capital	Business	Ratio to Total Voting Rights (%)	Relation with related parties	Transactions	Amounts of transactions (Note 4)	Items	Balance as of March 31, 2018 (Note 4)

								1,318 (Notes 3, 4)	—	—

- Notes 1. JBIC assumed the obligations of the JBIC bonds in accordance with Article 12 (1) of the Supplementary Provisions of the JBIC Act, and the Japan International Cooperation Agency ("JICA") is jointly responsible for the obligations of these bonds in accordance with the provision of Article 4 (1) of Supplementary Provisions of the Japan International Cooperation Agency Act (Act No. 136 of 2002). Pursuant to Article 4 (2) hereof, all of JICA assets are pledged as general collateral for these joint obligations.
2. JBIC assumed the obligations of the JFC bonds in accordance with Article 12 (1) of Supplementary Provisions of the JBIC Act, and JFC is jointly responsible for the obligations of these bonds in accordance with Article 46-2 (1) of Supplementary Provisions of the JFC Act (Act No. 57 of 2007). Pursuant to Article 46-2 (2) hereof, all of JFC's assets are pledged as general collateral for these joint obligations.
3. JBIC is jointly responsible for the obligations of JFC bonds in accordance with Article 17 (1) (ii) of Supplementary Provisions of the JBIC Act. In accordance with Article 17 (2) hereof, all of JBIC's assets are all pledged as general collateral for these joint obligations.
4. In relation to these joint obligations, no transactions are recognized in the consolidated statement of operations.

(2) Transactions between consolidated subsidiaries and related parties

Not applicable.

2. Notes to the parent company or significant affiliates

(1) Parent company information

Not applicable.

(2) Condensed financial information of significant affiliates

Significant affiliates of JBIC are IFC Capitalization (Subordinated Debt) Fund, L.P. and IFC Capitalization (Equity) Fund, L.P. in the current fiscal year. Their condensed financial information is as shown below:

	March 31, 2018 (In millions of yen)	March 31, 2018 (In millions of U.S. dollars)
Total assets	¥ 286,987	\$ 2,701
Total liabilities	119,422	1,124
Total net assets	167,564	1,577
Gain on investment	14,967	141
Net income before income taxes	38,117	359
Net income	38,117	359

Note: IFC Capitalization (Subordinated Debt) Fund, L.P. and IFC Capitalization (Equity) Fund, L.P. are deemed as a significant affiliate from the current fiscal year as their materiality has increased.

23. Amounts per share

Amounts per share as of the fiscal year ended March 31, 2018 are calculated as follows:

	March 31, 2018 (In yen)	March 31, 2018 (In U.S. dollars)
Net assets per share of common stock	¥ 1.57	\$ 0.01
Net income per share of common stock	0.04	0.00

Note 1. Net income per share of common stock is based on the following information.

Diluted net profit per share of common stock is not presented since there are no diluted stocks.

	March 31, 2018 (In millions of yen)	March 31, 2018 (In millions of U.S. dollars)
Net income attributable to owners of parent	¥ 62,081	\$ 584
Amount not attribute to common stock	—	—
Net income attributable to owners of parent related to common stock	62,081	584
Average outstanding shares of common stock (during the period)	1,533,900,821 thousands of shares	

Note 2. Net assets per share of common stock is based on the following information.

	March 31, 2018 (In millions of yen)	March 31, 2018 (In millions of U.S. dollars)
Net assets	¥ 2,546,471	\$ 23,969
Deductions from net assets	227	2
(Non-controlling interests)	227	2

Year-end outstanding shares of common stock on which the calculation of net assets per share was calculated	1,615,200,000 thousands of shares	

24. Bonds payable

Major components of bonds payable as of March 31, 2018 are as follows:

(In millions of yen)

Name of company	Description of bonds payable	Date of issuance	Balance at the beginning of current period	Balance at the end of current period	Interest rate (%)	Collateral	Maturity date	Remarks
JBIC	Government guaranteed JFC (JBIC) foreign bonds 9th	February 7, 2012	¥ 140,134 (USD 1,249,078,000)	¥ 132,754 [132,754] (USD1,249,574,000) [USD1,249,574,000]	2.125	General collateral	February 7, 2019	*2
	Government guaranteed JBIC foreign bonds 1st-32nd	July 19, 2012 – November 16, 2017	2,931,452 (USD 25,225,067,000) (GBP 424,263,000) (CAD 499,959,000)	4,069,855 [531,014] (USD 37,713,465,000) (USD 4,998,255,000) (GBP 424,461,000)	1.125~ 3.375	General collateral	July 19, 2017 – November 16, 2027	
	JBIC bonds 13th, 16th, 19th, 22nd, 23rd, 29th, 30th	May 28, 2004 – May 29, 2008	199,982	99,989 [19,998]	1.670~ 2.090	General collateral	September 20, 2017 – December 19, 2025	*1
	JFC corporate bonds 3rd	October 29, 2009	19,996	19,997	1.430	General collateral	September 20, 2019	*2
	Non-guaranteed JBIC domestic bond 1st-3rd	January 27, 2015 – August 10, 2017	10,000	70,000	0.001~ 0.120	General collateral	December 20, 2019 – June 20, 2022	
	Total	—	¥ 3,301,565	¥ 4,392,597	—	—	—	—

(In millions of U.S. dollars)

Name of company	Description of bonds payable	Date of issuance	Balance at the beginning of current period	Balance at the end of current period	Interest rate (%)	Collateral	Maturity date	Remarks
JBIC	Government guaranteed JFC (JBIC) foreign bonds 9th	February 7, 2012	\$ 1,319 (USD 1,249,078,000)	\$ 1,250 [1,250] (USD1,249,574,000) [USD1,249,574,000]	2.125	General collateral	February 7, 2019	*2
	Government guaranteed JBIC foreign bonds 1st-32nd	July 19, 2012 – November 16, 2017	27,593 (USD 25,225,067,000) (GBP 424,263,000) (CAD 499,959,000)	38,308 [4,998] (USD 37,713,465,000) (USD 4,998,255,000) (GBP 424,461,000)	1.125~ 3.375	General collateral	July 19, 2017 – November 16, 2027

