

Appendix 1

Schematic Illustration of JBIC Facility for Asia Cooperation and Environment (FACE)

Significance of JBIC's equity participation

1. Exploit its knowledge on investment climates and economies in developing countries and its negotiating power in relation to their governments.
2. Provide sufficient safeguards for overseas investment projects
3. Serve as a catalyst for enabling Japanese private investors to work together.
4. Address the environmental and other political agendas by mobilizing private capital for the finance schemes of international organizations
