Dear Ms O'Hara

I have asked on numerous occasions that Metrolinx cease and desist with contacting anyone other than myself.

I would ask that you please honour our request. As discussed the archaeology that you are proposing will not be proceeding without the consent of HDI where this would run contrary to the archaeologists professional obligations.

Mr. Williams is not participating in the broader negotiations and was unaware of Metrolinx's refusal to date to honour free prior and informed consent.

Please advise the names of the archeologists so that we can speak with them directly.

Regards,

[REDACTED]

Hello Todd,

Thank you for expressing HCCC's interest in participating in the anticipated archaeological fieldwork. This work is set to occur in the fall, and so we will ensure the HCCC is kept apprised once we have more details on the fieldwork and the consultant. You can feel free to send me a copy of your agreement and we can hold it on file if that's preferable.

Please let me know if you have any further questions.

We are also aware of emails received by [REDACTED], but wanted to ensure that we responded to your last email and [REDACTED] is cc'd here as per his request.

Thanks
Jaimi

Afternoon Fallon,

I am responding to let you know that HDI is interested in participating in the upcoming archaeological fieldwork for this project.

Please provide the contact information for the archaeological consultant selected and I'll forward our standard monitoring agreement.

Thanks

Dear Ms. General,

Metrolinx continues to progress its environmental studies for the Ontario Line Project as part of the Subways Program. Attached you will find a letter providing an update on the project. The purpose of this letter is to:

- Provide an update on the scope of the project work
- share the initial draft of the Early Works Report for the proposed Corktown Station
- Invite your Nation to participate in upcoming archaeological fieldwork

In an effort to streamline your review, we draw your attention to the attachment which provides an overview of the expected environmental impacts and proposed mitigations, as we know this may be of specific interest to you.

Metrolinx is also preparing a letter specific to works being planned within the Don Valley as we recognize the significance of this waterway to many Nations. We hope to share that letter soon. We are happy to meet with your Nation to discuss the Ontario Line and address any questions or concerns that your Nation may have.

We ask that any comments on the draft Corktown Station Early Works Report be provided no later than April 15, 2021. Please note that the Noise and Vibration Report, which will be part of the Early Works Report is still being prepared and we will share with your Nation by March 19, 2021.

The draft Corktown Station Early Works Report is available at the following link: [REDACTED]

Please let us know as soon as possible if your Nation has interest in participating in future archaeological fieldwork.

We appreciate the volume of documents that Metrolinx has shared with your Nation.

If you have any questions or concerns, please do not hesitate to contact me.
Miigwetch,

Fallon

Dear [REDACTED]

Metrolinx is working with its consultant HDR to provide opportunities for participation in upcoming Archaeological Assessment and Natural Environment fieldwork associated with the Ontario Line. Please find attached a letter inviting your Nation to participate.

The fieldwork is anticipated to late August - early September 2021. Please let me know if you have interest in participating as soon as possible, and we will work with you, the project team and HDR to coordinate.

[REDACTED] and establishing processes to support a respectful and
[REDACTED] menable relationship as we move forward, including capacity funding to monitors.

If you have any questions or concerns, please feel free to contact the Indigenous Relations Office at anytime.

Hello Wayne,

Thank you for your interest in this archaeological work. We are happy to work with HDI to coordinate a site visit. I was hoping to confirm with you if HDI's interest is to visit the Moss Park and Ordinance Ave sites, or if this request applies to the broader archaeological assessment area associated with Corktown Station, including the First Parliament Site, which is a multi-component site.

Metrolinx staff could also attend any arranged site visit to answer any project specific questions you may have. Please let us know if you have an estimate for any costs associated with this site visit. As always, we are also happy to arrange for HDI to provide monitors as part of these archaeological assessments.

Once you confirm the details of the site visit, I can connect with the environmental team who can coordinate a date with HDI and Stantec.

Please let me know if you have any further questions or if I can be of any further assistance.

Thank you,
Jaimi

Good evening,

I'm inquiring about the on going archaeological work with your consultant Stantec specifically. I would like to arrange a site visit for myself to understand the details and scope Metrolinx proposed endeavor.

It has come to my attention a significant archaeological site and or sites is planning to be mitigated.

I look forward to hearing back.

Wayne

Good afternoon Ms. O'Hara,

Further to [REDACTED] email, there has been no engagement on the application and HDI will need more information and capacity funding in order to be in a position to respond.

Ideally discussions will commence between Metrolinx and HDI later this month, however, at present there are no ongoing discussions. To the contrary, dialogue between Metrolinx and HDI has stalled since March 2021. Since that time, Metrolinx has not followed through on scheduling meetings, nor has Metrolinx substantively responded to HDI's questions and information requests regarding Metrolinx activities on Haudenosaunee territory or provided a response to HDI's formal objection to one of Metrolinx's projects, the Electrification EPR Addendum.