	Total	—	\$ 31,076	\$ 41,346	—	—	—	—

- Notes 1. The amounts of foreign currency-denominated bonds are shown in original currencies in parentheses ().
 2. Figures indicated in brackets [] represent the amounts to be redeemed within one year.
 3. (*1) JBIC assumed the obligations in respect of the JBIC bonds which had been issued by JBIC before JFC was established, and JBIC and JICA are jointly responsible for these obligations in accordance with the JBIC Act.
 (*2) JBIC also assumed from JFC the obligations concerning the government guaranteed JFC (JBIC) foreign bonds and the JFC corporate bonds, and JBIC and JFC are now jointly responsible for these obligations pursuant to the JBIC Act.
 4. The redemption schedule of bonds payable for each of the next five years as of March 31, 2018 is as follows:

(In millions of yen)

	Within 1 year	After 1 year but within 2 years	After 2 years but within 3 years	After 3 years but within 4 years	After 4 years but within 5 years
Amount	¥ 684,000	¥ 441,840	¥ 846,937	¥ 371,840	¥ 491,520

(In millions of U.S. dollars)

	Within 1 year	After 1 year but within 2 years	After 2 years but within 3 years	After 3 years but within 4 years	After 4 years but within 5 years
Amount	\$ 6,438	\$ 4,159	\$ 7,972	\$ 3,500	\$ 4,627

25. Borrowings

Borrowings as of March 31, 2018 are as follows;

	Balance at the beginning of current period (In millions of yen)	Balance at the beginning of current period (In millions of U.S. dollars)	Balance at the end of current period (In millions of yen)	Balance at the end of current period (In millions of U.S. dollars)	Average interest rate (%)	Due date of payment
Borrowed money	¥ 9,908,705	\$ 93,267	¥ 8,370,758	\$ 78,791	1.52	—
Borrowings	9,908,705	93,267	8,370,758	78,791	1.52	April 2018 – November 2037
Lease obligation (Due within one year)	3	0	—	—	—	—
Other interest-bearing liabilities	18,880	178	56,280	530	(0.06)	—
Cash collateral received for financial instruments	18,880	178	56,280	530	(0.06)	—

- Notes 1. Average interest rates represent the weighted-average interest rates of debts calculated from the interest rates and balances of debt outstanding as at the end of the current period.
 2. As for the lease obligation, there is no average lease rate since the short-cut method is applied for these transactions.
 3. There is no fixed maturity date for the repayment of cash collateral received for financial instruments.
 4. Borrowings maturities for the next five years as of March 31, 2018 are as follows;

(In millions of yen)

	Within 1 year	After 1 year but within 2 years	After 2 years but within 3 years	After 3 years but within 4 years	After 4 years but within 5 years
Borrowings	¥ 809,379	¥ 573,287	¥ 1,616,354	¥ 191,800	¥ 3,793,936

(In millions of U.S. dollars)

	Within 1 year	After 1 year but within 2 years	After 2 years but within 3 years	After 3 years but within 4 years	After 4 years but within 5 years
Borrowings	\$ 7,618	\$ 5,396	\$ 15,214	\$ 1,805	\$ 35,711

26. Asset retirement obligation

This information is omitted because the amount of asset retirement obligation as of the beginning and end of the current fiscal year is equal to, or less than, one hundredth of the aggregated amount of liabilities and Net assets as of the beginning and end of the current fiscal year.

27. Other

Not applicable.

2. Financial Statements

■ Notes to Non-consolidated Financial Statements

1. Basis of presentation

The accompanying non-consolidated financial statements have been prepared from the accounting records maintained by Japan Bank for International Cooperation (“JBIC”) in accordance with the accounting principles and practices generally accepted in Japan, which are different in certain aspects from the application and disclosure requirements of International Financial Reporting Standards.

The amounts indicated in millions of yen are rounded down by omitting figures less than one million. Totals may therefore not add up exactly because of this rounding.

Amounts in U.S. dollars are presented solely for the convenience of readers outside Japan. The rate of ¥106.24=\$1.00, the foreign exchange rate on March 31, 2018, has been used in translations. The presentation of such amounts is not intended to imply that Japanese yen have been or could be readily converted, realized, or settled in U.S. dollars at the aforementioned rate or any other rates.

2. Significant accounting policies

(a) Securities

Held-to-maturity securities are carried at amortized cost based on the moving average method. Investments in subsidiaries and affiliates are carried at cost based on the moving average method. Available-for-sale securities are in principle stated at fair value with changes in net unrealized gains or losses included directly in Net assets. However, available-for-sale securities whose fair value cannot be readily determined are carried at cost based on the moving average method.

Investments in partnerships for investment, which are regarded as securities under Article 2, Paragraph 2 of the Japanese Financial Instruments and Exchange Act (Act No. 25 of 1948), are recognized at an amount equivalent to JBIC’s percentage share of the net assets of such partnerships, based upon the most recent financial statements available depending on the reporting date stipulated in the partnership agreement.

(b) Valuation method for derivative financial instruments

Derivative financial instruments are carried at fair value.

(c) Depreciation basis for fixed assets

(i) Property, plant and equipment (except for lease assets)

Tangible fixed assets are depreciated by the declining balance method over their useful economic lives except for buildings excluding installed facilities as well as installed facilities and structures acquired on or after April 1, 2016, which are depreciated by the straight-line method.

Depreciation is based on the following range of estimated useful lives:

Buildings: 3 years to 50 years

Other: 2 years to 35 years

(ii) Intangible assets (except for lease assets)

Depreciation of intangible fixed assets is computed by the straight-line method. Software used by JBIC is depreciated over its useful life (5 years or less) at JBIC.

(iii) Lease assets

Lease assets in “property, plant and equipment” or “intangible assets,” under finance leases that do not involve transfer of ownership to the lessee are depreciated by the straight-line method over the lease term. Depreciation for lease assets is calculated with zero residual value being assigned to the asset.

(d) Method of amortization for deferred charges

Bond issuance cost is expensed as incurred.

(e) Foreign currency translation and revaluation method

JBIC maintains its accounting records in Japanese yen. Assets and liabilities denominated in foreign currencies are mostly translated into Japanese yen at the market exchange rate prevailing at the fiscal year end.

(f) Allowance for loan losses

Allowance for loan losses is recognized in accordance with internally established standards.

