# Japan Bank for International Cooperation

# Summary of Japanese GAAP-Based Financial Statements for Fiscal Year Ending March 2005

Japan Bank for International Cooperation (JBIC; Governor: Kyosuke Shinozawa) made public its financial statements for the fiscal year ending March 2005 in accordance with generally accepted accounting principles and practices for Japanese private corporations (Japanese GAAP) on June 30, 2005. In order to ensure its objectivity, JBIC obtained an auditor's report from ChuoAoyama PricewaterhouseCoopers pursuant to Article 193.2 of the Securities Transaction Law.

Financial highlights of the Japanese GAAP-based financial statements for the fiscal year ending March 2005 are as follows.

(Unit: million yen)

### I. Income (Loss)

JBIC's asset-liability structure is characterized by long maturities of both assets and liabilities, with the overall loan assets having a longer maturity than the liabilities. Thus declining or low and stable interest rates in recent years have enabled JBIC to post consistently robust levels of net interest income. As there was no significant change in this trend during FY2004, operating income amounted to 192.6 billion yen. However, affected by increase in allowance for possible loan losses due to the worsening conditions of some of the debtors, ordinary income resulted in 99.0 billion yen. By adding extraordinary income of 31.4 billion yen, mainly a grant of 30.0 billion yen provided by the Japanese government out of its general account, net income was recorded as 130.4 billion yen. This grant has been provided since FY 2003 in accordance with the policy of the Japanese government to ensure fiscal soundness of JBIC under the "Changes of the Debt Relief Method" announced in FY2002.

(Note) General allowance for possible loan losses is the allowance for claims on debtors other than Bankrupt Borrowers, Substantially Bankrupt Borrowers and Potentially bankrupt Borrowers.

#### II. Assets, Liabilities, and Capital

As of March 31, 2005, the International Financial Account had total assets of 9,827.3 billion yen (decreased 318.9 billion yen from the previous fiscal year), total liabilities of 8,227.9 billion yen (decreased 298.5 billion yen from the previous fiscal year), and total capital and retained earnings of 1,599.3 billion yen (decreased 21.3 billion yen from the previous fiscal year). The Overseas Economic Cooperation Account had total assets of 10,825.7 billion yen (increased 132.2 billion yen from the previous fiscal year), total liabilities of 4,249.7 billion yen (decreased 168.4 billion yen from the previous fiscal year), and total capital and retained earnings of 6,575.9 billion yen (increased 300.6 billion yen from the previous fiscal year). Overall, the Bank had total assets of 20,653.0 billion yen (decreased 186.7 billion yen from the previous fiscal year), total liabilities of 12,477.6 billion yen (decreased 466.0 billion yen from the previous fiscal year), and total capital and retained earnings of 8,175.3 billion yen (increased 279.3 billion yen from the previous fiscal year).

## III. Loans

The results of self-assessment, including the classification of risk-monitored loans shown below and loan assets required to be disclosed in accordance with disclosure requirements set forth in the Financial Revitalization Law (FRL), were audited by ChuoAoyama PricewaterhouseCoopers based on the Practical Guidelines for Examining Internal Control Regarding Self-Assessment of Assets in Banks and Other Financial Institutions and Auditing Writeoffs for Defaulted Loans and Provisioning for Possible Loan Losses," (Japanese Institute of Certified Public Accountants, Special Committee Report No. 4, April 15, 1997).

What is unique about JBIC's operations is that its loans for developing country governments are taken to be official credit. Thus, when an indebted country is temporarily unable to service debt due to economic difficulties, debt rescheduling will sometimes takes place, based on an international agreement among the creditor countries in the Paris Club, in order to ensure sustainable debt service. A debtor country receiving such temporary support for overcoming the liquidity problem will implement economic restructuring programs agreed upon with the IMF to acquire sustainable debt service capacity.

As for the probability of repayment for the loans rescheduled in the Paris Club, this needs to reflect their nature as official credit, whereby the above international framework provides an asset-securing mechanism which is not found with private financial institutions. Nevertheless, to facilitate comparison between JBIC and private financial institutions, JBIC, in principle, treats the loans rescheduled in the Paris Club and whose debtor countries are categorized as "needs attention" in its self assessment of asset quality as loans assets required to be disclosed, classifying them either as restructured loans (under the Banking Law of Japan) or substandard loans (under the Financial Revitalization Law).

In the following table, loans were classified based on self-assessment on asset quality and in accordance with the disclosure standard of risk-monitored loans adopted by private financial institutions under the relevant regulations of the Banking Law of Japan.