Given what has transpired over the last many months and the complete lack of engagement, HDI is seriously concerned by how Metrolinx is proceeding to move projects forward on Haudenosaunee territory. HDI continues to wait for Metrolinx to respond to the above and is hopeful that a meeting between Metrolinx and HDI will be scheduled shortly.

Kind regards,

[REDACTED]

Dear Ms. O'Hara:

I have forwarded this email to our counsel to address in a more fulsome manner; however I would not characterize anything passing between us and Metrolinx as 'ongoing discussions'. I take the view that this is a misrepresentation and falsehood. At this time there has been no engagement whatsoever on your application.

Regards,

[REDACTED]

Dear Ms. O Hara:

I am interested in making sure the archaeology does not proceed where we have not provided consent for it to proceed ... please advise on who the licensed archaeologist who is responsible for this project because if it does proceed we are going to commence a professional complaint and attempt to have their license revoked. And as an side how do you cope internally with ignoring treaty rights and participating in a project that simply treats indigenous people as an afterthought. It must be hard to do your job and have any sense of honour.

Dear Ms O'Hara:

I understand that this may seem redundant for you - it certainly is redundant from my perspective but we are opposed to all of the Projects that you've set out below where you know they interfere infringe and impair Haudenosaunee rights and interests.

We have been provided no means to review any of these projects and as such any comments I would make now would be meaningless. You are fully aware of this however you continue to insult me by sending me these emails asking for comment.

Metrolinx has failed to provide us with notification and it has failed to justify infringements caused by the activity contemplated by the reports set out below.

I very much resent the attempt, in a very colonial manner, to somehow limit our ability to comment by way of time frames that are being unilaterally imposed.

I do not believe it reasonable or appropriate that you set artificial deadlines to somehow imply that our constitutional rights can be impaired if we don't reply by a certain date. I find your email offensive where you know over and over again my comments in relation to Metrolinx's ability to completely ignore the need to obtain consent and/or justify infringements.

You indicate that you are prepared to meet to discuss how you might support our review but we have told you time and time again that the means for review involves your application which you steadfastly refuse to acknowledge or provide. To be honest we really don't need your 'help' but acknowledging our treaty rights as a starting point would be a good thing to do and at the same time acknowledge the need to obtain consent for projects in our treaty territory.

It is unfortunate that you have chosen to pursue this avenue instead of the process that we had put to you at our last meeting. I am not going to let you prejudice our position with these emails any further.

I now understand that the commitments made at that meeting by Metrolinx were meaningless and we will deal with Metrolinx accordingly through litigation where negotiation has obviously come to an end.

Please direct your emails to our legal counsel and do not send any further emails to me or anyone else with HDI.

Regards

We wanted to follow up with you regarding any comments your Nation may have on the following reports:

Subways

1. Ontario Line

- a. Draft Environmental Impact and Assessment Report (EIAR)

Comments due **December 6, 2021**

2. Yonge North Subway Extension

- a. Draft EPR Addendum and Impact Assessment Reports

Comments due **December 9, 2021**

Rapid Transit

1. Dundas Bus Rapid Transit (BRT)

- a. Draft Environmental Project Report (EPR), including Draft Natural Environment and Arborist Reports

Comments due **November 26, 2021**

2. Kitchener King-Victoria Transit Hub (KVTH)

- a. Draft Stage 1 AA Report

Comments due **December 10, 2021**

GO Expansion

1. Lakeshore East

- a. Stage 2 AA Report for 61 Milne Ave and 3555 Danforth Ave

Comments due **December 28, 2021**

Stations

1. Existing Stations Renovations (ESR)

- a. Draft Stage 1 AA

Comments due **December 17, 2021**

We appreciate the volume of reports being sent to your Nation by Metrolinx and welcome meeting with you to discuss how we might support the review. If you have any questions or concerns, we would be happy to arrange a meeting to discuss.

We sincerely appreciate your time,

Thank you,

Dear Ms. Koerner Yeo and Ms. Esmonde,

As per Mr. [REDACTED] direction, received December 1st, 2021, indicating that all Metrolinx communication should be channeled through you as HCCC/HDI's legal counsel, we wanted to share with a follow up to the letter sent on November 3, 2021 to HCCC/HDI, regarding the Ontario Line Project Species at Risk 17(2)(d) Permit Amendment Under the *Endangered Species Act*.

The Proposal for the 17(2)(d) Permit Amendment was posted on the Environmental Registry of Ontario (ERO) on December 3rd, 2021 for a 30-day public review period, ending January 2nd, 2022, as per Ministry of Environmental, Conservation and Parks procedure.

The ERO posting can be found in the following link:

<https://ero.ontario.ca/notice/019-4601> Comments can be submitted directly to the Ministry of the Environment, Conservation and Parks.

If you have any questions or concerns, please feel free to reach out to me at any time. Additionally, we are happy to arrange a meeting to discuss the Permit, if that would be of interest.

Thank you for your time and assistance.