The allowance for claims on debtors who are legally bankrupt (“Bankrupt borrowers”) or substantially bankrupt (“Substantially bankrupt borrowers”) is provided based on the outstanding balance after the write-offs described as *below* and the deductions of the amount expected to be collected through the disposal of collateral and the execution of guarantees. The allowance for claims on debtors who are not legally bankrupt but are likely to become bankrupt

("Potentially bankrupt borrowers") is provided based on an assessment of the overall solvency of the debtors after deducting the amount expected to be collected through the disposal of collateral and the execution of guarantees.

The allowance for claims on debtors other than Bankrupt borrowers, Substantially bankrupt borrowers and Potentially bankrupt borrowers is provided primarily based on the default rate, which is calculated based on the actual defaults during a certain period in the past. The allowance for possible losses on specific overseas loans is provided based on the expected loss amount taking into consideration the political and economic situations of these countries.

All claims are assessed initially by the operational departments and subsequently by risk evaluation departments based on internal rules for self-assessment of asset quality. The risk evaluation departments, which is independent from the operational departments, review these self-assessments, and the allowance is provided based on the results of the assessments.

With respect to claims with collateral or guarantees on debtors who are legally or substantially bankrupt ("Bankrupt borrowers and substantially bankrupt borrowers"), the residual booked amount of the claims after deduction of the amount which is deemed collectable through the disposal of collateral or the execution of guarantees is written off. There are no accumulated write-offs as of March 31, 2017. (There were no accumulated write-offs as of March 31, 2016.)

(g) Provision for bonuses

The "provision for bonuses" is calculated and provided for based on the estimated amounts of future payments attributable to the services that have been rendered by employees to the date of the non-consolidated balance sheets.

(h) Provision for directors' bonuses

The "provision for directors' bonuses" is calculated and provided for based on the estimated amounts of future payments attributable to the services that have been rendered by directors to the date of the non-consolidated balance sheets.

(i) Provision for retirement benefits

The "provision for retirement benefits" represents the future payment for pension and retirement benefits to employees, and is accrued based on the projected benefit obligations and the estimated pension plan assets at the fiscal year end.

(i) Method of attributing the projected benefits to periods of services

In calculating the projected benefit obligation, the estimated amount of retirement benefit payments is attributed to the period up to the end of the fiscal year based on the benefit formula.

(ii) Accounting for actuarial gains or losses and prior service costs

Actuarial gains or losses and prior service costs are expensed as they are incurred.

(Additional information)

Effective April 1, 2013, JBIC has been authorized by the Minister of Health, Labor and Welfare to be exempt from the obligations to pay future amounts in respect of the portion of the welfare pension fund it manages for the government.

Subsequently on October 1, 2014, JBIC has been authorized to transfer to the government the past substitutional portion of the aforesaid fund. On September 22, 2017, *Kouko Kigyō Nenkin Kikin* (*Kouko* corporate pension fund) which JBIC participates in paid to the government ¥52,817 million (\$497 million) of the transfer amount of the substitutional portion (i.e., minimum reserve). Its impact on profits or losses in the current fiscal year amounted to ¥3 million (\$0 million) which was recognized in Other of Other expenses.

(j) Provision for directors' retirement benefits

The "provision for directors' retirement benefits," which provides for future retirement pension payment to directors, corporate auditors and executive officers, is recognized at the amount accrued at the end of the respective fiscal year.

(k) Accounting for hedges of interest rate risk

(i) Hedge accounting

The deferral method is applied to derivatives used for interest risk hedging purposes.

(ii) Hedging instruments and hedged items

Hedging instruments: interest rate swaps

Hedged items: loans, borrowed money, bonds and notes

(iii) Hedging policy

JBIC enters into hedging transactions up to the amount of the underlying hedged assets and liabilities.

(iv) Assessment of hedge effectiveness

JBIC assesses the effectiveness of designated hedges by measuring and comparing the change in fair value or cumulative change of cash flows of both hedging instruments and corresponding hedged items from the date of inception of the hedges to the assessment date.

(l) Accounting for hedges of foreign exchange risks

Hedging instruments used to hedge foreign exchange risks associated with foreign currency denominated monetary assets and liabilities are accounted for primarily using the deferral method, in accordance with the standard treatment of The Japanese Institute of Certified Public Accountants (JICPA) Industry Audit Committee Report No. 25 of July 29, 2002.

The effectiveness of the hedges described above is assessed by comparing the foreign currency position of the hedged loans and bills discounted and bonds payable denominated in foreign currencies with that of the hedging instruments, such as currency swaps and forward foreign exchange contracts which are used for hedging the foreign exchange risks of loans and bills discounted and bonds payable denominated in foreign currencies.

Furthermore, the deferred hedge is applied to some of the foreign exchange risk arising from investments in affiliates denominated in foreign currencies that are individually hedged using forward foreign exchange contracts as hedging instruments.

(m) Consumption and other taxes

Consumption taxes and local consumption taxes ("consumption taxes") are excluded from transaction amounts. Non-deductible consumption taxes related to property, plant and equipment are expensed as incurred.

3. Equity securities of or investments in subsidiaries and affiliates

	March 31, 2017 (In millions of yen)	March 31, 2018 (In millions of yen)	March 31, 2018 (In millions of U.S. dollars)
Equity securities	¥ 4,010	¥ 5,694	\$ 54
Investments	89,721	130,689	1,230

4. Loans**(a) Bankrupt loans and non-accrual loans included in loans and bills discounted:****"Ordinary Operations" account**

	March 31, 2017 (In millions of yen)	March 31, 2018 (In millions of yen)	March 31, 2018 (In millions of U.S. dollars)
Bankrupt loans	¥ —	¥ —	\$ —
Non-accrual loans	3,748	188,842	1,778

"Special Operations" account

There are no applicable loans in the "Special Operations" account.

"Bankrupt loans" are loans, defined in Article 96, Paragraph 1, Item (iii), a. through e. and Item (iv) of the Order for Enforcement of the Corporation Tax Act (Cabinet Order No. 97, 1965), on which accrued interest income is not recognized as there is substantial uncertainty over the ultimate collectability of either principal or interest because they have been in arrears for a considerable period of time or for other reasons.

"Non-accrual loans" are loans on which accrued interest income is not recognized, although this excludes Bankrupt loans and the loans on which interest payments are deferred in order to support the borrowers' recovery from financial difficulties.

(b) Loans with interest or principal repayments three months or more in arrears included in loans and bills discounted:**"Ordinary Operations" account**

	March 31, 2017 (In millions of yen)	March 31, 2018 (In millions of yen)	March 31, 2018 (In millions of U.S. dollars)
Loans with interest or principal repayments three months or more in arrears	¥ 53,399	¥ —	\$ —

"Special Operations" account

There are no applicable loans in the "Special Operations" account.

"Loans with interest or principal repayments three months or more in arrears" are loans whose principal or interest payment is three months or more in arrears, and which do not fall under the category of "Bankrupt loans" and "Non-accrual loans."

- (c) Restructured loans included in loans and bills discounted:
"Ordinary Operations" account

	March 31, 2017 (In millions of yen)	March 31, 2018 (In millions of yen)	March 31, 2018 (In millions of U.S. dollars)
Restructured loans	¥ 182,434	¥ 225,846	\$ 2,126

"Special Operations" account

There are no applicable loans in the "Special Operations" account.

"Restructured loans" are loans whose repayment terms and conditions have been amended in favor of the borrowers (e.g. reduction of or exemption from the stated interest rate, the deferral of interest payments, the extension of principal repayments or waiver of claims) in order to support the borrowers' recovery from financial difficulties, and which do not fall under the category of "Bankrupt loans," "Non-accrual loans," or "Loans with interest or principal repayments three months or more in arrears."

- (d) The total amount of bankrupt loans, non-accrual loans, loans with interest or principal repayments three months or more in arrears, and restructured loans:

"Ordinary Operations" account

	March 31, 2017 (In millions of yen)	March 31, 2018 (In millions of yen)	March 31, 2018 (In millions of U.S. dollars)
Total amount	¥ 239,582	¥ 414,688	\$ 3,903

"Special Operations" account

There are no applicable loans in the "Special Operations" account.

The amounts of loans indicated in table (a) through (d) above are the gross amounts before the deduction of allowance for loan losses.

- (e) JBIC, as a policy, does not extend loans to borrowers in part or in full immediately after the execution of the loan agreements, but instead execute loans, in accordance with the progress of the underlying projects. These undrawn amounts are not included in the loans on deed in the non-consolidated balance sheets. The balance of undrawn amounts is as follows:

	March 31, 2017 (In millions of yen)	March 31, 2018 (In millions of yen)	March 31, 2018 (In millions of U.S. dollars)
Balance of undrawn loans	¥ 2,447,815	¥ 1,665,471	\$ 15,676

5. Assets pledged as collateral

Pursuant to Article 34 of the Japan Bank for International Cooperation Act ("JBIC Act"), all JBIC assets are pledged as general collateral for bonds:

	March 31, 2017 (In millions of yen)	March 31, 2018 (In millions of yen)	March 31, 2018 (In millions of U.S. dollars)
Bonds payable	¥ 3,301,565	¥ 4,392,597	\$ 41,346

6. Contingent liabilities

Japan Finance Corporation ("JFC") assumed the obligations of the JFC bonds on April 1, 2012, and JBIC is jointly responsible for the obligations of these bonds. In accordance with Article 17 (2) of the Supplementary Provisions of the JBIC Act, all of JBIC's assets are pledged as general collateral for these joint obligations as follows.

	March 31, 2017 (In millions of yen)	March 31, 2018 (In millions of yen)	March 31, 2018 (In millions of U.S. dollars)
	¥ 210,000	¥ 140,000	\$ 1,318

7. Appropriation of retained earnings

JBIC is restricted in its ability to appropriate retained earnings in accordance with Article 31 of the JBIC Act.

Where the amount of retained earnings exceeds zero in respective accounts for operations defined in each item of Article 26-2 of the JBIC Act, JBIC accumulates, as a reserve, an amount calculated in accordance with the standards prescribed by the Cabinet Order until it reaches a certain amount stipulated by the Cabinet Order; and if there still is a surplus, JBIC pays such surplus into the national treasury within 3 months after the fiscal year end.

In the event that the amount of retained earnings falls below zero in respective accounts for operations defined in each item of Article 26-2 of the JBIC Act, a reserve shall be transferred to the retained earnings to the extent that the amount of retained earnings becomes zero.

8. Income on transactions with affiliates

Income on transactions with affiliates is as follows:

	March 31, 2017 (In millions of yen)	March 31, 2018 (In millions of yen)	March 31, 2018 (In millions of U.S. dollars)
Gain on investments in partnerships	¥ 8,151	¥ 22,221	\$ 209

9. Marketable equity securities of and investments in subsidiaries and affiliates

Equity securities of and investments in subsidiaries and affiliates

Fiscal year ended March 31, 2017

There were no marketable equity securities of and investments in subsidiaries and affiliates

Fiscal year ended March 31, 2018

There were no marketable equity securities of and investments in subsidiaries and affiliates

Note: Balance sheet amount of equity securities of and investments in subsidiaries and affiliates whose fair value cannot be readily determined

	March 31, 2017 (In millions of yen)	March 31, 2018 (In millions of yen)	March 31, 2018 (In millions of U.S. dollars)
Equity securities of and investments in subsidiaries	¥ —	¥ 10,302	\$ 97
Equity securities of and investments in affiliates	93,732	126,081	1,187
Total	¥ 93,732	¥ 136,384	\$ 1,284

(*) The items above are not included in "marketable equity securities of and investments in subsidiaries and affiliates" because these items do not have market price and are extremely difficult to determine their fair value.

10. Deferred tax accounting

JBIC does not apply deferred tax accounting since JBIC is a nontaxable entity defined in the Article 2, Paragraph 5 of the Corporation Tax Act (Act No.34 of 1965).

11. Fixed assets

Fixed assets as of March 31, 2018 are as follows:

(In millions of yen)

Class of asset	Balance at the beginning of current year	Increase during the current year	Decrease during the current year	Balance at the end of current year	Accumulated depreciation	Depreciation	Net fixed assets
Property, plant and equipment							
Buildings	¥ 3,792	¥ 97	¥ 2	¥ 3,887	¥ 1,045	¥ 171	¥ 2,841

Total intangible assets	\$ 59	\$ 17	\$ —	\$ 76	\$ 43	\$ 10	\$ 33

12. Reserves

Reserves as of March 31, 2018 are as follows:

(In millions of yen)

	Balance at the beginning of current year	Increase during the fiscal year	Decrease during the fiscal year (use for purpose)	Decrease during the fiscal year (others)	Balance at the end of current year
Allowance for loan losses	¥ 222,036	¥ 273,512	¥ —	¥ 221,984	¥ 273,564
General allowance for loan losses	216,584	126,364	—	216,584	126,364
Specific allowance for loan losses	52	114,373	—	—	114,425
Allowance for possible losses on specific overseas loans	5,399	32,775	—	5,399	32,775
Provision for bonuses	519	546	519	—	546
Provision for directors' bonuses	6	9	6	—	9
Provision for directors' retirement benefits	16	11	3	—	25
Total	¥ 222,578	¥ 274,079	¥ 528	¥ 221,984	¥ 274,145

(In millions of U.S. dollars)

	Balance at the beginning of current year	Increase during the fiscal year	Decrease during the fiscal year (use for purpose)	Decrease during the fiscal year (others)	Balance at the end of current year
Allowance for loan losses	\$ 2,090	\$ 2,575	\$ —	\$ 2,090	\$ 2,575
General allowance for loan losses	2,039	1,189	—	2,039	1,189
Specific allowance for loan losses	0	1,077	—	—	1,077
Allowance for possible losses on specific overseas loans	51	309	—	51	309
Provision for bonuses	5	5	5	—	5
Provision for directors' bonuses	0	0	0	—	0
Provision for directors' retirement benefits	0	0	0	—	0
Total	\$ 2,095	\$ 2,580	\$ 5	\$ 2,090	\$ 2,580

Note. The main factors in the decrease during the fiscal year in each of the following reserves are as follows:

General allowance for loan losses: Decrease is due to reversal

Allowance for possible losses on specific overseas loans: Decrease is due to reversal

13. Components of major assets and liabilities

This information is omitted as consolidated financial statements are prepared.

14. Other

Not applicable.

(Supplementary Information) Financial Statements for Each Operation

JBIC is required to maintain separate accounts for the Ordinary Operations and the Special Operations in accordance with Article 26-2 of the Japan Bank for International Cooperation Act (JBIC Act). The separate financial statements for those operations that are prepared pursuant to Article 26-3 of the JBIC Act and Article 435-2 of the Companies Act of Japan have been subject to audit by Ernst & Young ShinNihon LLC

according to Article 26-3 of the JBIC Act and Article 436-2(i) of the Companies Act. Although the balance sheets and statement of operations for each operation, as provided below, have been prepared based on the above-mentioned audited financial statements, the statements of cash flows have not been audited.

(Information on the Capital Adequacy Ratios)

Although JBIC is not subject to Article 14-2 of the Banking Act of Japan, capital adequacy ratios have been calculated in accordance with "Standards for Determining Capital Adequacy of a Financial Institution in Light of Assets Held, etc. under the Provision of Article 14-2 of the Banking Act" (2006, Financial Services Agency Notification No. 19). JBIC applies uniform international standards and calculate credit risk-weighted assets using the standardized approach.

(Unit: %, billions of yen)

Total risk-weighted capital ratio	19.18
Tier 1 risk-weighted capital ratio	18.29
Common Equity Tier 1 risk-weighted capital ratio	18.29
Total capital (Common Equity Tier 1 capital + Additional Tier 1 capital + Tier 2 capital)	2,739.3
Tier 1 capital (Common Equity Tier 1 capital + Additional Tier 1 capital)	2,612.9
Common Equity Tier 1 capital	2,612.9
Risk-weighted assets	14,282.2
The amount of minimum capital requirements	1,142.5

(1) Basic Policy for Derivatives Transactions

JBIC engages in derivatives transactions exclusively for the purpose of hedging exchange rate and interest rate risks.

(2) Transactions

Derivatives transactions of JBIC include interest rate and currency swaps and forward exchange contracts. The following table gives a summary of these transactions.

(3) Risks Involved in Derivatives Transactions

Derivatives transactions involve the following risks.

Counterparty Credit Risk

The potential loss from the failure of a counterparty to perform its obligations in accordance with the terms and conditions of the contract governing transactions due to bankruptcy or its deteriorating business performance.

Market Risk

The potential loss from changes in the market value of financial products due to fluctuations in interest rates or exchange rates in the market.

(4) Measures to Address These Risks**Counterparty Credit Risk**

JBIC constantly monitors the fair value of a derivative in conducting transaction with each counterparty, credit risk exposure to it and its creditworthiness. Such information is then used to assess the eligibility of the counterparty.

Market Risk

JBIC utilizes derivatives transactions exclusively for the purpose of hedging. Therefore, the market risk on derivatives transactions and the risk on hedged (lending or funding) transactions, in principle, offset each other.

(As of March 31, 2018; 100 millions of yen)

	Contract Amounts / Notional Amounts	Credit Risk Amounts	Market Value
Interest Rate Swaps	50,074	586	(1,199)

Total	44,019

14 Information on the Quality of Assets

Although the Banking Act and Act on Emergency Measures for the Revitalization of the Financial Functions of 1998 (the "Financial Revitalization Act") do not apply to JBIC, JBIC has made a self-assessment of the quality of its assets since the fiscal year ended March 31, 2001, in accordance with the standards set forth in the *Inspection Manual for Deposit-Taking Institutions* of the Financial Services Agency of Japan. This was aimed at increasing disclosure on its asset quality and improving the internal management of credit risks.

One characteristic of JBIC's operations is that a considerable portion of its loans is official credit for the governments of developing countries. Thus, when an indebted country is temporarily unable to service debt due to economic difficulties, debt rescheduling will sometimes take place—based on an international agreement among the creditor countries in the Paris Club—in order to ensure sustainable debt service. A debtor country receiving such temporary support for overcoming the liquidity problem will implement economic restructuring programs agreed upon with the International Monetary Fund (IMF) to acquire sustainable debt service capacity.

The loans rescheduled under the agreement in the Paris Club have a high probability of repayment, because, unlike loans provided by private financial institutions, their nature as official credit provides an asset-securing mechanism under the above international framework. Nonetheless, to facilitate comparison with private financial institutions, JBIC, in principle, discloses the loans rescheduled in the Paris Club and whose debtor countries are categorized as "Needs Attention" in its self-assessment of asset quality, as loan assets required to be disclosed classifying them either as restructured loans (under the Banking Act) or substandard loans (under the Financial Revitalization Act).

ERNST & YOUNG SHINNIHON LLC audited JBIC's self-assessment regarding the quality of its assets, including the following risk-monitored loans, loans to be disclosed under the Financial Revitalization Act and reserves for possible loan losses, in accordance with the *Practical Guidelines for Evaluation of Internal Control over Valuation of Assets and Audits for Write-Offs and Reserve for Possible Loan Losses of Banks and Similar Institutions* (Report No. 4 of the Ad Hoc Committee for Audits of Banks, the Japanese Institute of Certified Public Accountants (JICPA)).

1. Risk-Monitored Loans

The following table shows the classification of risk-monitored loans based on the self-assessment of asset quality in accordance with the disclosure standard of risk-monitored loans applied to commercial financial institutions (under the Banking Act).

Each category of risk-monitored loans is defined as follows:

i. Bankrupt Loans

Among loans that are placed in non-accrual status (except the portion deducted as allowance for loan losses), when collection of either principal or interest becomes doubtful for the reason that principal or interest is past due for a considerable period of time or for other reasons, those loans for which there is filing of reorganization procedures under the Corporate Reorganization Act rehabilitation procedures under the Civil Rehabilitation Act, bankruptcy procedures under the Bankruptcy Act, special liquidation procedures under the Companies Act or other relevant laws, or there is suspension of transactions in promissory notes issued by the debtors in the clearing house.

ii. Non-accrual Loans

Loans that are placed in non-accrual status except those classified as "Bankrupt Loans" or those whose interest payments are deferred in order to expedite the debtors' business restructuring or support their business operations.

iii. Past Due Loans (3 months or more)

Loans whose principal or interest is past due 3 months or more from the date following the contractually scheduled payment date and not classified as "Bankrupt Loans" or "Non-accrual Loans".

iv. Restructured Loans

Loans whose terms and conditions are modified in favor of the debtors in order to expedite the debtors' business restructuring or support their business operations by, among others, reducing the stated interest rate, deferring interest payments or write-downs, and that are not classified as "Bankrupt Loans", "Non-accrual Loans" and "Past Due Loans (3 months or more)".^(Note)

[Ordinary Operations Account]

(Unit: millions of yen)

	Fiscal Year Ended March 31, 2017	Fiscal Year Ended March 31, 2018
Bankrupt Loans	—	—
Non-accrual Loans	3,748	188,842
Past Due Loans (3 months or more)	53,399	—
Restructured Loans	182,434	225,846
Total (1)	239,582	414,688
Total Amounts of Loans (2)	14,309,138	13,512,657
(1) / (2) (%)	1.67	3.07

2. Loan Assets to Be Disclosed under the Financial Revitalization Act

The following table shows the classification of loans based on the self-assessment of asset quality in accordance with the disclosure standard of the Financial Revitalization Act.

i. Bankrupt and Quasi-bankrupt Assets

“Bankrupt and Quasi-bankrupt Assets” are loans and other credits to debtors who have begun proceedings under the Bankruptcy Act, the Corporate Reorganization Act, the Civil Rehabilitation Act and other similar laws of Japan and have financially failed. In the asset quality self-assessment, these loans are loans to debtors who are legally or substantially bankrupt.

ii. Doubtful Assets

“Doubtful Assets” are loans and other credits to debtors whose financial and operational conditions have deteriorated and who have a possibility that payment of principal and / or interest will not be made on a contractual basis. In the asset quality self-assessment, these loans are loans to the debtors who are likely to become bankrupt.

iii. Substandard Loans

“Substandard Loans” are loans to debtors who are categorized as “Needs Attention Debtor” in the asset quality self-assessment, and

- A. loans whose principal and / or interest is overdue 3 months or more from the date following the scheduled payment date but which are not categorized as “Bankrupt and Quasi-bankrupt Assets” and “Doubtful Assets” (“Past Due Loans (3 months or more)”).
- B. restructured loans on which the Bank granted concessions to debtors in financial difficulties through amending terms and conditions of the loans to assist them to recover and eventually be able to pay to creditors, but which are not categorized as “Bankrupt and Quasi-bankrupt Assets”, “Doubtful Assets” or “Overdue Loans (3 months or more)”. (Note)

iv. Normal Assets

“Normal Assets” are loans to debtors with no particular problem in their financial conditions, categorized in the asset quality self-assessment either as “Loans to Normal Debtors” or “Loans to Needs Attention Debtors (excluding substandard loans)”, but which are not categorized as “Bankrupt and Quasi-bankrupt Assets”, “Doubtful Assets” and “Substandard Loans”.

[Ordinary Operations Account]

(Unit: millions of yen)

		Fiscal Year Ended March 31, 2017	Fiscal Year Ended March 31, 2018

Note

In the event that a debtor country encounters temporary repayment difficulties in respect of external public debt (sovereign debt, trade insurance institutions and export credit institutions, etc.) due to the deteriorating balance of payments, meetings of creditor countries (the “Paris Club”) will be held to mutually agree on debt relief measures (rescheduling), and implementing of temporary support for overcoming the liquidity problem (balance of payment support under an international cooperative framework). With this temporary liquidity support, debtors carry out IMF-agreed economic restructuring programs and continue to make debt repayments. The principal amount of loans for which JBIC has agreed to provide debt relief pursuant to the Paris Club agreements is ¥129,376 million as of the end of the fiscal year ended March 31, 2018.

Loans to debtors classified under the self-assessment as “Needs Attention” (but not “Past Due Loans (3 months or more)”) that were rescheduled under the Paris Club as “Restructured Loans”. The amount of such loans, included in “Restructured Loans” in the above table is ¥87,193 million.

Consolidated Financial Statements in Accordance with International Financial Reporting Standards (IFRS) for Reference Only

1. Excerpt from the consolidated financial statements in accordance with IFRS

The consolidated financial statements have been prepared in accordance with IFRS as issued by the International Accounting Standards Board (IASB) as of March 31, 2018. The consolidated financial statements are presented in yen. Unless otherwise stated, all amounts are rounded down and stated in millions of yen.

Ernst & Young ShinNihon LLC has audited the consolidated financial statements of JBIC and its subsidiaries (the "JBIC Group"), which comprise the consolidated statements of financial position as of March 31, 2018 and 2017, and the consolidated income statements, the consolidated statements of comprehensive income, the consolidated

statements of changes in equity and the consolidated statements of cash flows for the years then ended, and a summary of significant accounting policies and other explanatory information, in accordance with International Standards on Auditing.

This document is an excerpt of the JBIC Group's consolidated financial statements prepared in accordance with IFRS as issued by the IASB that are included in JBIC's annual report on Form 18-K filed with the U.S. Securities and Exchange Commission. This document does not contain all of the information in the Form 18-K that is important to you. You should read the Form 18-K carefully to obtain a comprehensive understanding of the JBIC Group's consolidated financial statements under IFRS and related information.

Interest paid	(193,214)	(137,157)

2. Reconciliation between Japanese GAAP and IFRS

Reconciliation of assets, liabilities, and equity of the JBIC Group as of March 31, 2018 and 2017, and reconciliation of net profit or loss of the JBIC Group for the fiscal years ended March 31, 2018 and 2017, between accounting principles generally accepted in Japan ("Japanese GAAP") and IFRS as issued by the IASB, and non-GAAP financial information calculated and presented on the basis of methodologies other than in accordance with generally accepted accounting principles (the "Reconciliation").*

The Reconciliation was prepared on a non-consolidated basis for the fiscal year ended March 31, 2017 because JBIC had no subsidiaries for the fiscal year ended March 31, 2017. On the other hand, the Reconciliation for the fiscal year ended March 31, 2018 has been prepared on a consolidated basis because subsidiaries of JBIC were established in the fiscal year ended March 31, 2018.

* JBIC has adopted Japanese GAAP for reporting purposes. Audited consolidated financial statements of the JBIC Group for the fiscal years ended March 31, 2018 and 2017 prepared in accordance with IFRS as issued by the IASB are disclosed for reference purposes in order to improve comparability with other issuers outside of Japan.

Notes to the reconciliation of assets, liabilities, and equity as of March 31, 2018 and 2017, and the reconciliation of net profit or loss for the fiscal years ended March 31, 2018 and 2017

A. Derivative financial instrument assets and liabilities

Under Japanese GAAP, derivative financial instrument assets and derivative financial instrument liabilities which qualify for offsetting criteria are presented on a net basis by counterparty and included in "Other assets" or "Other liabilities." Under IFRS, however, such assets and liabilities do not qualify for offsetting criteria and are presented on a gross basis as "Derivative financial instrument assets" and "Derivative financial instrument liabilities."

Under IFRS, the JBIC Group determines fair values of derivative financial instrument assets and liabilities by considering the counterparty credit risk or own credit risk derived from observable market data.

The JBIC Group does not apply hedge accounting under IFRS, which is applied under Japanese GAAP. At the date of transition, the JBIC Group applied International Accounting Standard (IAS) 39 *Financial Instruments: Recognition and Measurement* to the hedges to which hedge accounting was applied under Japanese GAAP. The JBIC Group reclassified deferred gains or losses on hedges whose hedging relationships did not qualify for IAS 39 to retained earnings. For the hedges which did not meet the conditions for hedge accounting under IAS 39, the JBIC Group discontinued hedge accounting by the types of hedges according to IFRS 1 *First-time Adoption of International Financial Reporting Standards* as follows:

i. Cash flow hedges

The JBIC Group reclassifies deferred gains or losses on hedges from equity to profit or loss according to cash flows from the hedged transactions.

ii. Fair value hedges

The JBIC Group reclassified deferred gains or losses on hedges under Japanese GAAP to retained earnings at the date of transition and adjusted carrying amounts of the hedged items at the lower of the following (a) and (b). The JBIC Group amortizes the adjusted amounts of the hedged items using the effective interest method and recognizes them in profit or loss.

- a. cumulative changes in fair values of the hedged items attributable to designated hedged risks and not recognized under Japanese GAAP; and
- b. cumulative changes in fair values of the hedging instruments attributable to designated hedged risks and either not recognized or deferred in equity in the balance sheet under Japanese GAAP.

B. Financial assets designated as fair value through profit or loss

Under IFRS, there is an option, on initial recognition, to designate financial assets as fair value through profit or loss for financial assets for which a measurement or recognition inconsistency is eliminated or significantly reduced by the designation, or which are managed and their performance is evaluated on a fair value basis in accordance with a documented risk management or investment strategy. However, under Japanese GAAP, such an option is not available.

From the fiscal year ended March 31, 2018, the JBIC Group has elected to present financial assets designated as fair value through profit or loss held by an investment entity subsidiary as "Financial assets designated as fair value through profit or loss" under IFRS, whereas they are presented as "Securities" under Japanese GAAP.

Under IFRS, the JBIC Group presents gains and losses arising from the changes in fair value and sales of such assets together with interest income and dividend income in "Net gain (loss) from financial assets designated as fair value through profit or loss." Under Japanese GAAP, the JBIC Group presents the interest income and dividend income as "Interest income" and the gains and losses arising from the changes in fair value and sales of such assets as "Other income" (when it is a gain) or "Other" (when it is a loss).

C. Securities

The JBIC Group presents investments in associates as "Equity method investments" under IFRS, whereas they are presented as "Securities" under Japanese GAAP. For the differences in the measurement method between the accounting standards, see "E. Equity method investments."

Under Japanese GAAP, the JBIC Group measures unlisted stocks included in securities at cost. Under IFRS, the JBIC Group classifies them as available-for-sale financial assets and measures principally at fair value. The JBIC Group recognizes changes in fair values in "Other reserves" and impairment losses as necessary.

Under Japanese GAAP, the JBIC Group measures investments in partnerships included in securities at net amounts equivalent to its interest in their most recent financial statements available at the reporting date defined in the partnership agreement. Under IFRS, the JBIC Group measures them at fair value in principle and recognizes changes in fair values in "Other reserves" and impairment losses as necessary.

D. Loans and other receivables

The JBIC Group includes accrued interest income on loans included in "Other assets" under Japanese GAAP and financial assets associated with financial guarantee contracts described in "G. Financial guarantee contracts" in "Loans and other receivables" under IFRS.

Under IFRS, the JBIC Group measures loans and other receivables at fair value plus direct transaction costs at initial recognition and subsequently at amortized cost using the effective interest method. The JBIC Group amortizes loan origination fees which are considered indispensable to the origination using the effective interest method. As described in "A. ii. Fair value hedges," the JBIC Group adjusts the carrying amounts of loans for which hedge accounting was discontinued at the date of transition and amortizes them accordingly.

Under Japanese GAAP, the JBIC Group recognizes general allowance as well as specific allowance for loan losses.

In accordance with the incurred loss model under IFRS, the JBIC Group recognizes impairment losses when it concludes that there is objective evidence of impairment as a result of one or more events that occurred after the initial recognition of the asset (a loss event), and that loss event (or events) has an impact on the estimated cash flows of the financial asset or a group of financial assets that can be reliably measured after its assessment at the reporting date. The JBIC Group recognizes collectively evaluated impairment losses such as incurred but not reported losses by applying historical loss experience to a group of loans and other receivables with similar credit risk characteristics. The carrying amount of loans and other receivables is reduced by the amount of impairment losses through allowance for loan losses.

E. Equity method investments

The JBIC Group's investments in associates and joint ventures are comprised mainly of investments in partnerships. Under Japanese GAAP, the JBIC Group did not prepare consolidated financial statements before the fiscal year ended March 31, 2018. Accordingly, the JBIC Group did not apply the equity method for its investments in associates and joint ventures before. Until then, the JBIC Group measured those investments at net amounts

equivalent to its share of profits or losses reported in their most recent financial statements available at the reporting date defined in the partnership agreement. From the fiscal year ended March 31, 2018, the JBIC Group prepares consolidated financial statements under Japanese GAAP and applies the equity method to certain investments in partnerships. Under IFRS, the JBIC Group adopts the equity method to all of its investments in partnerships that are determined as an investment in associates and joint ventures. Gains or losses on investments in partnerships to which the equity method is not applied under Japanese GAAP but is applied under IFRS are recognized as "Profits of equity method investments" under IFRS.

The JBIC Group presents exchange differences on translation of foreign operations from applying the equity method as "Other reserves" under IFRS, whereas, from the fiscal year ended March 31, 2018, they are presented as "Foreign currency translation adjustment" under Japanese GAAP.

F. Bonds payable

Under Japanese GAAP, the JBIC Group expenses bond issuance costs as incurred. Under IFRS, the JBIC Group measures bonds payable initially at fair value less transaction costs directly attributable to bond issuance, such as fees paid to underwriters and discounts at issuance, and subsequently at amortized cost using the effective interest method. As described in "A. ii. Fair value hedges," the JBIC Group adjusts the carrying amounts of bonds payable for which hedge accounting was discontinued at the date of transition and amortizes them accordingly.

G. Financial guarantee contracts

Under Japanese GAAP, the JBIC Group records the same contractual amounts of financial guarantee obligations in both "Customers' liabilities for acceptances and guarantees" as assets and in "Acceptances and guarantees" as liabilities. Under IFRS, the JBIC Group initially measures financial liabilities associated with financial guarantee contracts at fair value as well as financial assets associated with financial guarantee contracts, and subsequently measures financial liabilities associated with financial guarantee contracts at the higher of (a) the amount initially recognized less cumulative amortization recognized and (b) the amount of estimated expenditure required to settle the guarantee obligation at the reporting date.

H. Liability for retirement benefits

Under Japanese GAAP, the JBIC Group expenses actuarial gains or losses on defined benefit plans in profit or loss as incurred.

Under IFRS, the JBIC Group recognizes directly remeasurement of defined benefit plans in "Other reserves" as incurred and reclassifies immediately to retained earnings. The JBIC Group remeasures retirement benefit obligations according to applicable IFRS and recognizes the remeasurement difference due to such as the period allocation method as "Operating expenses." The JBIC Group includes a liability for retirement benefits in "Other liabilities."

I. Difference between the date of consolidated financial statements and the reporting date of subsidiaries

Under Japanese GAAP, if the difference in the reporting date of a subsidiary and the date of consolidated financial statements does not exceed three months, only significant inter-company transactions are reflected in the financial statements of the subsidiary. Therefore, the JBIC Group makes adjustments for only significant inter-company transactions for Japanese GAAP consolidation purposes. On the other hand, under IFRS, the financial statements of consolidated subsidiaries need to be prepared, unless it is impracticable, to the reporting date of the parent company. Accordingly, the JBIC Group prepares the financial statements of the subsidiaries whose reporting dates are different from JBIC to conform to the reporting date of JBIC.

Adjusted net profit in accordance with IFRS before IFRS adjustments for hedge accounting (Non-GAAP information calculated and presented on the basis of methodologies other than in accordance with generally accepted accounting principles)

The JBIC Group uses derivatives exclusively to hedge interest rate risk and foreign exchange risk. Under Japanese GAAP, the JBIC Group applies hedge accounting in order not to recognize net gains (losses) from the valuation of derivatives deferred by hedge accounting in net profit. As the JBIC Group discloses its financial statements under IFRS for reference purposes and does not apply hedge accounting under IAS 39, "Net gains (losses) from the valuation of derivative financial instruments" and "Net gains from hedge accounting discontinued at the date of transition" are recognized in net profit (loss) in accordance with IFRS*.

As the JBIC Group uses these derivatives for hedging purposes, these derivatives will not be canceled for realizing temporal net gains (losses) from valuation before their maturity dates. However, depending on market conditions, these net gains (losses) from valuation might have a substantial impact on net profit (loss) in accordance with IFRS. Therefore, "Adjusted net profit in accordance with IFRS before IFRS adjustments for hedge accounting" calculated by excluding temporal net gains (losses) from valuation from net profit in accordance with IFRS is useful for the users of the JBIC Group's financial statements under IFRS to understand its financial performance and disclosed as a supplementary explanation for the reconciliation between Japanese GAAP and IFRS.

Adjusted net profit in accordance with IFRS before IFRS adjustments for hedge accounting is reconciled from net profit (loss) in accordance with IFRS by excluding the temporary gains or losses from the valuation of derivatives as follows:

(Billions of yen)

	March 31, 2018	March 31, 2017
Net profit (loss) in accordance with IFRS (A)	(91.6)	73.9
Net losses from the valuation of derivative financial instruments	(93.8)	(124.6)
Net gains from hedge accounting discontinued at the date of transition	0.8	2.8
Sub-total (B)	(93.0)	(121.8)
Adjusted net profit in accordance with IFRS before IFRS adjustments for hedge accounting (A)-(B)	1.4	195.7

Net profit (loss) in accordance with IFRS, adjusted net profit in accordance with IFRS before IFRS adjustments for hedge accounting and net profit in accordance with Japanese GAAP for the fiscal years ended March 31, 2018 and 2017

* See "A. Derivative financial instrument assets and liabilities" for the difference between Japanese GAAP and IFRS regarding the accounting policies for derivative financial instruments.
